"S. S. May Queen"

This popular steamer leaves St. John, N. P., Wednesdays and Saturdays for Grand Lake and Salmon River at 8 s. m., returning Thursdays and Mondays, touching at Gagetown. This is the most beautiful and pictureaque route in the Maritime Provinces, also the best hunting ground for moose and caribou, ducks, snipe and partridge. Good trout fishing near Chipman. Good hotel accommodation can be procured at Chipman, and small parties can be accommodated on board the steamer.

STOCK MARKET TAKES ON MORE LIVELY TONE

Trading More Active and **Cheerful Sentiment Rules on** 'Change-Reading Interests May be Merged.

New York, Aug. 16.—The stock market today manifested a very decided disposition to awaken from its lethargy of the previous day by making a number of substantial advances. Trading was more active and embraced many specialties, such as Colorado Fuel and Iron, Colorado Sonthern American Beet Sugar, National Biscuit, American Ice, Central Leather and International Harvester. The movement in these stocks was almost wholly manipulative and persumably for account of various pools. Later in the day the more active issues, including Reading, Union Pacific, Southern Pacific, Atchison, St. Paul, United States Steel, Amalgamated Copper and American Smelting participated in the advance, Rumors of a forthcoming segration of Reading's assets were once more revived, and received some credence by reason of the strength of Lehigh Valley in the Philadelphia market. Canadian Pacific was active and strong in connection with reports that the company had increased its sphere of activity by the purchase of the Allan Line of steamers.

The day's adverse news features included the foreign trade report for July, which showed another excess of imports over exports, a reduction in the dividend on the Pfd, stock of the United States Cast Iron Pipe Co., and the filing of a petition in bankruptcy against one of the smaller southern iron companies.

On the other hand, marked improvement was respected in the general textile situation, and much of the day's news respecting crops was at least favorable.

On the other hand, marked improvement was respected in the general textile situation, and much of the day's news respecting crops was at least favorable.

On the stock exchange sentiment was more cheerful, traders taking the ground that the immediate outlook seems conducive to a better market. The opingion, however, was almost fully maintained to the close, which was active and that stocks are

New York, Aug. 16.—Early reports of rain throughout Texas and Oklahoma depressed both the Liverpool and New York market during the morning, but as the session wore on there were plentiful advices to the effect that precipitation had been only local and very scanty, whereupon the carried prices from 20 points for August to 8 points for the positions above last night's close. The strength was all the more impressive buyers and the weekly government weather burean bulletin reported conditions much more favorsable through both the Eastern and Southwestern belt. Moreover, response to the far Southern portions reported a rapid movement of the new crop, Many close observers attributed much of the buying to big spot interests, fore it is completed.
