CHILDHOOD AILMENTS.

The ailments of children are many
and most of them are caused by some
derangement of the stomach and bow-
els. Therefore to treat these trou-
bles the stomach must be kept sweet
and the bowels regular. To do this
nothing can equal Baby's Own Tablets.
Thousands of mothers have proved
this. Among them is Mrs. Thomas
Hobbes, Blenheim, N.B., who writes:
"Every mother in this locality uses
Baby's Own Tablets as we all consider
them the very best medicine for child-
hood ailments." The Tablets are sold
by medicine dealers or by mail at 25
cents a box from The Dr. Williams'
Medicine Co., Brockville, Ont.

SACKVILLE

Sackville, May 11—Mrs. Josiah
Wood was hostess at a very pleasant
tea on Wednesday afternoon, at her
residence, Government House, in hon-
or of the seniors of Mount Allison
Ladies' College, and also for the boys
of the university who have enlisted
for overseas. Quantities of spring
flowers, snapdragons, tulips and carn-
ations shed their fragrance through the
rooms, where Mrs. Wood received her
guests, assisted by her daughter, Mrs.
F. B. Black.

In the dining-room the tea table
was beautifully ornamented with daf-
fodils, and other spring flowers, and
was presided over by Mrs. Wheelock,
and Mrs. Hammond. Assisting with
the refreshments were Miss Gladys
Borden, Miss Dorothy Hutton, and
Miss Marie DesBarres. Mrs. Herbert
M. Wood cut the ices. Miss Vega
Gronlund, Miss Elaine Borden and
Miss Edith Hutton ushered the guests
to the dining-room.

which contributed to the pleasure of
the guests. Among those present

Miss Netta Thompson of Oxford,
saved her graduating recital in oratory
at Fawcett Hall, on Friday evening
last. Miss Thompson opened her pro-
gram with a little family scene from
Shakespeare, the meeting between
Launcelet and old Golo in the early
part of the Merchant of Venice. Her
method of treatment was light and
vivacious, full of characteristic action,
and well set off by a clear, easy dila-
tory. In the following number, consist-
ing of three little "chamber pieces," she
was very happy and delighted the au-
dience with her naturally humorous inter-
pretations of ingenious roles of child-
hood. She concluded her programme
with McKaye's three act drama
"Jeanne d'Arc" and here again, her
power of portraying youthful simplic-
ity and true earnestness into striking pro-
mience in the figure of Jeanne whom
she interpreted as the inspired girl
dreaming. Miss Thompson's work is
remarkable for the atmosphere of
sweetness and naivete which she can
create at will, and the vivacity which
marks her delivery. On the conclu-
sion of her program, she was enthus-
iastically recalled by the audience.

Miss Thompson was assisted by
Miss Elsie Tait of Carleton Place, New-
foundland, and Miss Lola Whitney of
Truro. Miss Tait's numbers display-
ed all her usual brilliancy of execu-
tion and were greatly enjoyed by the
audience who recalled her earlier suc-
cesses. In the Aria "Vissi d'Arte" by
Puccini, and "Whispering" the "Forest
Song," Miss Whitney displayed again
the wonderful power of her rich so-
prano voice, which never fails to de-
light the audience upon her every ap-

been tied down to hard work all winter, makes
his plans for a trip to the Lake and Stream in quest
of the speckled beauty. In making up a list of the

the fact that a few bottles of **READY'S PALE

able on such an occasion.

After a tiresome tramp, nothing is more re-
freshing or strengthening than a bottle of either
of these beverages.

Let Julia Heinrich Sing for You

Come and hear her wonderful voice recreated, with all its tonal richness and
beautiful expression, by the New Edison Diamond Disc Phonograph.

The illustration shows Miss Heinrich, soprano of the Metropolitan, the find
of the season in opera, singing in direct comparison with Edison's Re-Crea-
tion of her voice, to illustrate that one is identical with the other.

MISS HEINRICH is but one of the many great artists who have proven that
Edison has accomplished his ambition to re-create music so perfectly that
it cannot be distinguished from the original.

Hear this re-creation of her sweet, sympathetic voice by

The NEW EDISON

which, bear in mind, does not merely reproduce sound, but actually re-creates
all forms of music. A masterpiece does not require a trade name, nor the
usual methods of commercial exploitation. This new invention (which vir-
tually embodies a new art) has no name save that of the inventor. It is
THE NEW EDISON.

Mr. Edison has invited the astounding test of having great artists sing and
play in direct comparison with his Re-Creation of their work.
Musical critics of leading newspapers throughout this country admit, in
the columns of their own newspapers, that their trained ears are unable
to distinguish between the artist's voice or instrumental performance and
Edison's Re-Creation of it. A pamphlet containing extracts from these cri-
tiques may be had for the asking, but, to really appreciate this marvellous
musical triumph, you must come and

Hear the New Edison

and then compare its tone with that of any sound reproducing machine to
be found today.
