

THE SEMI-WEEKLY TELEGRAPH, ST. JOHN N. B., JUNE 29, 1901.

OUTLOOK POOR.

Far from Reassuring News from Lumber Drives.

Fredericton, June 25.—(Special)—Word today from the lumber drives up river is not reassuring. It is to the effect that the head waters are so low that Pond, who has the upper corporation drive, has taken his men off and given up the attempt to get any more logs out until there comes a rise of water.

John Kilburn has discharged his stream drivers and will not be able to get his big drive to the mills this season.

R. H. Noble was at the mouth of the Acworth today with the third installment of the corporation drive, but he has not a very large quantity of lumber; and Pond's ceasing operations on the upper limits means that but very little more lumber will come out this season, unless heavy and prolonged rains should set in soon.

The water in the river is very low, almost down to the level usually reached about the month of August.

At a meeting of the new skating rink promoters today tenders for building the proposed rink on the military grounds were opened. It was decided not to accept any of the tenders received at the present time but to solicit subscriptions with the view of forming a joint stock company.

At St. Dunstan's church this morning, Maggie, daughter of Edward Carey, of Rusiagornish, was united in marriage to John Coyle of Bonaventure. The ceremony was performed by Rev. J. Carney. The bride was attended by Miss Nellie Barry, and Mr. Michael Moore supported the groom.

At St. Dunstan's tomorrow morning, Mr. A. C. Mackey will lead Miss May Donahue to the altar.

Miss Grace Porter, daughter of the late Rev. T. H. Porter, and Mr. Harry F. Alward are to be married at 5:30 o'clock tomorrow afternoon at the home of the bride's brother, Westmorland street.

Invitations are out for the wedding of Miss Jennie, daughter of Mr. Wilmut Guion, and Mr. William McKay.

TO EXPLORE UNKNOWN ALASKA.

United States Party Now in Dawson—Will Get Geological Information and Make Maps.

Seattle, Wash., June 23.—A United States exploring party arrived in Dawson early in June on the way to northern Alaska to explore one of the widest unknown areas in the world. It is headed by W. C. Mendall, geologist, and L. E. Reardon, topographer, who are accompanied by five men. The party was to leave Dawson about June 10, and down the Yukon to Fort Hamilton by steamer, thence overland by the Dalton trail to the middle fork of the Koyukuk to Bergman, where supplies were shipped for the party last year. Thence they go up one of the southward flowing tributaries of the Koyukuk, by Chisholm, thence over the trail to the Kowak and down the Kowak to Kotzebue Sound, opening into the Arctic Ocean a short distance north of Beltinger Bay. This is the first government party ever detailed to this field, which has been explored by but few white men. Mendall will gather geological information and Reardon will make maps of the country traversed.

SHELDON'S OPINION.

Leamington, Ont., June 3.—Mr. Sheldon states that for two years he has been trying to cure his son of Catarrh, but without permanent results were not attained until Catarrh was cured. Catarrh is a little boy like many, and he has been cured free from Catarrh ever since. Catarrh cures all forms of Catarrh, Throat, Irritation, Coughs and Colds. No remedy like it. Quick to relieve, pleasant to use, guaranteed to cure. Clear throat and nose at one breath. Try Catarrh, 25 cents and \$1.00. Druggists or Polson & Co., Kingston, Ont.

HINTED AT TROUBLE TO COME

American, Who Was Arrested in New Zealand, Makes Speech in Court.

London, June 26.—Charles Lilly White, a naturalized American citizen, who was arrested in Wellington, N. Z., last November, on a charge of being Arthur Blatch, who committed a murder at Colchester in 1893, and in whose case Nolle Prosequi was returned, was released from custody today.

After his discharge White was permitted to make a speech in the crowded court. He pointedly referred to his rights as an American citizen and intimated that he did not intend to allow the matter to drop.

FREE SAMPLES! FREE SAMPLES!

Send for a free sample of Catarrh, guaranteed to cure Catarrh, Bronchitis, Asthma and Hay Fever.

In order that every sufferer in Canada may test the marvelous curative properties of Catarrh, we will mail free to any address, a twenty day trial, sufficient often to cure. Enclose fee for postage and box and address, Polson & Co., Kingston, Ont.

WATERS ENGULF TOWN.

Loss of Thousands of Dollars—Several People Struck by Lightning.

Pittsburg, June 25.—A storm which struck Pittsburg and vicinity this afternoon was short but terrific. The lightning and thunder were practically continuous for about 30 minutes. In Homestead, Miss Alice Lester, aged 24, was struck by lightning and instantly killed. Miss Grace Jackson, of Homestead, was struck and her recovery is doubtful.

Richard Rucker, also of Homestead, was frightfully burned and will hardly recover. Rev. John Saulson and Clay Blauke were badly shocked but will recover. The waters rushed down the hills around Homestead and literally engulfed the town. Damage will reach many thousands of dollars.

Professor, Hincley G. Mitchell, of the Boston University School of Theology, has gone to Palestine where he will spend a year as director of the American School for Oriental Study and Research.

RUSSIA AND CANADA.

Consul General for Dominion at Sydney.

Sydney, June 24.—N. de Struve, Russian Consul-General for Canada, arrived in Sydney on the fast express tonight. Mr. de Struve, accompanied by A. Boff, German Consul-General for Canada, is on a tour of inspection of the industries of Canada with the view of extending the commercial relations between Canada and Russia. The consul-general speaks English with fluency and accorded the Chronicle's representative an interesting interview tonight. He said there is an unlimited coal supply in Cape Breton. Hitherto Russia has been securing most of the coal for her navy from England. If coal is cheaper in Canada, I will certainly recommend to my government the advisability of purchasing considerable coal for our navy from Canada. Russia, of course, also greatly interested in the iron and steel industry. We want rails for our Siberian railway, and we want other products of iron. And I will make a report to my government on the steel industry as it exists in Canada today.

"I am told there is an unlimited coal supply in Cape Breton. Hitherto Russia has been securing most of the coal for her navy from England. If coal is cheaper in Canada, I will certainly recommend to my government the advisability of purchasing considerable coal for our navy from Canada. Russia, of course, also greatly interested in the iron and steel industry. We want rails for our Siberian railway, and we want other products of iron. And I will make a report to my government on the steel industry as it exists in Canada today."

AT BEULAH CAMP.

Business Sessions Yesterday Morning and Afternoon—Many Are Arriving at the Grounds.

Brown's Flats, June 27.—The meetings at Beulah are daily increasing in interest and attendance. Ministers and delegates are arriving by nearly every boat. The weather is delightful. Yesterday the committee raised the big tent to accommodate the overflow of camp meeting attendants.

At the session of the Alliance in the afternoon the following officers were elected for the present year: President—Rev. J. H. Coy. Vice-president—Rev. M. S. Trafford. Recording secretary—Rev. A. L. Bubar. Assistant secretary—Rev. G. B. McDonald.

Corresponding secretary—Rev. W. H. Sherwood.

Treasurer—Mr. E. Cosman.

Auditor—Mr. C. K. Short.

On motion, Revs. W. H. Wiggins, G. W. McDonald and Mr. C. K. Short were appointed a nominating committee.

A devotional committee was also appointed.

Rev. A. L. Bubar was on motion received as an ordained minister of the alliance.

It was resolved that Rev. T. W. Moser be dismissed from this alliance at his own request.

It was resolved that newspaper copies of alliance and camp meeting be sent the St. John Telegraph, Globe, Sun and Gazette.

Last evening the president, Rev. J. H. Coy, gave a very profitable sermon, followed by a number of earnest testimonies.

The grounds at Beulah are looking beautiful and there is activity and stir on every hand. The hotel is ready to meet the physical wants of the hungry and everything is in order. Today the big flag will wave over the tabernacle. The several committees are energetically at work preparing for the rush of visitors at the last of the week. The river steamer will, it is expected, have to call at Brown's wharf regularly in order to meet the requirements of so large a number of persons coming to and going from the camp meetings.

This morning's session of the alliance was given to taking up the reports of committees. The training school committee recommended that papers be prepared on points of doctrine and pastoral work and read before the alliance. Revs. G. W. McDonald, W. B. Wiggins, M. S. Trafford, S. A. Baker and G. B. Trafford were selected to prepare such papers.

The following resolutions on temperance were unanimously passed:

1st. We feel that as a body we are no less aggressive to us should be in our efforts to suppress the use and sale of intoxicating liquors and tobacco. And we believe that in order to be more effective in our influence we should not, whenever possible, patronize grocery stores or drug stores where liquors, beer or tobacco are sold except for medicinal purposes;

2nd. We would also request that this alliance have a number of temperance pledges secured and that one be placed in each of our Sunday schools and that the different superintendents and pastors bring the subject more prominently before the minds of the people, as we feel there is a great lack of agitation on the temperance question all over the country, and that in a majority of cases the Christian churches are not doing all they can in relation to this subject.

Fight Against Ignorance.

Here in the north we make our greatest fight against ignorance, and that is what the south must do without distinction of races if it hopes to progress as the north has done. It may make its social reservations still, but the opportunity for mental improvement and political equality must be granted, and the blacks themselves have no greater interest in their own advancement than have their intelligent white neighbors.—Chicago Record-Herald.

The I. C. R. Improvement Work.

E. Horne, manager's assistant of the I. C. R., has been spending a couple of days in the city inspecting the terminal facilities and the improvements necessary. Yesterday he made a thorough examination of the possible sites for the new round house, and their advantages and disadvantages. After the examination he submitted a rough sketch of his plans to Manager E. G. Russell while the latter was in the city yesterday en route for Montreal.

A survey of the most favorable situation will be made at once and plans prepared for the proposed new round house, and the improvements necessary. Yesterday he made a thorough examination of the possible sites for the new round house, and their advantages and disadvantages. After the examination he submitted a rough sketch of his plans to Manager E. G. Russell while the latter was in the city yesterday en route for Montreal.

HOW A SPRAIN DOES HURT.

But it isn't the pain alone that is dreaded, just think of the loss of time and wages. Sprains without number have been cured by rubbing Polson's Nerviline well into the pores of the skin surrounding the joint. No matter whether it is a sprained wrist, ankle, knee or back, just try Nerviline on it, and see how quickly it will cure. There is only one ointment that can be depended upon to cure sprains, strains and swellings, and that is Polson's Nerviline. Large bottle 25 cents.

300 MASSACRED.

French Converts Killed by Natives of Corea.

Victoria, B. C., June 26.—(Special)—The steamer Kamagura Maru, of the Japanese line, brings news of the massacre of 300 French converts at Quelport, Corea. According to the governor's report, when a meeting of natives was being held, 200 French missionaries appeared with 300 converts armed with rifles and they opened fire upon the natives, wounding one and carrying off six. They then invaded the village and carried off flags and ammunition. The natives returned with a large force and the converts, being outnumbered, died, two priests taking refuge in the governor's house. Fifty converts were killed. A day or two afterwards 250 converts found hiding in villages were massacred. One survivor managed to reach a telegraph station and notified the French minister at Zoolia. French and Japanese warships, together with Co-ean troops, were sent and put down the rising.

DEMONSTRATION FOR KRUGER.

Oom Paul Received at Rotterdam—Silence, the President Sleeps.

Rotterdam, June 26.—In a speech of welcome to Kruger at the town hall today the burgomaster spoke of the similarity of the Transvaal and Dutch struggles for liberty and said Rotterdam wished, through Mr. Kruger, to pay homage to the little Boer nation, which had shown such faith and confidence in its own strength.

Mr. Kruger, in a brief reply, deplored the fact that his country was out of supplies and ammunition, whereas the Dutch had their own supplies during their struggle. He was fully convinced, the Lord would deliver his country in His own good time.

London, June 25.—Lord Kitchener cables the war office that he had received twenty-seven wounded and 100 taken prisoners. Several burghers surrendered, and the British also captured 41,000 rounds of small arm ammunition and 204 wagons, besides horses and stock.

Mr. Kruger was welcomed at the railway station on his arrival here by the burgomaster, deputations from numerous societies, and many ladies. Bands played the Transvaal anthem and huzzas were given to the hero of the war.

There was a grand serenade and torchlight procession on his arrival here by the burgomaster, deputations from numerous societies, and many ladies. Bands played the Transvaal anthem and huzzas were given to the hero of the war.

THROUGH TRESTLE.

Terrible Train Accident; Many Lives Lost.

Peru, Ind., June 26.—Thirteen persons were killed and about 50 seriously injured in the wreck of the west-bound Washam limited nine miles west of this city, at 12:30 a. m. today.

The dead are: Mrs. Hattie Cruz, wife of Joseph Cruz of New York, who was injured; Miss Annie Mulholland, sister of John Mulholland, New York, who was slightly injured; Luigi Bendi, New York; five Italian men, names unknown; two Italian women, names unknown; a young girl from the cab, but not seriously hurt.

Two sections of train No. 2, one coming from Detroit and the other from St. Louis, were consolidated in this city into a train of 11 cars, making up the flyer for its journey to St. Louis.

The train was speeding westward at high speed when the engine plunged through a trestle which had been undermined by the recent heavy rains. The trestle broke on both sides of the little stream dropped at a sharp degree of incline and the engine leaped across the abyss, plunged into the water on the opposite end and fell head to the bottom. Engineer Butler and Fireman Adams were thrown from the cab, but not seriously hurt.

The engine car and the first chair car were telescoped. The immigrant car followed by two chair cars went down on the left side of the track and the first sleeper pitched forward upon the mass of wreckage, but none of the occupants were injured. The remaining cars also left their trucks, but were not badly damaged.

It was in the immigrant and in the day coaches that most of the deaths and injuries occurred.

The night was intensely dark. For a moment after the fatal plunge and dreadful roar of crashing timbers, a deathlike stillness prevailed. Then there broke out a fire of torches, hastened to the scene, and all efforts were bent to giving first aid to the injured.

The injured were placed aboard the cars and brought to the general hospital in this city. Hundreds of tons of wreckage and broken timbers rested upon the car where the unfortunate immigrants were crushed, but by means of working derricks the mass was gradually opened and by daylight nearly all the dead bodies were removed to this city.

Pittsfield, Mass., June 26.—The Albany express, which was wrecked at Peru, was brought to Boston, struck a derelict freight train at Hudson, and was wrecked at Hudson. The passenger train had slight injuries and the freight train was crushed, but by means of working derricks the mass was gradually opened and by daylight nearly all the dead bodies were removed to this city.
