The pro-cathedral was the scene of a very interesting event this evening, when Sarah, daughter of Mr. Benjamin Clancey, and Mr. George Duffley, of Boston, were united in marriage, the ceremony being penformed by Rev. Henry T. Joyner. Ine bride wore a very beautiful gown of white crepe de chene over white taffeta silk, and looked very pretty. She was attended by her sister, Miss Mary Clancy, who was attired in a very dainty frock of pale green mouselin de soie. The groom was attended by Mr. William Clancey, brother of the bride. After the ceremony, which was witnessed by many friends, the happy couple drove to the home of the damous savant of this city, Frot. Inclina Fr. Adkin. The woman was being prepared for her long, last journey when the attention of this scientific wonder-worker was called to her case. Responding instantly, and succeeding where doctors and all others had failed, he revived the spark of life in her body, put an end to the agonies of dissolution, stopped all preparations for burial, and in a manner and space of time truely miraculous restored the woman to health and returned her well and strong to those who had bidden farewell to her forever. So remarkable and unlooked for was this happy ending that Prof. Adkin is being accredited with possessing divine power. When the husband, with tears of joy and gratitude in his eyes, offered his benefactor a check written in four figures, Prof. Adkin refused to accept it, saying: "I must decline this check, the same as I refuse the poor man's offering. If I charged a thousand dollars a treatment I could do no more than I now do for nothing." happy couple drove to the home of the bride's parents, where a reception was held. When seen in reference to this wonderful resoue, Prof. Adkin said: "Yes, I restored the woman to life at the very edge of the grave, and when I say that I made no charge for certain help to those who are ill and suffering, I mean every word of it. This is only one case out of thousands where I have been the instrument of God in restoring health and happiness to the sick and dying. Daily I receive letters filled with moans and sobs of physical and mental agony, imploring me for the aid I am so glad to bestow. A few days pass and others from the same people come fairly singing with joyous gratitude for the wonderful restoration to health my power has accomplished. Some of the worst cases in the country have been brought to me, men and women on their way to the grave, as was this Mrs. W. S. Swayne, and I have cured them so quickly that people say I work miracles."

The sensation created among the medical fraternity by his discovery and miraculous cures has been so great that recently a deputation of representative physicians came here to study and investigate the secrets and methods of this wonderful man. While they one and all were compelled to admit the facts and acknowledge the countless cures Prof. Adkin is making, they were unable to explain or account for the mysterious, intangible force he exerts. Some of them admitted that their remedies were as bread pills and water compared with his treatment. While, as an upright Christian man, Prof. Adkin gives thanks to God for the knowledge He has sent, he disclaims the statement that his power is not divine or superhuman. It is scientific to the highest degree, based on a secret law of nature that commands life and death absolutely. Though this secret has baffled the doctors and wise men of all times, I finally discovered it after long study and research.
