A Competent Cook.

A friend of mine engaged a cook from the North. She brought with her good recommendations, and was supposed to be an experienced and competent kitchen servant. Her mistress received a hare in a present, and next morning went as usual to give her instructions for dinner. "I wish to have hare soup, Mary, I suppose you know how to prepare it?" "Oh, yes, certainly, ma'am," she replied. "Well, I should like it particularly good this evening, as Mr. — is bringing one or two to dine with us." The dinner hour approached, and my friend went imagined better than described at seeing the cook seated in a chair with the hare on her lap, tugging and pulling in vain at its skin. "Why, Mary," she exclaimed in horror, "what are you trying to do?" "Well, ma'am," answered the maid in a tone of dismay, "I never had such a beast as this to pluck before. I have sat here these two hours, but never a bit can I get off."—Scottish-American.

"No one who has not had Influenza can realize the s t causes or how it defies treatment. I know of nothing that will give such prompt relief as Chamberlain's Cough Remedy, for when it is taken the pain in the chest disappears, the fever subsides and the whole body becomes more comfortable.

Then again, the after effects of Influenza are often even more stressing than the disease itself, but they can be avoided if

Chamberlain's Cough Remedy

Though the greatest danger from this disease is Pneumonia, I have never known a single case of Influenza to result in it when Chamberlain's Cough Remedy was freely given. The persistent cough that frequently follows Influenza can be relieved by Chamberlain's Cough Remedy, and should not be allowed to run on until it becomes troublesome."

"The alleged labor revolt," he said, "is far more a revolt against the official leaders of trade unionism than against the government. For months on the Clyde, for instance, there has been a strong syndicalism movement, trying to overthrow the official leaders of trade unionism. The difficulty of the ministry of munitions on the Clyde arose from the fact that there is a powerful organization working with great skill to overthrow the recognized leaders of organized labor there. This movement does not represent a majority of labor, it consists only of a powerful minority."

CANADIANS JOINING ON OTHER SIDE.

London, Jan. 4—(Montreal Gazette Cable)—Recrusting among Ganadians on this side still shows considerable activity, it is reported by Lieut.-Col. Paul Hanson, who is now with Lieut.-Col. Frank Reid at Shorncliffe. Three years' residence in Canada within recent date is insisted on, while the physical standard is rather higher than in Great Britain, in fact it is hinted that the standard for western Canada might be raised.

"German imports aiso have been greatly reduced, such important staples as cotton, wool and rubber being excluded and others, like fats, oils and dairy products being obtainable in Germany only at famine prices; while advices reaching his majesty's government show discontent among the population and food riots in some of the larger towns."

State Commerce laws, came up in the United States Circuit Court of Appeals today, but no assignment was made.

Horn claimed that his attempt to destroy the bridge was an act of war.

Judge Putnam, who is presiding, said he did not think it was proper for him to sit in the case, as he had heard part of it when it first reached the federal court. Judge Dodge is expected to assign the case next week.
