The July Agricultural Report to the Government represents an improvement in winter wheat, but a decline in the prospects of shipping wheat, on account of the unseasonable weather in some quarters, and insect enemies in others. The average in corn is increased in West Virginia and Minnesota, and decreased in all the other States except in Florida and Arkansas, where it remains the same as last year. Corn planting everywhere was retarded by the weather, and in many cases corn has been several times replanted. Other crops or cereals are reported below the average. Potatoes average; same as last year.

FELLOWS—SIT: I am pleased to inform you that my health is improving under the use of your Hypophosphites. Excessive tax of the brain had so exhausted my body that I could neither work nor enjoy myself, and it was with difficulty that I could sleep at all. I tried rest, and active exercise, various tried rest, and active exercise, various medicinal remedies, and the most popular physicians, and accidentally heard of your Syrup in New York. I purchased three bottles at Caswell & Hazard's, and until I used that nothing relieved me. Now 1 can eat well, sleep well, work well, and feel well, and have good reason to consider your syrup a most surprising and capital restorer of the mind and nervous system, and advise all who have much brain work to take it.
