"Canada has the greatest opportunity of any community on the face of the earth," stated St. Lee Strachy, editor and proprietor of the London Spectator, in the course of a recent address before the Canadian Club. He stressed the advantages the country enjoyed in her large wheat area, electrical energy, wood pulp and mineral assets.

Between 20,000 and 25,000 men are expected to work in the forests of the Province of Quebec during the coming winter, according to the chief forester of the province. It is anticipated there will be a good season in the pulp and paper products, but that the output of lumber will not be so heavy owing to the low price prevalent for sawn lumber.

Cordial relations between the ports of Quebec and Liverpool were emphasized recently by the exchange of cables by the respective Chief Magistrates of the two cities. The occasion was the Civic Week Celebration at Liverpool when the Lord Mayor, Thomas Dowd, sent Mayor Joseph Sanson, of Quebec, greetings to which the latter responded.

A record for October weddings was established at the Windsor Station, Montreal, early in that month, when twenty couples invaded the Concourse on their way to Boston, Quebec, Ottawa and Toronto. Two of the bridegrooms were bounced following time-honored custom. It is used to be the fashion to subject brides to this usage, but since the advent of short skirts the practice has been frowned upon.

Establishing what is easily a world record for movement of wheat, grain poured into Fort William and Port Arthur elevators to the rate of nearly thirty bushels a second for the whole of the 24 hours of October 5, from Canadian Pacific Railway cars. In all, 1,704 cars were unloaded during the day and each carries an average load of 1,500 bushels, representing a total of 2,556,000 bushels.

Driving into stationary trains on level crossings seems to be a favorite sport on the part of a number of motorists judging by reports coming in recently from different sections. The latest is from Galt, where an automobile, in broad daylight, ran into a freight train consisting of 18 loaded and 15 empty cars standing in plain view on a crossing. Fortunately no one was hurt, but the instance is another of gross carelessness on the part of motorists.

The Grand Challenge Cup, emblematic of the First Aid championship of the entire system of the Canadian Pacific Railway, was won by the Weston Shops team, of Winnipeg, champions of the West, against McAdam, N.B., team, champions of the East and last year's winners, after a searching test of the two teams conducted at the Place Viger Hotel, Montreal, recently. The margin between the two teams was so narrow as to be in doubt to the last moment. Weston took 507 points out of a possible 672 and McAdam had 499.

Tourist traffic development throughout Canada has reached such proportions as to equal the value of a fairly good wheat crop, and such development has only just begun, is the opinion of Colonel Phil Moore, of Yoho Valley, B.C., interviewed recently. He thought that an estimate of three hundred million dollars spent by tourists annually in Canada was not too high. Growth of interest in the Canadian Rockies was very noticeable and although the majority of tourists there were Americans, yet Canadians, too, were beginning to discover them, said the Colonel.

**COLORADO BEETLE HIBERNATES IN WINTER**

The Colorado beetle is the most persistent insect. It starts to hibernate in August, September or early October, and turns up ready for business in the Spring. In Ottawa, as told by the Entomological Branch in Bulletin 52 of the Dominion Department of Agriculture on "The Colorado Potato Beetle in Canada", tests have been made as to length of life of the creature and under what circumstances it will retain vitality. In wintering cage tests with beetles in New Brunswick several lots were forced into hibernation at an early date, by confining them in wire cages on the soil with only enough food for one day. All had burrowed within three days after the food had gone. From three lots put in the cages August 26th and September 5th, 295 beetles out of 600 emerged the following spring. Out of 200 put in September 14th, 42 emerged and out of 3,320 put in the cages on September 13th and later, only 360 emerged in the spring. This would seem to indicate as the bulletin says, that the earlier the pests hibernated in the cages the better they survive. The beetles commonly go into the soil immediately below the place where they last fed. In a damp, cold clay loam they have been found within 2 inches of the surface and none at all below 6 inches, while in a loose sandy soil only a few hundred feet away none were found at less than 14 inches and some at 17 inches. In a dense gravel-loam soil only an occasional beetle was turned out when the plough was cutting 5 inches deep, but a number could be found by digging 3 inches more in the bottom of the furrow.—Dominion Department of Agriculture, Ottawa.

**TIMES HAVE CHANGED**

The laws of England with regard to artificial aids to beauty and woman's wiles are not so strict now as they were in the reign of Charles II in the year 1670 this curious Act of Parliament was passed:—"That all women, of whatever age, rank, profession or degree, whether virgins, maids or widows, that shall, from after the passing of this Act, impose upon and betray into matrimony any of His Majesty's male subjects, by accents, patches, cosmetics, washes, artificial teeth, false hair, Spanish wool, iron stays, hoops, high-heeled shoes or bolstered hips, shall incur the penalty of the law now in force against witchcraft, sorcery and such like misdemeanors, and that the marriage, upon conviction, shall stand null and void."

(Note—Wouldn't there be "something doing" these days if such an Act was put in force. There would be some busy court rooms and many of the "weaker sex" would be rather worried.—Ed.)

**THE REAL OLD-FASHIONED CHRISTMAS**

"A real old-fashioned Christmas" is a phrase to conjure with! Snow and stars and carols—"God rest you merry gentlemen, let nothing you dismay; Holly and mistletoe and trees all fragrant and sparkling. Lumpy stockings by the fireplace and sundry other pleasures. Children, Santa Claus, Joyous Services, Dinner—and finest poultry in Christendom.

Let's—oh, let's make this a real old-fashioned Christmas! A blessed day of "Peace on earth, good-will toward men." A day of giving as we have never given before, bringing joy to friends near and far. Let's make the Yuletide season merry with participation until our houses ring once more with young voices. Let's fill our parlors with Christmas goodies. And let us remember those less fortunate than ourselves, so that they, too, may have a "real, old-fashioned Christmas."

The Christmas Spirit

The stores already have put in great resources at the service of the Christmas season. Christmas magic has touched every store, creating an atmosphere as merry as Santa Claus and as bright as the star atop of a tree.

Never have gifts been so lovely, so desirable, and so helpful in solving problems of "what to give." For weeks past Christmas stocks have been pouring in, drawn from over the seven seas. Now they are brought to light for the throngs of Christmas shoppers. Gifts by the thousands—something for every member of the family, for friends at home and far away.

For Christmas Parties

All the luscious goodies to help in entertaining during the festive season. Spices to dress the fowl, raisins and other deliciousness for the pudding. Useful, Pratts' and other. High time that the pantry shelves were groaning with such things, that the family may keep "open house" in the old-fashioned way, from Christmas to New Year's.

For the Children

Especially are the stores catering to the children—you might call them the children's stores. For what would Christmas be after all, without the kiddies. Under Santa Claus' influence, the children's imaginations are fairly lands of toys—places rich beyond imagination in the things children long for. There are dolls for little daughter, and well-dolls' clothes, tiny trunks, houses and dishes, games, trains, mechanical soldiers, rattles and picture books for the littlest nursery folk. Everything to gladden the heart of a child, in our stores, wonderful toylands. To the best of hearts—this—the very spirit of Christmas!

Delights For All

Not only the little folk, look forward to the Christmas season; and the stores have all put in extra stocks from handkerchiefs, ties, diaries, linens, accessories, clothes, wearables of all kinds, useful articles for the home, and merrid articles too numerous to mention, which could be categorized as the "gifts that last" or the "gifts necessary," all of which are in the stores, and will help you to make the Christmas season joyous for your family and friends.

AT Your Service

Never in all the year our stores, famed for service, so entirely at the command of the hundreds of thousands of the gay, bustling preparation for Christmas. They place themselves wholeheartedly at the service of Christmas shoppers—and invite you all to make full use of the cordial and smiling hospitality of the stores. All join in the general desire: "To make this a real, old-fashioned Christmas."
