The Reading Camp Association

was organized eight years ago with a view to experimenting on the practicability of surrounding our frontier laborers in lumbering, mining, railway construction and fishing camps with a better environment by providing educational facilities during the week-day evenings, and undenominational services on Sundays. Successful experiments have been made in Manitoba, Ontario and Saskatchewan, and the governments of these provinces have aided the movement. Our object is to develop public opinion in this direction and induce the provincial departments of education to carry on the work on a large scale. In the meantime, the work is supported mainly by public contributions, and subscriptions should be addressed to the
