

INDEX TO RG 1, L 2

Land Grants, Leases and Licences of Occupation,
Upper Canada, 1791-1841

N.B.

1. This card index is arranged in two parts:

by name of grantee, and chronologically within that; and by township name, and chronologically within that (although when there are many entries for a single year under one township name, there appears to be no alphabetic or other order to the cards).

2. The index cards do not differentiate between Descriptions and surrendered deeds. They do indicate Leases and Licences of Occupation.
3. The cards bear the ancient shelf location references: "51-2-A", etc. These notations should be ignored. To locate the document, use the notation "L 2/..". The number following the stroke indicates the volume within the series RG 1, L 2 which holds the document. Descriptions for leases in volumes 61 and 62 were erroneously indexed as being in volumes 62 and 63 respectively. The documents are arranged alphabetically by name of grantee within each township.
