paid for the fuel and food. The rent
has taken all our savings as my father
has had only odd jobs since 1930 and very
little work even then.

At present the teachers are on their
vacations and we do not know if they will
be staying in Mimico this year or not.
Christmas night mother and dad were struck
by an automobile and since then mother's health
has not been very good. She finds it difficult
to work so hard keeping borders.

I am going to High School and wish to
be able to continue doing so if it is possible.
I have tried to get employment but there are
so many experienced people out of work I
find that it is impossible to do so.

My father has excellent recommendation
for his work. He has built things for
people in the town and they will furnish
recommendations gladly.

Kindly give this letter immediate
consideration because we would not
ask this if it were not of great necessity.

Yours truly,
NoREEN Beckford
