● Closing address by defending ^{officer}

The accused had every right to refuse to take the road when ordered to do so on 30 Oct because his m/c was not fit to run. It was presumed fit to run on 29 Oct and did about 60 miles on the morning of the 30th. in my estimation when accused was ordered to take the run he had not expected to take he could not have been expected to ~~take the~~ have the m/c in the shop for repair because it had just come from there and it could be assumed that they could not do anything with it.

A. D. R.'s life depends on the bike he rides and it can be assumed that ~~Sgt.~~ Halpern gave his motorcycle all the attention possible

On the third charge the accused was brought up before the O.C. on the night of 30 Oct. The O.C. ordered the bike grounded for a thorough check and remanded the accused. The accused did not know what was happening
