On the junction and between those two lordly rivers
the Saskatchewan and Battle Rivers, there
is a Great City, a Most Beautiful
City growing

BATTLEFORD

has enjoyed progress and prosperity during the past year not equaled by any other corner of the Canadian West. It is impossible in a brief brochure of this nature to cover all questions that may be asked, but it is hoped that the limited contents of this booklet will be of service to visitors and persons interested in Battleford. Its history, geographical position and many other features and natural advantages, the unbounded wealth of the adjacent agricultural sections, the increasing prosperity constitute so many advantages that they would be very difficult to enumerate.

That such favorable conditions and circumstances exist is proven by the visible progress in every department of our commercial and agricultural interests.
