[1875.]

TIDES.

The time of High Water, at Charlottetown, is given for once in the 24 hours. By taking the mean of the Tides as marked on two successive days, the time of the intervening Tide may readily be found, as for example:—

Afternoon Tide, January 7,	10h. 51m., p. m.
“ “ “ 8,	11 31 “

2		22	22

Morning Tide of January 8,	11	11
