Please Consider

the modern necessities of scientific butter-making. If you are employing antiquated processes you cannot hope to meet the competition of the times.

You must make the maximum quantity and quality of butter that can be made from your milk supply. To do this you must

Have the Best Machinery

and operate it scientifically. In making your plans for this season do not overlook the Cream Ripening proposition.

The Farrington Cream Ripener

is the machine that enables you to secure the maximum yield from your milk and at the same time give it that fine aroma that is required to get the top price on a critical market. With this grade of butter you do not come into competition with "oleo" or "process." You will have and hold an exclusive market of your own. As we said at the start, **Please Consider.**

Boilers and Engines, Australian Boxes, Refrigerating Machines, Hansen's Butter and Cheese Color and Rennet Extracts, Wells, Richardson & Co.'s Improved Butter Color, Stearn's Style Spruce Tub, Victor Combined Churn and Worker, Ideal Skim Milk Weigher.

IDEAL MILK TICKET

THE old-fashioned pass book has been discarded by every up-to-date factory.

The Monthly Statement Card shown here is exact size of front. It is made of stout Manilla, and can either be delivered by the milk-hauler or sent to the patron in an ordinary envelope. On back of card rules are given for "The Care of Milk."

The Cards are now ready; order early.

PRICE:

25c. for 100; or a package of 1000 for \$2.00
 Post-Paid.

A factory of 100 patrons will require from 800 to 1,000 tickets during the season.
