

Concrete Adopted as Road Standard

WAYNE COUNTY, MICHIGAN, WHERE nearly one hundred miles of Concrete Roads have been built in the past six years, during which time nearly every method of road construction has been tested, now comes out flat-footed and adopts concrete as the road standard.

The story is best told in the following paragraph which has been taken from the latest report of the Board of County Road Commissioners of Wayne County, Michigan.

"With the completion of Plymouth Road, we have abandoned every other form of construction and have adopted concrete as our standard. We feel that our experience of the past six years warrants us in arriving at this determination, based on its general satisfactoriness and its annual cost as compared with other forms of construction. In addition to the economy in hauling, the pleasure in driving and touring, and the increase in land valuation, the concrete roads of Wayne County have been the means of bringing tens of thousands of dollars to this locality".

Concrete roads will benefit any locality proportionately as they have benefited Wayne County, Michigan.

The fullest detailed information about concrete roads will be sent to anyone interested, without cost or obligation. Address:

A handy pump for farmers

It is a direct lift pump that can be attached to wind mills, a Fairbanks-Morse Eclipse Engine, or operated by hand.

This is one of the least expensive and most efficient of our high grade farm pumps.

Adapted for lifts from 30 to 125 feet. Altogether an ideal pump for any farm—easy to operate—will keep in good repair for years.

Send for free catalogue of pumps and water systems. If you are interested in farm engines, spraying outfits, lighting systems, power and hand tools, scales or mechanical goods of any kind, full particulars will be sent to you on request. Address Dept. 42
