

Digging asphalt from Trinidad Lake for Genasco

# Genasco

the Trinidad-Lake-Asphalt Roofing

What is the first and greatest thing to expect of a roof?

Stay waterproof.

Trinidad Lake asphalt is Nature's everlasting waterproofer; and that is what Genasco Roofing is made of. It gives lasting protection.

The Kant-leak Kleet keeps roof-seams watertight without cement, and prevents nail-leaks. Gives an attractive finish.

Ask your dealer for Genasco Roofing (mineral or smooth surface) with Kant-leak Kleets packed in the roll. Write for Good Roof Guide Book and samples.

**The Barber Asphalt Paving Company**

# McCormick

## A Simple Knotter

THE McCormick knotter is a revelation of simplicity in construction, accuracy in tying, and ease of adjustment. Only two moving parts constitute the working mechanism. There is no straining or pulling of the twine because the twine holder feeds the twine in the direction the knotter hook turns.

The cutter bar has guards in such a position that the machine can be tilted to cut close to the ground without pushing trash and stones ahead of the knife. It cuts smoothly and perfectly in all conditions of grain.

The McCormick reel has a wide range of adjustment. It successfully meets the conditions encountered in any field, whether the grain is tall or short, standing, down, or tangled. Grain filled with green undergrowth is forced upon the platform.

The McCormick floating elevator handles grain of any length or weight without clogging, even when the grain is filled with vines or green undergrowth.

There are many other features and advantages of McCormick binders. The McCormick agent will tell you about them. He will tell you about the wonderful strength of each individual part and of the strength of the binder as a whole—of the skilled workmanship backed by many years of experience that enters into the construction of every McCormick binder. Why not see him today? Ask him about McCormick haying machines and tools.

If you prefer, write to the nearest branch house for catalogue and any special information you desire.

## World's Best Can Be Seen For The Asking

Our local representative will be glad to show you and give you a thorough explanation of the

## SHARPLES Dairy Tubular Cream Separator

Examine every part of it yourself. See for yourself that it contains no disks or other hard-to-wash contraptions. See why it produces twice the skimming force, skims faster and twice as clean as others. Think over the fact that it will wear a lifetime and is guaranteed forever by the oldest separator concern on this continent.

Then ask yourself how you can afford to risk anything on any "peddler's" or other (so called) cheap separator, the average life of which is but one year, when you can own and use a world-famous, wear-a-lifetime Tubular for less than any other kind. The manufacture of Tubulars is one of Canada's leading industries. Write for Catalogue No. 193 and ask for name and address of our local representative.

## Farmer Buys an Auto With His Buckeye

THIS letter was received from a BUCKEYE owner. It is only one of many letters that praise the earning powers of the BUCKEYE. We have compiled these letters into a booklet, and will be glad to send you a copy.

Oak Harbor, O., Dec. 24, 1910.  
Gentlemen, Yours of the 22nd at hand. I enclose a photo of my BUCKEYE machine, and also a photo of my auto, which I would not have if I had not bought a Buckeye Ditcher. I have operated my machine for four years, and it paid all debts to me the second year. The largest amount of ditch dug in a single day was 180 rods. I have dug 99 rods in one trench in five hours, depth about two feet, at 14 cents per rod. I have no account of any one week or one month.  
R. F. PIERSON, R. F. D. No. 1.

The Buckeye Traction Ditcher will net you from \$15 to \$18 a day, digging ditches in your neighborhood. There is no trouble keeping the machine busy. The old expensive method of hand labor is a thing of the past. The BUCKEYE digs from 100 to 150 rods a day at a saving of from 25 to 50 per-cent. The ditches are true and of perfect level. Our catalogue T for the asking.
