

### Twenty-One Years Ago

At the time of the Montreal Carnival of 1889, the last until 1909, Messrs. William Notman Son collected this very interesting series of views of the celebration. They will be found of interest by those who do not know what a Winter Carnival is like, as well as those whose memory will be stirred by some of the pictures. Most of the scenes depicted on this and the opposite page will be duplicated at the present Carnival with twentieth century embellishments or modifications.
