SOUNDS AND ECHOES.

THE latest hat is bat-shaped. It is, of course, a woman's hat. The man's hat is expected to accommodate the whole brick.

GREENLAND has no cats. How thankful Greenlanders should be. Imagine cats in a country where the nights are six months long.

WHY is it dangerous to walk out in the early springtime? Because the bulrushes out, the cowslips about, the flowers all have pistils, and everything shoots.

JOHN LOURIE, who recently died in a penniless condition in a New York hospital, was at one time worth \$2,000,000. But he could not "leave well enough alone" and wasted his means in backing his opinions on the fluctuations of the grain market. He was swamped in the wheat pit.

IF the pugilist Mitchell shall be permitted to stay in America, it will not be the first instance of toleration of a ruffian and convict. Besides, many worthy people would like to have him stay awhile. Deep in their hearts is a fond wish that he and Corbett may abate each other.

THE Goulds are reported to be trying to evade payment of taxes. They declare that they have no personal property. In this extremity the great public heart will go out to the orphan boys in a wave of sympathy. Possibly some arrangement could be made by which they can acquire a little personal property and the taxes be met by popular subscription.

THE Montreal Witness, speaking of Mr. Post's lecture, says: "Mr. Louis F. Post is a clear, logical, and extremely careful speaker, as a man should be who undertakes to instruct others in reasoning on the relations of man and his environment. In his hands the dry, dismal science of political economy became deeply, intensely interesting, and, as he proceeded, wondrously luminous. Starting from the first elementary principle, he showed how all wealth is the result of labor applied to land, and with the aid of simple, but ingenious diagrams, made his meaning so clear that a child could follow him with ease."
