LOCAL NEWS ITEMS

BUILDING PERMITS

Two building permits were issued this morning in the city engineer's office, they being Chas. Coulson, 69 St. Pauls avenue, brick dwelling and frame kitchen, $1,400; Michael Keenan, 16 North Park St., frame kitchen, $50.

NO QUORUM.

The majority of the members of the Board of Health and the Buildings and Grounds committee were last night conspicuous by their absence from the meetings called by the boards, which accordingly failed to materialize.

POLICE COURT.

A drunk who appeared in the police court this morning evidently was a dis-believer in the old adage, "Time is money." He chose a month in Castle Brown rather than pay the customary fine of $3. A charge of conversion against Joe Saggese was dropped, the matter having been arranged between the parties concerned. Charges of speeding against Herbert Miller and Harold Lovett, were also dropped, as was one of not working against Alex Grieves, who has found work.

THE BRANT

Music reigns supreme at the Brant Theatre during the week-end, when a truly excellent bill is presented. The five Martells head the bill in an act which is well and aptly named "a special treat to music lovers." Another first class performance is that rendered by Coscia and Verdi, who present a "classy musical offering." The pictures are also of exceptional merit, comprising the illustrious John Barymore in "The Red Widow," where the noted actor appears to better advantage than ever before, and the comedian, Max Linder in a three reel comedy "Ups and Downs."

WITH THE BANTAMS.

Several prospective recruits were found by Pte. Haurice of the Bantams in St. George yesterday, when he visited that place. Although no men were obtained directly, two or three are expected within a very few days. To-day Ptes. Maurice and Haley were engaged in putting up posters throughout the city, calling the attention of all to "the small man's opportunity."

GARDEN PARTY.

Under the auspices of the Mission circle of Brant Avenue Methodist church, a most delightful garden party was held last evening at the home of Dr. Britton on Dufferin Avenue, with a large attendance. Musical numbers were rendered during the evening by Miss Marjorie Jones, Miss Mary Rothwell, Mr. Lloyd Dymond and others, and refreshments consisting of ice-cream, home made cooking, and punch were purveyed by charming vendors to all. A considerable sum was realized by the affair.

FREE TRIP TO CAMP BORDEN

Brantford soldier wives now have a chance for a trip to Camp Borden. All that is necessary is to deliver to the old post office, 125th Batt., a recruit who will pass the doctor and sign up. Young ladies, whose sweethearts are at Camp Borden, are offered the same chance.

SIMCOE S. S. PICNIC HERE

The annual Sunday school picnic of St. James' Methodist church, Simcoe, was held yesterday at Mohawk Park, the excursionists coming to Brantford in the morning via L. E. and N., and going by the municipal railway to the park. The attendance was very large, and a most enjoyable time was passed by all. The party was accompanied by Rev. J. H. McBain, pastor of St. James' church, and Mr. McPherson, principal of Simcoe High School.

MOVIE MAN IN TOWN.

Residents of Dufferin avenue and that vicinity of the city have been spared what might have been a serious shock to them this afternoon. Under the direction of the Canada Film Company, it had been planned to stage a moving picture scenario in the city, taking views of the 215th battalion in action and working them into a plot. Owing to the after-effects of the inoculation which the battalion underwent yesterday, the event has, however, been postponed until to-morrow.

Eye Talk
—NO 46—

Worn Heels and Warped Vision

When your shoe heels are worn down at the sides your ankles must "turn" at every step. New shoes with level heels correct this, yet at first feel clumsy. But after a few days with the square heels you have no use for the others.

Astigmatic Eyes
like badly-shod feet, are constantly strained. Certain muscles must forever pull to prevent distorted sight.

Suitable Glasses
make this unnecessary, but the eye-muscles keep tugging for a while from force of habit, thus causing the very distortion they formerly prevented. But the muscles soon relax and perfect vision is restored. The strain, too, is gone and you see naturally and comfortably. For correctly-fitted glasses go to

Krupps Acquire Land

Have Obtained the Richest Manganese Ore Fields in Germany.

By Special Wire to the Courier.

The Hague, via London, July 7—The Krupps have acquired what are described as the richest manganese ore fields in Germany. They are the Fernie fields and the Glueckaufhessen fields in the Lahn River region, and the Hermannsegan fields near Niederfischbach.

A WORD ABOUT CARRANZA

With the prospects of war with Mexico confronting the United States fresh interest attaches to Carranza, the present president of that unhappy republic. During the past five years Mexico has had ten presidents, which gives some idea of the chaotic condition of the country. The ten presidents were: Diaz, de La Barra, Madero, Lascurain, Huerta, Carbagal, Guitierrez, Garza, Chazard, and Carranza. Carranza was recognized by the United States as president some few months ago, but has not been overly successful in catching Villa and giving the country the stable government which he promised. Among other crafty tactics, he secured a lot of arms from the United States for the purpose of putting down Villa and other revolutionists. The probabilities are now that he will use these arms against the Americans.

An Arizona recruit, told to walk until he met the sentry he was to relieve, missed him and kept going for twenty miles.

A SURE SHIELD OF THE EMPIRE

Interesting Collection of Facts About British Navy Construction.

SWEEPING UP DEADLY MINES

One Shipping Yard Has Built a Destroyer Every Seven Weeks.

What is the British Navy doing? is the question one constantly hears. Here is a fact, apart from Admiral Beatty's great achievement off Jutland, which will help you to realize how it is guarding our coasts and keeping clear the seas.

During the twenty months of war 21,000 merchant vessels have passed a certain patrolled East Coast area, and of all that number only three have come to grief.

Thousands of mines have been swept up. Half the vessels engaged on this work are craft that in peace times go a-fishing or do a coastal trade. There are very few blue-jackets amongst their crews, the greater number of the ships being manned solely by the brave fellows of the merchant service, the fisheries and the coast trade.

The huge 15-in. and 13.5 guns with which our latest type of battleships are equipped, are handled by our naval men almost as quickly and easily as would be a revolver, although the 13.5 fire a monster shell of 1,250 pounds in weight, while the 15in. fires a shell of nearly a ton weight, with a smashing power nearly three times as great as that of the 13.5.

In spite of this enormous weight of the projectiles, the guns can be loaded in less than twenty-four seconds from the time of the order.

The modern big gun is made with a core of steel, around which is wound steel wire. In the biggest guns in use now there are between 140 and 170 miles of this wire.

In the great naval munition works and ship-building yards thousands of women are now employed, usually apparelled in trousers. They are found to excel in the control of machinery which repeats the same movement. In one huge munition factory 25,000 persons are employed of which number 13,000 are women. The scope of their work will be realized when it is mentioned that there are seventy-seven kinds of shell.

Women also excel in that delicate and difficult work the bladding of turbines, and it is satisfactory to know that in turbine machinery Great Britain is two years ahead of the Germans.

In the shipbuilding yards when the present orders are completed, well over 1,000,000 tons of shipping will have been turned out during the war. A ship which used to take eighteen months is now executed in twelve, although extravagant acceleration rates have been abolished.

In one yard, which has never yet failed to keep the appointed day for delivery, the rate of work in the last twelve months has been one destroyer every seven weeks. Three aeroplanes a week are also part of its product, and this in spite of the fact that skilled men have been taken from the shipyards for the army and there is a cry for more men.

They are building ships so fast in one yard that only one side of certain vessels can be finished till the ship next to it has been launched on account of lack of space. Not a yard of ground, not a minute of time, is wasted.

The heads of these wonderful yards are enthusiastic over their work and its efficiency. One of these men spent £25,000 on an experimental tank for models of ships, while another spent £32,000 on a similar experiment.

The tools and machinery for these colossal shipbuilding operations are huge. At one of the yards on the Tyne there is a crane that could lift an express locomotive off the Tyne high-level bridge, while some of the tools for the boring and lining of large projectiles weigh twenty-four tons.

The sides of the turrets which protect the guns and men in the newer ships are 13½ in. hardened steel armour, capable of keeping out the shells of any but the 15in. gun at ordinary battle range, which in our day may be placed at 8,000 to 10,000 yards (five or six miles).

A ship's guns are manoeuvred by hydraulic power, with an alternative hand-power instalation in case the hydraulic gear breaks down. In a few ships electrical gear is also installed.

More Troops Arrive

Canadian Forces Have Landed Safely in Old Land.

By Special Wire to the Courier

Ottawa, Ont., July 7.—It is officially announced from the press censors office that the following Canadian troops have arrived safely in England:

11th C.M.R.; 13th C.M.R.; 94th battalion, 101st battalion, 104th battalion, No. 4 A.S.C., divisional train; A.S.C. ambulance work shop, R.C.R. draft (Halifax) and 57th howitzer battery draft (Quebec.) Total number on board, 5,992.

Stewart Rohbaugh saved two girls from the Susquehanna River, near Wrightsville, Pa., then, exhausted, sank, and was drowned.

HEART TO HEART TALK

Light is life. Moss grows on the side of the tree trunk farthest removed from the rays of the sun—you can pick your way by such surface indications just as certainly as if you were guided by the needle of a compass.

This is a store of Light and Life. There are no dark corners anywhere—no stagnant stocks of merchandise. The sunlight of optimism shines here, there and everywhere. You are as safe in buying as the woodsman on a forest trail who is guided by the light that keeps the south side of the tree trunks free from moss.

E. B. CROMPTON & CO., Limited

Died

POSS—In Brantford Township, on Thursday, July 6th, 1916, Agnes Poss, beloved wife of Mr. Jacob W. Poss, aged 67 years. The funeral will take place from the late residence on Sunday, July 9th, at 2 o'clock, to the Methodist church, Onondaga, thence to Pleasant Hill cemetery. Friends and acquaintances kindly accept this intimation.

PROBS

Toronto, July 7.—Heavy rain occurred yesterday in Manitoba. Elsewhere the weather has been fair and in Ontario and Quebec it has been quite warm. The tropical disturbance has remained nearly stationary and continues to diminish in intensity.

FORECASTS

Moderate southwesterly winds; fine and warm to-day. Saturday, southwest winds, a few scattered thunderstorms, but mostly fair and warm.
