W. A. Mair, of Lima, O., says—"I was one of the countless victims of early vice at 15 years of age. The drains on my system were weakening my brain as well as my sexual and nervous system. For ten years I tried scores of doctors, electric belts and patent medicines. Some helped me, none cured. I was giving up in despair, in fact, contemplating suicide when a friend advised me to get a list of names to give the **New Method Treatment** of Drs. K. & K. a fair trial. Without confidence I consented and in three months I was a cured man. I was cured seven years ago—am married and happy. I heartily recommend Drs. K. & K. to my afflicted fellow men."

The Scribe of the Reporter drove out through the famous Plum Hollow section to Elizabethtown on Friday last, and, in his experience of a life time, never saw hay and grain looking as promising for an immense crop in those sections. In many places the farmers had commenced cutting clover and it was almost impossible to cut it with the very best mowing machines. We examined several pieces that had been cut and found that, owing to the rapid growth, the clover was very soft and hard to cut properly, and some farmers said that it was very hard to get it cured so as to not be in danger of spoiling in the mow.

In Athens, on Saturday last, after mature deliberation, one of His Majesty's justices of the peace handed out judgment in the O'Connor assault case, in which the defendant was found guilty and assessed \$1.00 and costs. One dollar and a few legal trimmings seems a small sum to pay for the privilege of hitting the war correspondent of the Brockville Recorder on the end of the nose. It is a very reasonable charge indeed, and brings the indulgence quite within reach of the ordinary citizen. It is well to remember that the circumstances attending this assault were not out of the common, were, in fact, just what the W. C. of the B. R. can be relied upon to create almost any time; so that any citizen having a small sum of money to burn may now feel perfectly free to exercise his biopics in attempting to make changes in the facial lineaments of the W. C. A tariff for this kind of sport was urgently needed and now that one has been established we may reasonably expect to see a revival in business along that line. In his capacity as Private Detective, the War Corp. is now in telegraphic communication with Chief Grassett of Toronto, and he promises further developments.

Lightning's Franks.

Some marvellous pranks were played by the lightning bolt which struck the home of Miss C. McLaren, of Vernon, a few days ago. The fluid knocked the chimney down and tore out the west gable of the house. It loosened all the plaster and lifted the floors up. The foundations of the house were shaken. A curious incident happened when the bolt tore of the locked door of a cupboard. It broke every dish in cupboard and hurled debris out of the house altogether. The cupboard was neither blackened nor injured. The plates of the stove were blown off, one making a big hole in the ceiling, and the other being hurled through a wall. Some of the debris was hurled seventy-five feet away to a neighbor's house, in which every window was broken by the force of the bolt. Strange to say the damage from fire is trifling.
