Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Restorative—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and salivary complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

ST. REGIS LUMBAGO CURE
AN INDIAN REMEDY.

Guaranteed to Cure Lame Back or money refunded!

An excellent remedy for Rheumatism, Lame Back, Etc., Etc.

Read the following testimonial from a man you all know:

Portland, Feb. 8, 1908.
Mr. W. A. SINGLETON,
Crosby, Ont.
Dear Sir,—In the winter of 1905 I was laid up with La Grippe and unable to get relief from several other patent medicines. I was convinced by several of my neighbors to try St. Regis Lumbago Cure, and I can thankfully say it was the first thing that gave me immediate relief. Since that time I have never been without it in my house, and cannot speak too highly of it, especially for children, as it will break up a cold at once. I have also found it a sure cure for lame back.

You are at liberty to use my name for reference if you wish to publish it for the benefit of others. I am yours truly,
C. A. VANKOUGHNET.

HALLEY'S COMET.

Coming to Revolt Us After a Seventy-Six Year Trip.

After an absence of seventy-six years and after visiting a region that is perhaps 50,000,000 miles more distant than the outermost planet of the solar system, Halley's comet is again approaching us, and even now is nearer to us than the planet Saturn. After Oct. 1, 1908, it will probably be visible to the naked eye.

The return of this celebrated comet—the first known to move in a closed orbit—causes it to be an object of extraordinary attention. Its brilliancy, its sensational size, the records of its returns extending back nearly 2,000 years, the consternation once spread throughout the world by the belief that it would destroy the earth, make it the most famous comet in history.

In 1682, during the reign of Charles II., a comet appeared of extraordinary size, which was observed by Newton. Halley followed its course among the stars and, comparing his observations with the records of previous comets, came to the conclusion that the comets of 1456, 1531 and 1697 were but different appearances of the same object. He staked his reputation on a prediction that the comet would return in about seventy-five years. True to this prediction, it did appear in 1758, when Halley had been sleeping in his grave for sixteen years. The reason that the name of Palitsch, a Saxon peasant, has been preserved to posterity is that his eye was the first to catch sight of the returning comet.—Popular Astronomy.

Six Most Powerful Men.

In the smoking room of a popular west end club the other afternoon a group of men suddenly raised the query as to which six men wield the most power in the world, and very considerable diversity of opinion was expressed. By general consent King Edward was placed at the head of the list, but it seemed impossible to arrive at any agreement as to the remaining five. After some considerable argument it was decided to canvass the whole of the members then in the building and ask them to write down the names of the six they considered the most powerful. The following was the result, with the order of voting: First, the king; second, the pope; third, the czar; fourth, the sultan of Turkey; fifth, the president of the United States; sixth, the emperor of China. Among others who were voted for very generally were the emperor of Japan, the French president and the kaiser.—London Sketch.

Hotels That Have Passed.

New York builds hotels fast, but it loses them fast as well. To the death roll of famous hostleries is added now the name of the Everett House, and this within a four year period which has seen the passing of the Morton House, the Hotel Cambridge, the Normandie, the Vendome, the St. Charles, Leggett's and the Fifth Avenue. A little further back the registers were closed finally of the old Metropolitan, the St. James, the Brunswick, the United States, the St. Cloud, the St. Nicholas and the Stevens House. The Windsor disappeared with fire and tragedy.

Some hotels remain, but not the same. The Hoffman House and the Grand are practically new. The former Grand Central, scene of the Stokes-Fish shooting, is now the Broadway Central.—New York World.

Mrs. C. Snider has leased Fair View Cottage on King St. for the winter.

Mr. William Snider and lady have returned to their home in Boston, taking with them the best wishes of their many friends for their success.

Quite a number from this section attended the camp meeting at Lake Elvida on Sunday last and report a good time.

Mr. Alfred Snider has gone to the North West. We wish him every success.

Mrs. Armstrong of Chicago is visiting her many friends in this section.

Mr. George Miller has returned home and is running the engine for Mr. Ross Miller during threshing and corn cutting season.

Mr. Joshua Rowson is building a first-class residence on the site of the house consumed by fire this spring at Mt. Pleasant.

PRODUCTS OF NATURE

Are the Most Nutritious, Delicious and Beneficial

How quickly the human system rebels at nature's products which Providence did not design as a food or medicine, yet how many of our most nourishing and delicious foods and fruits as well as our most healing medicines are enveloped in unwholesome covering, and it is left for the ingenuity of man to prepare them for use.

For instance, the nourishing egg must be broken from its shell, the succulent oyster, or the crab, taken from its shell. Nuts, oranges and bananas are encased in the most unwholesome shells or coverings. The roots and herbs of the fields contain some of our most potent and healing medicaments which must be extracted for use. Just so, the cod's liver contains well known curative elements, unextracted in the treatment of pulmonary troubles.

For centuries people were obliged to swallow greasy cod liver oil and emulsions to get the benefit of these valuable curative elements. Physicians the world over recognized the uselessness of the oil, but how to separate the medicinal elements from the objectionable oil, has been the question.

After years of experimenting, two eminent French chemists have, by a scientific, extracting process produced from fresh cod's livers all of the medicinal, healing and body-building elements of cod liver oil, omitting the oil entirely, and these combined with potentiate of iron make Vinol, which is more potent than any other known Cod Liver preparation. As a body-builder, and strength creator and for all pulmonary trouble it has no equal. Try Vinol on our guarantee. J. P. Lamb & Son, Druggists, Athens, Ont.

Three Great Features of the "Hecla" Furnace

Fused Joints make the "Hecla" permanently airtight and sanitary. The heated air is fresh and pure, because no gas, dust or smoke can get into the airchamber.

Steel-Ribbed Firepot has steel instead of cast iron flanges. 97 of these steel flanges are fused to the outside of the firepot giving it three times as much radiating surface as any other style. In a three years' test the steel ribbed pot showed a saving of fuel of over 11%.

Triangular Bar Grate enables you to clear any part of the fire of ashes. There are four grates. Each can be shaken separately. It gets all the ashes out—saves coal—and means a clean fire.

Made by the makers of famous "Peerless Peninsular" Ranges.

Stop in and let us show you all the new features of the 1908 "Hecla."
