ENGINEER AT HELM

Continued from First Page.

put it in as good shape as the nature of the case would admit of. William St.—We have scraped from King to McLean St., and carted the earth to the extension on St. Patrick street to fill holes on the south side of King St., between Princess and Duke Sts.

King St. E.—We have graded the low places to form gutter on the North side, from Princess to east limit.

Colborne St.—Raised catch basin on the corner of Princess St.

Park St.—Opened sewer and placed a glazed trap on catch basin to prevent sewer gas.

King St. I have, on making examination of the catch basin in front of the fountain, discovered that it has been blocked with cement since the brick pavement was laid on King St.

The only entrance possible was through a 2-2 inch hole, and that as a rule seemed to be stuffed with mud. We broke the cement, thoroughly flushed it and placed an elbow on the entrance pipe, turned it so as to give the sediment a chance to settle before it ran into the sewer. It is now in a satisfactory condition.

Thames St.—I have lowered curb in front of new laundry. Do not think the city has anything further to do in the matter.

Rankin Dock—I have repaired this dock by raising the approach and platform, placing them at an easy grade and thoroughly guarded the lower portion of the wharf next the landing securely. I removed the planks on the south side, as I could see no reasonable excuse for having a mill dam at the wharf.

Colborne St.—Raised catch basin, also raised catch basin on Fifth St. Lorne Ave.—Graded gutters on south side of Lorne Ave. and lowered crossing at lane.

Fifth St. Bridge—I have finished planking floor on this bridge.

Parks—Gutters cleaned and grass cut between street limit and park.

Steam Roller—I have adopted the scraper, owing to the impossibility of obtaining anything like satisfactory results from the teams, and find the roller doing all that is asked and has proved most satisfactory.

The following roads have been graded and rolled under the new process:—

Queen St., G. T. R. to south limit. Park Ave., from east to west limit.

Inches Ave., from King to Harvey. Harvey St., from King to Inches Ave.

Murray St., Lashedown Ave. Stanley Ave. William St., from Colborne to Water St.

Water St., to Stanley Ave. Wellington St., from William to east limit.

For the benefit of your board I might make a calculation of the cost of rolling and scraping with the steam roller and the old process. The engine on the roller requires 1-2 ton of coal per day at a cost of \$1.75, one man to run the machine \$1.75, total \$3.50. Three teams of horses \$3, man to run the scraper \$1.50, totaling \$10.50. \$10.50 added to \$3.50 equals \$14.

Under the new process the manipulation of figures produces something like this:—1-2 ton of coal \$1.75, one fireman \$1.50, one engineer \$1.75, one man to handle scraper \$1.50. Adding this up produces \$6.25, making a net saving of \$7.75 per day, and I am satisfied in stating that they can roll and scrape as much work in one day as horses can do under the old style of movement in four days. This can be the manipulation of figures proof that every day that the roller works and does its average the city of Chatham saves \$24.75.

All of which I respectfully submit. J. D. McNAB, City Engineer.

Chatham, May 16, 1901.

Alt. Mounter asked why the city paid for repairing the Rankin dock when the navigation Co. charged for wharfage. The matter was referred to the city engineer to investigate.

The request from J. and J. Oldershaw for permission to change the stairway at the Aberdeen Bridge. It was decided to recommend that the work be done under the supervision of the city engineer.

The petition of James Brackin and others re the lowering of the walks on St. Clair St., was referred to the city engineer.

Tel. petition from the lawn tennis players for a sewer outlet for their grounds was similarly treated.

The request of James Innes for a hood on the Lacroix street sewer, so as to put the street under water was granted. It was also decided to similarly fix all the other sewers.

The suggestion from the Board of health re a sewer on Murray street from Adelaide to William, was referred to the engineer to ascertain the cost.

It was also decided to ask the council for permission to open the tenders for the granolithic walks for 1901. They are to be in by May 27th, and in order that no time will be lost, the Board of Works will ask permission to open the tenders.

The Town Clerk of Wallaceburg is asking for tenders for the erection of a two story brick fire hall, as advertised for.

The 24th Regiment band and a squad of soldiers will meet Phiney's United States Band at the station Tuesday at noon and escort them to the Garner House. The parade will be worth seeing.

Mayor Greenwood, Blenheim, was in the city to-day and arranged with the General Hospital management for the attendance on W. James, who died at that institution a few days ago. The money was contributed by the friends of the deceased.

TO CURE PILES.

AREM dy That Will do It and is Perfectly Safe.

We do not intend to endorse any except articles of real merit. We therefore take pleasure in calling attention to a new pile cure, which has been remarkably successful in curing every form of itching, bleeding or protruding piles. The remedy is known as the Pyramid Pile Cure and is recommended by the best medical authorities on account of its absolute safety, ease of application and instant relief from pain.

The Pyramid Pile Cure contains no opium or other poison and does not interfere with daily occupation while using. People who believed nothing but a surgical operation would cure them have been astonished at the results from a single 50 cent package of the Pyramid.

Mrs. Mary C. Tyler, of Heppner, Ore., writes: One package of Pyramid Pile Cure entirely cured me of piles, from which I have suffered for years, and I have never had the slightest return of them since.

Mr. E. O'Brien, Rock Bluffs, Neb., says: The package of Pyramid Pile Cure entirely removed every trace of itching piles. I cannot thank you enough for it.

The Pyramid Pile Cure is sold by all druggists at 50 cents per package. Treatise and cure of piles mailed free by addressing Pyramid Co., Marshall, Mich.

Complete Treatment FOR EVERY HUMOR.

CUTICURA SOAP to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA OINTMENT to instantly allay itching, inflammation, and irritation, and soothe and heal, and CUTICURA RESOLVENT to cool and cleanse the blood. A SINGLE SET of these great skin curatives is often sufficient to cure the most torturing, disfiguring, itching, burning, bleeding, crusted, scaly, and pimply skin, scalp, and blood humours, with loss of hair, when all else fails.

MILLIONS OF PEOPLE USE CUTICURA SOAP Assisted by Cuticura Ointment, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, and for all the purposes of the toilet, bath, and nursery. Millions of Women use CUTICURA SOAP in the form of baths for annoying irritations, inflammations, and excoriations, or too free or offensive perspiration, in the form of washes for clear, attractive purposes which readily suggest themselves to women, and especially mothers. No other medicated soap is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in one soap all that is best, most safe and complete soap in the world.

Lightning Hurled Lineman Moore for Some Distance—His Brother Struck By a Falling Axe.

There was a decided report of thunder at 6.30 last evening. Many heard it, but none realized how near the lightning came to killing a well known citizen. The employees of the civic electric works were just finishing attaching the lamps to the poles on the Tecumseh park. Sam. Moore was engaged cutting the end off the last wire, when the flash of lightning came. Some of the electric fluid got mixed up with the electric light wire, and gave Mr. Moore a shock severe enough to hurl him ten feet. Beyond a good jarring, Mr. Moore felt no serious results.

This was the second mishap that the Moore Bros. met with yesterday. In the morning Sam. Moore was up one of the poles on the park and he let the axe he was using slip. In falling it struck the peak of his brother Joseph's cap. The axe cut through the peak and cloth, and bruised the skin on the lineman's forehead. The escape was miraculous. The cap had proved sufficiently strong to break the force of the falling axe or Mr. Moore would have been instantly killed.

Doings at the Aldermanic Sessions Held Yesterday—Routine Business.

The civic Finance Committee met yesterday afternoon in City Clerk's offices, Harrison Hall.

The following business was transacted: Re the communication of H. Huff, asking rebate of \$2. No action.

Re the communication of Bernier's Canadian Polar expedition. No action.

PROPERTY. The civic Property committee met last evening. All the members were present. It was decided to recommend to the council that the city pay one-third of the rent of the janitor, of Harrison Hall, and one-third of his fuel. The janitor has been forced to move out of the basement, owing to his apartments not being healthy.

It was also decided to recommend the payment of the G. T. R. account of \$4.45.

The Introspe boys were around with a subscription list last week to procure money for the purchase of new sweaters. About \$35 were obtained and the boys will come out this year with fine new suits.
