

## ONE YEAR AT SANITARIUM.

**Splendid Work Done at the Mountain Institution.**

**Mr. W. D. Long President of Health Association.**

**Appreciation of the Work of the Ladies.**

The annual meeting of the Hamilton Health Association was held yesterday afternoon. Mr. P. D. Crerar was chairman. All the reports were read and adopted. Mr. Crerar addressed the meeting, and congratulated the association on the successful and business-like way the Sanitarium had been carried on. He said if the Government were to increase the grant from \$150 to \$450 per patient, the institution would be entirely self-sustaining, and thus encourage other cities to do something for the prevention of tuberculosis. Mr. J. J. Eves moved a vote of thanks to the Ladies' Auxiliary Board, which was seconded and carried with applause. Mr. Eves said too much could not be said on behalf of the ladies. But for them there would today be no Sanitarium in Hamilton.

Mrs. P. D. Crerar gave an interesting summary of her recent visit to the Tuberculosis Association in Toronto. During the meeting many improvements to the Sanitarium were decided on. The many gifts of the Daughters of the Empire to the beautifying and convenience of the Sanitarium were much appreciated by the Association and patients.

### Secretary's Report.

Mr. W. J. Southam, Secretary, submitted the annual financial and statistical report. The total expenditure during the year amounted to \$14,436.27, and of this amount \$9,237.29 was for maintenance or current expenses, and the balance, \$5,198.98, has been charged against capital account, as follows:

Buildings—dining-room, laundry, fencing, etc.	\$2,549.96
Furniture and furnishings—beds, mattresses, etc.	\$26.56
Bedding, linen, etc.	7.35
Cutlery	7.45
Medical equipment—microscope	108.57
Plumbing, sewers, and water supply—septic tanks, cistern, water pipes, etc.	1,618.99
Stable equipment—horses and bobsleighs	220.00
Upkeep utensils—lawn mower, etc.	148.2
Tents and fixtures	11.88
Total	\$5,198.98

The monthly average number of patients in residence during the year is as follows: January, 17; February, 18; March, 20; April, 21; May, 21; June, 17; July, 21; August, 22; September, 20; October, 21; November, 14; December, 23.

The total of collective days numbered 7,004, and when divided into the maintenance expenditure of \$9,237.29, gives a per diem cost per patient of \$1.31 per day, as against \$1.36 per patient at the Muskoka Free Hospital for Consumptives, and \$2.24 at the Muskoka Cottage Sanitarium.

The maintenance statement shows a deficit for the year of \$1,092.08. The receipts for maintenance were:

Bank Interest	\$1,093.76
Patients' Fees	2,851.51
Grant from City Corporation	2,491.60
Sale of fruit	146.49
Sale of straw	20.00
Pasturing and	129.00
Receivable Government grant, 1907	1,500.85
Total	\$8,235.21

On the expenditure side of the maintenance account the item of salaries and wages was \$3,373, the rest of the \$9,237.29 being for supplies, provisions, medicines, etc. The visiting nurse's expenses amounted to \$609.75.

The statement of assets is an interesting one. It is as follows:

Land	\$3,300.70
Building	22,051.76
General furniture	2,191.95
Bedding, linen, etc.	842.90
Cutlery, dishes, etc.	162.63
Medical equipment	147.92
Plumbing and water system	1,618.99
Stable equipment	652.40
Upkeep of utensils	196.45
Tents and fixtures	217.99
Accounts Receivable	809.75
Prov. Government Grant	1,500.85
Cash in Muskoka Bank	1,572.44
Cash on hand	298.14
Landed Banking and Loan	24,000.00
Bonds	2,281.56
Less accounts payable	856,681.19

### Ladies' Auxiliary.

Mrs. Pennfather submitted the report of the Ladies' Auxiliary Board. It said: The most important work undertaken during the time has been the improvement of the water supply, the enlargement of the staff house, the laundry, and the furnishing of the infirmary. The rain water falling from the long roofs of the sheds and other buildings is now gathered into tanks and gives a good supply of soft water, while hard water is pumped by machinery to the infirmary, stables and sheds. A new bright dining-room was built for the patients, the old dining-room being turned into a kitchen and the former kitchen used as a dining-room for the servants. Perhaps no addition to the Sanitarium has given more comfort than the cheerful infirmary built by Messrs. Grafton, of Dundas, and the pleasant task of choosing and purchasing the furniture for its rooms was gladly undertaken by the Auxiliary Board. At the same time the work of installing an up-to-date laundry and sterilizing room was going on, with the assistance of Mr. Eves, of the Gentlemen's Board. To the untiring energy and earnest good will of this gentleman, and of Mrs. Evans, of the Auxiliary Board, is due the fact that Hamilton now possesses at the Mountain Sanitarium the newest and most complete laundry work and equipment—latest and most approved apparatus for disinfecting. The old laundry is being converted into a room for two private patients, the alterations being continued.

The Imperial Order of the Daughters of the Empire. The Auxiliary Board is very grateful to the last named society for its generosity during the past year. The different chapters have assisted to the substantial amount of over \$800.

### Physician's Report.

The annual report of Dr. A. D. Unsworth, who recently resigned to go to Europe, was submitted. It described the Sanitarium property as follows:

The staff house, a brick structure, accommodating the help and part of the staff. It is a large building, with a large hall, for the help and for the patients. The latter is a new addition, large, light and airy, with seating capacity for from 40 to 50 patients.

The doctor's shack, a frame building, containing offices, examining room, dispensary, laboratory, etc.

The men's shack, a large building quite open to the south, supplied with twelve beds.

The women's shack, a similar building, accommodating eight patients.

One private shack for two patients.

The crèche hall, built on the plan of a small church, but with a roomy veranda running the full length of the building on both the north and the south sides. The building is used for recreation, services, etc.

The crèche infirmary, fully completed, and the gift of Messrs. J. B. and J. J. Grafton, of Dundas. This building is for the reception of all new cases and for the care of other patients whose condition does not permit of their taking moderate exercise and who are confined to bed all or part of the time. This building is heated by hot water and is equipped with hot and cold water fixtures.

Special use has been made of the barn. A part has been partitioned off and a well equipped laundry installed.

Finally, among the buildings are two chicken houses. These are built on the unit system, each holding twenty fowl. These buildings were donated by St. Hilary's Chapter of the Daughters of the Empire. The same chapter has already ordered a third.

The water system is very complete, and the supply is very liberal. All the buildings occupied by the staff or patients are supplied, with the exception of the private shack.

In concluding his report the doctor said:

As last year, I must mention the very satisfactory work and management of both Mrs. Wanser and Miss Wyatt in the respective departments. The absence of complaints on the part of patients (which, however, are likely to be heard without ground) is a very good indication of the general satisfaction in the management of these two important branches.

The report showed that there were 17 patients on January 1, 1907; 78 received during the year; 2 discharged and 23 on December 31. Of the 78 patients 98 were from Hamilton, 3 Dundas, 2 Barton, 2 West Flamborough, 1 Ancaster. Their ages were: Under 15, 13 to 19, 15, 24 to 29, 16 to 23, 30 to 34, 35 to 39, 40 to 44, 45 to 49, 50 to 54, 55 to 59, 60 to 64, 65 to 69, 70 to 74, 75 to 79, 80 to 84, 85 to 89, 90 to 94, 95 to 99, 100 and over.

There were 36 incipient cases, of which 8 were cured; in 15 others the disease was arrested; 5 were improved; 7 stationary and only one failed; with no deaths.

Of 28 moderately advanced cases two were cured, 4 arrested, 11 improved, 8 stationary, 3 failed and none died, and of seven far advanced cases, three died—the only deaths at the institution.

### The Officers.

The election of officers resulted as follows: President—Mr. W. D. Long. Vice-President—Mr. J. J. Eves. Secretary—Mr. W. J. Southam. Directors—Messrs. S. D. Biggar, P. D. Crerar, H. P. Coburn, P. D. Carse, J. J. Eves, Col. J. M. Gibson, J. T. Greenaway, J. J. Grafton (Dundas), J. O'Brien, Wm. Southern, C. S. Wilcox, Thomas W. Watkinson, Adam Zimmerman, M. P. Eves, Hamilton, Mr. T. Stewart, Mayor of Hamilton; Mr. Frank Quinn, Chairman Board of Health; Medical Health Officer, Ancaster; Mr. Wm. Vansickle, Jerseyville; Warden of County of Wentworth.

Ladies' Auxiliary Board—Mrs. P. D. Crerar, President; Mrs. Evans and Mrs. Southern, Vice-Presidents; Mrs. Pennfather, Secretary.

Committee—Messrs. W. H. Ballard, S. Barker, S. D. Biggar, W. R. Davis, Dr. Dickson, M. Leggat, R. A. Lucas, W. E. Sanford, J. T. Stewart, S. E. Lyle, J. M. Gibson, T. W. Watkins, S. Lyle, E. VanAllen, Lady Taylor.

**SORE THROATS AND COUGHS**  
They combine the germicidal value of creosoline with the soothing properties of menthol. Your druggist or from us, 10c in stamps. LANGE, 225 St. John St., Montreal, Que.

**STONE FRACTURED SKULL.**  
Rivalry Between Toronto Boys Fishing Led to Stone Throwing.

Toronto, April 8.—Rivalry between two gangs of boys fishing in the Don in Riverdale Park last night led to the throwing of a stone and the fracturing of the skull of J. Eddy Corbett, a boy aged 14, living at 114 Sparkhill avenue. Last night on the east bank of the Don in Riverdale Park there were two gangs of boys fishing for suckers with nets. A dispute arose, and there was some stone-throwing.

The third thrown hit Corbett on the head, causing a depressed fracture of the skull. The boy was taken to the General Hospital, where an emergency operation was performed. It is considered that the boy will get better, though the case is regarded as critical.

### SUED FOR NEGLIGENCE.

Doctors Accused of Failing to Sterilize Their Instruments.

St. Catharines, April 7.—No cases were determined in the High Court today, the suit of Sutherland against the Grand Trunk Railway being postponed owing to the absence of witnesses. The case of Patrick O'Donnell, Niagara vs. Dr. McCoy, St. Catharines, and Dr. Duggan, Niagara, for performing an operation on a child without sterilizing the instruments or the body, was begun, but not concluded.

Every physician in the city was present to hear the case, many being subpoenaed to give evidence. Mr. Cameron, Toronto, gave expert evidence for the defence. Defendants claimed they had sterilized the instruments and the body, and Mr. Cameron swore that if they had done as stated they did all possible, but on cross-examination admitted that if the evidence of the child's parents was correct the physicians had been negligent.

Bobbs—He says he is from Boston. Bobbs—I don't believe it. He pronounces his "rs" and doesn't like baked beans.

## EMMA GOT IN.

**Notorious Anarchist Turned Back at U. S. Border.**

**But She Proved Her Right to Cross and is Now in States.**

Winnipeg, April 7.—The United States authorities sprang a little coup last evening when they detained Emma Goldman at the boundary, refusing to permit the anarchist Queen to enter American territory. She had evidently been forewarned of this, and endeavored to elude the officers by fleeing from Winnipeg two days before the appointed time, after endeavoring to throw the officers here off the scent by posting notices that she was ill and would resume her lectures when recovered.

After a stormy scene she was ejected from the car at Noyes, and returned to Emerson, on the ground that her naturalization papers had been rendered null and void by her residence in Russia after they were obtained. Later she was examined as to her citizenship. Apparently she anticipated trouble, for she carried with her the necessary proof that her father was an American citizen. The authorities then permitted her to pass and she went on to St. Paul to-night.

The woman conducted her case with lawyer-like skill, and displayed much ingenuity in the cross-examination of the United States officials. It developed she had been under surveillance of the Washington Secret Service since arriving in Winnipeg. She left here mysteriously yesterday, and being informed that United States authorities were preparing to prevent her return to the United States. She said to the reporters that she was going direct to New York and would show her case.

The Canadian authorities were much exercised over the apparent determination of the United States to saddle the "Queen of the Reds" on Canada and were preparing to make the incident a serious diplomatic affair.

### THE INFLUX OF HINDUS.

Indians Will be Deterred From Coming to Canada.

London, April 7.—As a result of the conference held in this city between Mr. W. L. Mackenzie King, Deputy Minister of Labor, Canada; Mr. John Morley, Secretary of State for India, and the Earl of Elgin, Secretary of State for the Colonies, a satisfactory solution of the difficulties arising from the emigration of Indians to Canada has been found. While no legislation to restrict this movement from India will be passed, administrative measures will be taken to deter the Indians from going to Canada.

Circulars will be sent to the Punjab and other districts in India, explaining that the condition of the labor market makes it undesirable for Indian workmen to go to Canada, and that the Canadian climate also is unsuited to them.

### A REMARKABLE CURE.

A Year and a Half in Hospital at Kenora.

Kenora, April 7.—Michael Brudenek was discharged from the Royal Jubilee Hospital this week, cured, after having spent 561 days within the institution. In September, 1906, he was employed by Kelly Bros. on the water power development, and one day at noon, while walking along the C.P.R. track from his work, he was struck by a train and, besides sundry injuries, one of his legs was terribly shattered. He lay in the hospital, and on examination the surgeons thought there was little chance of saving his leg.

However, they decided there was a chance, and they gave the unfortunate fellow the benefit. The case became one of the most notable in the history of the hospital. The setting was perfectly made, but at times pieces of shattered bone gave trouble, until twenty-six pieces in all were removed.

The leg continued to improve slowly, as the time will indicate, but Brudenek fell into good hands, with the result that he is able to walk minus one leg, he is able to walk quite briskly with the aid of a light cane.

### DRAWN BY HORSE.

Mrs. Arthur Baty Seriously Injured at London, Ont.

London, Ont., April 7.—Mrs. Arthur Baty, an elderly lady, living at Pond Hills, had a narrow escape from serious if not fatal injury today. Mrs. Baty had come to the city on business, and was backing her horse out of a gate when a car, driven by a man named J. M. Gibson, of the city, came upon her from behind and struck her horse and the rig was upset. Mrs. Baty being thrown beneath and dragged a long distance before she could escape.

She was taken up in an unconscious condition and was badly shaken and bruised about the face and body, besides suffering from the severe shock. Fortunately no bones were broken, and after a time she was taken home. Her rig was completely wrecked.

George P. Westland, one of London's oldtime and highly esteemed residents, died at his home, 287 Queen's avenue, yesterday morning, after an illness extending over a year and a half.

### HOME-MADE MEDICINE.

Said to Relieve Kidney Trouble and Rheumatism.

One ounce Fluid Extract Dandelion;  
One ounce Compound Salts;  
Four ounces Compound Syrup Sarsaparilla;  
Mix and taken in teaspoonful doses after meals and at bedtime, is stated by a prominent physician to give most excellent results in kidney or urinary affections, and also in rheumatism and sciatica. The mixture opens the clogged pores of the kidneys, thus assisting them in their work of filtering all waste and poisonous matter from the blood, and expels these in the urine. To allow this poisonous matter to remain means that it will settle in the muscular tissues or joints, and cause the untold misery known as rheumatism.

The mixture is composed of harmless vegetable ingredients which can be purchased at any good drug store, and mixed at home.

Anyone suffering from any of these afflictions will no doubt be pleased to learn of so simple and highly recommended remedy.

## EXPLOSION AT BRANTFORD.

(Continued from page 1.)

brought to the city to address those interested on the best style of sanitaria that it would be suitable to erect. As at Brantford is remarkably free from contagious diseases, the record being 19 for the past three months, only two of each were fatal. Five of the 19 were direct importations of diphtheria.

### BAD RUNAWAY.

A bad runaway took place here yesterday at 4 o'clock, in which an exceptionally fine and high-spirited team of horses belonging to Parsell's undertaking establishment, figured, and as a result one of the horses was rendered useless. The team started on Water street, taking fright at a defective wagon box on the furniture outfit, which struck one of them. The animals made wild dash up towards Colborne street, where they were headed into Jubilee Park. They ran along the second terrace, which overlooks the river and ran into a fence at the end of the park. A whiffletree was plunged into the flank of one of the horses, and the injury will probably result in the animal being put out of business. The team was a perfectly matched one worth \$700.

### NEW TELEPHONES.

The Canadian Automatic Machine Telephone Company is showing considerable activity in the city, where several miles of ducts have already been laid underground, which are now ready for the cable, completing the installation of a dual telephone system. Mr. N. D. Neill, one of the directors, stated yesterday that it would be only a matter of a few weeks before the company would be taking the line to the city. The company on Queen street has been finished, and is a costly and permanent one in all respects. The telephone machines have been shipped and will be installed in the plant on arrival.

### TEACHERS' CONVENTION.

The teachers of Brantford and Brant County have selected as the store for this year at the annual convention, to be held on Friday and Saturday next in Victoria Hall, Dr. Moulton, the noted lecturer, of Chicago University, has been secured to deliver an address on "Romeo and Juliet, or the Significance of the Avoultion of the Heart." In the evening will lecture on the literary study of the Bible, taking for the basis of his subject, Ecclesiastes. Dr. Moulton is recognized as an authority on Shakespeare and Biblical subjects.

### NOTES.

Mr. C. A. Butterworth, formerly manager of the Brantford Box Company, has been elected to the position of president of the Hamilton branch of the Canadian Manufacturers' Association. Mr. Butterworth is reported to have decided to remain in Jacksonville, Fla., where he went to sojourn for the winter. Mr. Butterworth was very popular in Brantford, and many friends will wish him success.

The funeral of Hector Johnson, the old man who was run down on the Grand Trunk Railway on Monday morning, took place this morning, from the residence of his son on Water street, to the funeral home of Rev. J. A. Lemon officiated at the service.

The frequency of natural gas explosions in this city of late has aroused the authorities to the need of a qualified inspector of all gas mains and connections throughout the city in all instances the explosions have resulted from unsewered leaks, due in a great measure to defective piping. Within the last year two women have lost their lives in such explosions.

### Thanks Sweating All Right.

Providing the provocation equals the offence of Jones stepping on Smith's corns. Far better to use Putnam's Corn Extract; it does cure corns and warts in one day without pain. Try "Putnam's" free from acids and painless.

## MOUNT HAMILTON.

**Red Riding Hood Cantata in Chalmers' Church Last Night.**

Chalmers' Presbyterian Church at the East End Incline, mountain top, was packed to the doors last evening to hear the cantata, "Red Riding Hood," given by the Laurel Mission Band of St. John's Presbyterian Church. The cantata was well rendered by the young people, and was much enjoyed by the large audience.

Among the cantata soloists, Miss and Miss Conant sang solos very nicely, and Miss Simons recited a humorous piece which made them all laugh. Mr. Cree, the student in charge of the church, presided, and at the close thanked all who took part in the cantata. "God Save the King" closed the entertainment. Afterwards the entertainers were entertained with refreshments by the church people.

### SLAUGHTERING THE DEER.

Wolves Playing Havoc in Northern Wildernesses.

Sault Ste. Marie, Ont., April 7.—That something should be done to provide for the protection of the deer of Algoma against the ravages of wolves is being recognized to a greater extent each day, when reports come in from the outlying sections of the district as to the number of deer found slaughtered. In many cases the deer bodies are found uneaten, the destroyers apparently being satisfied with taking the blood and leaving the carcasses to rot in the wilderness.

Yesterday, Davidson came from a point near Searchmont and reported that he had discovered fifteen deer in the bush. They had been killed by a wolf, unprotected in the yards. George Dugle of Grosport reported to Game Warden Calbeck that he had seen the bodies of two deer and a couple of wolves at that place. John Boynton reports finding nine deer carcasses near Searchmont. George Walcott found seven more in the same locality. John Munn reports finding two 28 miles from Searchmont.

M. McCaley informs Mr. Calbeck that he has discovered no less than 22 carcasses near Goulais Bay. Several days ago Ben Riel of Grosport told two wolves on the road about a mile from his house. He hurried to the house to get a rifle, and by the time he returned the wolves had killed the two deer close by. The wolves had apparently killed them while he was away for the rifle.

## JUDGE CASSELS GIVES HIS VIEWS.

**APPOINTMENT TO INVESTIGATE THE MARINE DEPARTMENT.**

**Acts Without Extra Pay—Recommends Appointment of Registrar Audette as Deputy—Quite Willing to Accept Appointment, and Regards It as an Honor.**

Ottawa, April 7.—The correspondence between Mr. Justice Cassels and Sir Wilfrid Laurier, with reference to the appointment of the former at a Royal Commission to investigate the charges made in the report of the Civil Service Commission with regard to the Department of Marine, was tabled in the Commons today. Justice Cassels makes it plain that he did not in any way consider he was discourteously treated in being appointed commissioner without having first been consulted. He states that he does not desire to accept any emolument for conducting the investigation, and suggests that in order that the work of the Exchequer Court might not suffer, the present Registrar, Mr. Audette, be appointed a Deputy Judge to try such cases as may be found necessary.

Mr. Cassels addressed Sir Wilfrid as follows: "Dear Sir Wilfrid: You will pardon me for writing you on the subject of the appointment of a Royal Commission to investigate the affairs of the Department of Marine and Fisheries. As I have received no communication in regard to this commission, possibly I may be premature in referring to the subject. I have, however, had a few words with Hon. Mr. Lemieux, and I believe that my name has been mentioned as the commissioner. It would be absurd for me not to feel deeply the compliment paid me of being trusted with such an important investigation. I must, however, place my views on record in regard to this matter, as well as all future references or arbitrations. When I accepted the position of Judge of the Exchequer Court, I did so fully aware of the pecuniary loss which was involved. The position is one of high honor, and for reasons of my own I have accepted the honor conferred upon me by yourself and the Government of Canada. I have always believed, and still believe, that no Judge or other judicial officer should accept any position, as commissioner, arbitrator or otherwise, which would yield him any emolument over and above the pay which the law allows him in virtue of his judicial position. I freely concede to others the right to entertain different views on this subject. I am too old, however, to change my own view.

"By Chap. 138 of the Revised Statutes of Canada it is enacted that no Judge should accept any position, as commissioner, arbitrator or otherwise, which would yield him any emolument over and above the pay which the law allows him in virtue of his judicial position. I freely concede to others the right to entertain different views on this subject. I am too old, however, to change my own view.

the Grand Trunk is co-operating with the White Star.

Montreal, April 7.—Mr. James Thom, of the Dominion Steamship Line, stated today that upon the opening of navigation in 1909 the steamers of the White Star Line will run to Montreal and Quebec, in
