This, of course, will be largely increased before 9 o'clock to night. It is said that in Ward 3 the registered vote will amount to about 900. A conservative estimate places the total registration vote at 3, 300. At the Court House this 300. At the Court House this morning a good many of those who registered complained of the fact that they had been left off the voting list by the assessors, and they did not think they were getting a fair deal. One gentleman who registered at the Court House said that he was over fifty years of age and had lived in the city all his life, and he seemed to be left off the list every year, with the greatest of regularity.

W. M. McClemont, the Liberal candidate for East Hamilton, will deliver a second address to the electors of Ward 7 on Wednesday evening next, 20th inst., at 8 o'clock, at their hall, 545 Barton street east, next to Branch Bank of British North America. tish North America. Mr. McClemont's address delivered there last Friday even ing and fully reported in Saturday's is-sue of the Times, was the main topic of sue of the Times, was the main topic of conversation on the streets, and the subject of very favorable comment by hundreds of citizens. His treatment of the Labor question is meeting with great favor among the leaders of organized labor, and his bold stand for an independent and non-political enforcement of the Liquor License Act is being well received. He will discuss several new political questions at this meeting and advance several new planks in his constructive platform. Liberals and Conservatives alike are welcomed to the meetings.

The executive committee of the South Wentworth Temperance Voters' League met on Saturday afternoon and decided to hold a convention on Saturday next. It will be held in Green's Hall, this city, at 2 o'clock. The committee has invited a prominent speaker from the Dominion Alliance and has asked both the candidates, Daniel Reed and Ham. Regan, to be present and express their views on the temperance question.

Chicago Musician Tells Story of a Death Compact.

Chicago, May 18.-What appears to have been an agreement on the part of Henry Rudolph Ammann, a musician 43 years old, and his 12-year-old foster son, Walter Knobel, to die together, came to light when Ammann was found staggering through the woods near Fort Sheridan, relirious from self-inflicted wounds and the boy's body was found in a ravine.

The facts as gleaned from the musician's rambling statements when nearly ravined.

ician's rambling statements when partly revived at the Fort hospital were that Ammann, for reasons as were that Ammann, for reasons as yet not learned, led the boy into the forest last Friday, and, after wander forest last Friday, and, after wandering about for nearly two days gained the boy's consent that Ammann should kill him. Ammann stabbed the child through the heart with a knife and stabbed himself twice in the breast, but his wounds did not prove fatal. There was found in Ammann's pocket a letter which he declared the boy had written and tended to prove that the boy knew what his fate was to be and welcomed it.

In her own defence Miss Blunt had accused Sanford of misconduct. Her counsel appealed to the judge for leniency after, her conviction, but Judge Dike, in imposing sentence, said: "A blackmailer, whose demands being refused, substitutes lawlessness for law, and inflicts punishment upon her victims, is shown by the evidence to have other victims yet to punish, is not a woman who yet to punish, is not a woman who should remain free. This morning, through J. G. Far-mer, he pleaded guilty to a charge of eriminal non-support preferred by his wife, and elected for a summary trial. The Magistrate let him go on deferred entence, but warned him that he would be punished if he failed to get his wife a home and keep her well supplied with all she needed. John said he would take his wife to Jarvis, where he had a job waiting for him on the cement sidewalks. He was discharged from custody, but as soon as he stepped out of the dock he was re-arrested on a warrant from Paris, where he is charged with ill-treating a horse. When he was locked up again he made a tearful request that he be allowed to speak to his wife. When she went out to the cells to talk to him his first request was for some grub.

Senior Street Railway Men Make a Concession.

At the meeting of the Street Railway Union on Saturday night, the report of the joint committee—of senior and jun ior hands—in regard to the runs was that instead of taking all the day runs, the older members take one week of night runs in three weeks. The opposition to the report was withdrawn on condition that the younger men who dropped out of the union come back to the fold this week. It is likely that they will do so. The Ontario Railway Board will be asked to approve of the change of agreement between the union and the Cataract Power Co., the company having agreed to the change.

Delegates Pleased With Hamilton

Replying to the criticism in a letter to the press by Ald. Lewis regarding his stand on the controversy over the site of the Southam Home for advanced case consumption, Mayor Stewart to-day made a statement, from which it is evi dent that he has no idea of calling special Council meeting unless twelve aldermen request it. He said:

"Respecting my position in connection with the action of the City Council on the location of the William Home for Incurable Consumptives, Ald erman Lewis, as I think, unintention isrepresented the matter in his letter the papers on the 16th inst.

"In the first place his letter to me was not marked private and there was not marked private and there was nothing in connection with the letter which would lead me to suppose that it, was Alderman Lewis' intention that the same should be considered private, and thinking it a public matter I handed the letter in full to the press reporters, and not in fragments, as he states.

"The question of the location of the hospital was under consideratior for a long time, and on September 9th, 1907, the Finance Committee recommended to the Council that the Board of Governors of the City Hospital be permitted to erect, meange and maintain on the hospital grounds, the William Southam Home for advanced cases of tuberculosis. This report was adopted by the Council on a division, Alderman Lewis voting in the negative. Acting upon the authority thus conferred upon the Board of Governors they proceeded with the crection of the building. After the foundations were in a petition from residents in the locality was received by the Council on the 27th of April of this year, objecting to the location. This petition was referred to the Finance Committee and the Finance Committee on the 11th inst., reported to the Council recommending that no action be taken thereon.

the 1th list., reported to the Council recommending that no action be taken thereon.

"The rules or order governing the council wisely provide against contradictory motions being passed. One of these rules govern the reconsideration of a question previously decided upon by the council, and provides that a motion to reconsider a question must be made by some member who voted with the majority. Aderman Lewis having opposed the motion to focate the William Southam Home on the hospital grounds in September of last year, and voting in the minority, was debarred under the rules from moving the motion for reconsideration, but as the matter was not drawn to my attention until after the vote had been recorded, I allowed it to stand, and the matter was again referred to the Finance Committee.

"In the meantime I stated that I would communicate the action of the council to the Board of Hospital Governors, which I did. A meeting of the governors was called and the board decided that in view of the large expenditure already entailed that they could not see their way clear to stop the work and select another site unless the City Council was prepared to bear the loss. "Under the circumstances I considered that if the council still desired, in view of the loss to be entailed that the location should be changed, that they should communicate to me their desire for a special meeting and upon the receipt of which I would have been pleas.

should communicate to me their desire for a special meeting and upon the re-celpt of which I would have been pleas-ed to have called a meeting in compli-ance with their request. This not hav-ing been done, I presume that the mem-bers of the council feel that it would be unwise to at this time withdraw authority conferred upon the board by the council of last year."

Cannot Put Power Line On Beach.

Switching Station to be Near Dundas.

Another Batch of Lighting Plant Plans.

The matter of the location of . the

main switching station of the Government's power line is a bugaboo that is not likely to stampede the Hamilton City Council into signing a contract with the Hydro-Electric Commission. P. W. Sothman, chief engineer, and assistant Engineer Richards, who are going over the proposed route of the transmission lines to-day, were at the City Hall this morning and explained a few points that should set the aldermanic mi rest as to where Hamilton will be if it holds aloof from the scheme for the present. The big stick to be used to whip this city into line was that if a contract was not signed now instead of building the line to Toronto across the Beach the Government would take it back on the mountain and locate the switching station about nine miles west of Hamilton. It develops now that there was never any serious intention of building the line across the Beach, probably be-cause of the difficulty of securing right of way. As is generally known three railway companies and one power company also have the rights. Whether Hamilton goes into the scheme now or not the line will not be built across the sand-strip. If a contract is signed, it is said, the switching station will be located on the mountain ton year, the head of strip. If a contract is signed, it is said, the switching station will be located on the mountain top near the head of Garth street, Otherwise it will be built on the mountain side near Dundas. The latter point is reported to be preferrable in any event because it would make a more central location for the lines radiating south, west and north. The plan shows the line running from Niagara to Glanford, and then across to Dundas. From the switching station there one line would run almost direct to Toronto, another would branch off to Galt, Guelph and that district, while the other would supply Brantford, Woodstock, London and the west. Near Brantford there will be a small branch to St. George, and Bue Lake. It is said that the Government has already begun to purchase land for its right of way, in places where it will be impossible to carry the lines along the highway.

Mr. Sothman while here this morning left another batch of plans and specifications for Hamilton's proposed municipal lighting plant at the Board of Works office. He has not completed the work yet, but expects to shortly. The power committee will meet on Thursday night and it is expected that the result of its deliberations will be a recommendation to the Council on which power to accept.
