Request to the Council.

We believe it would clear the air considerably if the Municipal Council would make a statement of their policy in regard to the purchase of land in the vicinity of Windsor Lake. The public have the easiest of notions in regard to it. The Council would do well to tell us plainly why the policy was entered upon; what area of land will be required to carry out the policy; what the carrying out of the policy will cost; what has already been done; how far the Municipality is committed to the policy. We were told some time ago that many loads of filth were taken out of the approaches to the distributing main at Windsor Lake, and that previously that place had never been cleared of accumulations of dirt and debris. We also remember reading accounts of analyses of Windsor Lake water and the recorded presence of microbes with fearsome names, but whether their presence was as noxious as their names were unfamiliar is not a position to know. So far as our information goes, like "Reform," we have never heard of any outbreak of disease in the town being traced directly to any impurity of water at Windsor Lake, although we remember the cases of fever in the neighbourhood of the pond. At the time of the publication of the analysis of Windsor Lake water, we had a conversation with a medical practitioner in town who pointed out that there was more danger to be apprehended from unclean drains and grids near water pumps than could possibly arise from the chance of pollution in the vicinity of Windsor Lake. His views would bear out the opinion so emphatically expressed by our correspondent "Reform" that the danger spots lurk nearer home than in Twenty Mile Pond. In any case, it would be well for citizens to know where they are in regard to the scheme for appropriating land near Windsor Lake, and an authoritative statement from the Mayor and his colleagues which would throw light on the situation would not be untimely. We recognize the force of "Reform's" contention, but we should like to see the Council's case presented. At present, we have an open mind on the subject.

Football Match.

A fast and clean game of football was played last evening on St. George's field between the C. C. C. and the M. G. B. The game resulted in a draw, as it did on two previous occasions this season when these teams played. It is also remarkable that the same number of goals were scored each time, namely, two. The Guards took the western goal with the wind in their favor. They worked well and secured their two goals before the half-time whistle sounded. On the positions being changed, the Cadets got in their work in good style and before the full time was called had secured the equalizers. The attendance at the match last night was not large, those who were in attendance viewed a very fine game of football. The receipts will be given to the men on the gate.

CRICKET MATCH RECEIPTS.—Ninety dollars is the amount received on the gate and the grand stand at the recent cricket match. The money was handed over to the Lord Bishop for the ships fund.

Sad, Sudden Death.

A very sudden death occurred this morning and under and conditions, the victim being Mr. Jas. Walkins, of Bannerman Street. The deceased, who was a well known cooper and worked for years on Job Bros. premises, as did his father before him, had been ill for lengthy periods and suffered from heart trouble and dropsy. Though unwell for some time past and under the doctor's care, he was not ill enough to keep his bed and could work. He was at work on Job's all yesterday, and last evening after tea took a stroll down town and went on Job's wharf. He retired last night in apparently good health and at 4 o'clock this morning his wife called him to get ready to go to work. She received no answer and was horrified to find her husband dead in his bed. The affair was indeed a sad one and when discovered Mr. Walkins was beyond the reach of medical aid. He was a well known and kindly dispositioned man. He leaves a wife and 5 children, a brother, also in Job's employ, and an aged and widowed mother, to whom the Telegram extends its sympathy.

Why Must We Die?

"Behold we die, we perish, we all perish" (Num. xvii. 27). Whenever we fasten our sorrowful gaze upon a coffin, we feel not merely that its lid covers for aye the remains of a person dear to us, but also that it hides from our sight the very mystery of Life and Death; it conceals from our human ken the answer we all long to learn, to the old yet ever new question: Why must men be born only to die? Why must the cradle feed the grave? Why must the home people the cemetery? Why, oh why must parents become childless and children fatherless and motherless? Why not get your Clothing, Dry Goods and Furniture for cash or credit from B. FRIEDMAN, Complete House Furnisher, 299-301 Water Street (water side)? P. O. Box 45; 'Phone 546.

A large number of the tourists who arrived by the Bornu visited the R.C. Cathedral last night. His Grace Archbishop Howley who was there at the time kindly showed them around, and had all the electric lights turned on brilliantly illuminating the handsome interior. All were delighted with the artistic appearance of the edifice and later went through the grounds viewing the statuary and the ecclesiastical buildings.

POLICE COURT NEWS.

To-day a drunk was discharged. The West Ender who was arrested Tuesday as an accomplice of the man who was apprehended last evening for stealing lead and carpenters' tools, was released. Although he sold the goods for the latter he proved to the satisfaction of the court that he did not know they were stolen. The man arrested yesterday was then brought to the bar and charged with (1) the larceny of 28 lbs. of sheet lead, valued at $1.60, from residences in course of erection near Robinson's Hill; (2) the larceny of a pair of overalls valued at 80 cents; (3) 1 brace and bit and hand saw, valued at $4; (4) the larceny of a bench-axe, 1 bevel, 1 chisel and 1 plane, valued at $2.50, and (5) the stealing of 1 brace and 3 bits, 1 chisel, 1 turnscrew, 1 oil stove and 1 iron plane, valued at $4.50. These larcenies occurred on the nights of the 18th, 23rd and 24th. The prisoner pleaded not guilty to each charge. The evidence of Sergt. Byrne and the carpenters who owned the property was taken. The implements were all produced in court and were identified by their owners. The lead, which was torn in a peculiar manner, as well as the overalls, were easily recognisable. The prisoner was remanded for eight days.

A number of civil cases were tried in the C. D. Court.

Personal.

Mr. W. O'Neil and bride returned by last night's train from Avondale where they had been spending the honeymoon.

Mr. M. B. Vail left by the express last evening on a three weeks business trip through the Provinces.

Rt. Rev. Monsignor Veitch, P.P., Conception Harbor, is in town to-day.

M. F. O'Toole, J.P., arrived from Harbor Main to-day.

A Peculiar Happening.

Yesterday a mercantile firm in the city had a letter from Tizzard's Harbor dated the 23rd inst. saying that there was quite an improvement in the fishery there. This of course was quite a lot of welcome news, but a peculiar piece of information was in the fact the caplin had struck the shore again. This is undoubtedly an unprecedented circumstance for this late season of the year. Caplin have left the coast all round for six weeks past.

Bishop Thanked Him.

Mr. Jeremiah Savage of the Shamrock Cricket team had a sincere note of thanks to-day from His Lordship Bishop Jones for the proceeds of the gate, in Wednesday's match which were handed to His Lordship. The gross proceeds amounted to about $104, and the net amounted to nearly $90. Mr. Savage put forth every exertion to have the match played and certainly his efforts were crowned with success.

WATCH GUARD TORN OFF—Two fellows were fighting on Water Street West, near F. Wadden's store, this morning. Mr. Leo. O'Dea who interfered to separate them, was poorly rewarded for his kindness and one of them tore his watch chain out and broke it in two pieces and otherwise roughly handled him.

Only Triplane in the World.

Special Evening Telegram.
BOSTON, Mass., Aug. 25.

The first triplane to be seen in this country arrived to-day for the Harvard-Boston Aero meet, in which will compete some 18 American and foreign aviators with at least 15 different makes of machines. The triplane is the first foreign machine to arrive at the grounds, and it is the property of A. Roe of England, who has the only triplane in the world.

Ashore at Bell Isle.

Yesterday Hon. John Harris had the following message from Belle Isle in the Straits, via Cape Ray:—

"Stranded east and Belle Isle; struck reef yesterday, 3 o'clock afternoon; steamer ashore, full of water forward; can do nothing; advise what to do. Still aboard whaling steamer Cachelot.

(Sgd.) AMUNDSEN."

The Cachelot is a well known and very successful whaling steamer, and for the past four years has been fishing from Hawke's Harbor, Labrador. When the Invermore arrived here she reported the Cachelot with 32 fish, and with encouraging prospects ahead. It is likely she was after fish when the accident occurred, and no doubt she stranded in a fog, though the message does not say so. She is owned by a company of which Hon. John Harris and Mr. D. A. Ryan, of King's Cove, are large shareholders. She is insured only against total loss. It is not likely that she will come off the rocks.

Typhoid Fever.

Nurse Bessie Ellis went out to Millerton by the express last evening to attend the cases of typhoid fever reported from there yesterday. One of the patients are very ill and their recovery is very doubtful. Miss Ellis is an experienced nurse and spent some years at the General Hospital. She also did good work in nursing patients at Harbor Buffet two years ago when diphtheria broke out here.

Bait the Drawback.

The schr. Ida C. Spofforth, Capt. T. Griffin, arrived at James Baird, Ltd., yesterday from Harbor Buffet, with 1,000 qtls. fish. Capt. Griffin reports speaking to a fleet of boats at Cape St. Mary's and they report fish very plentiful there but the great drawback is scarcity of bait. The same applies all round St. Mary's Bay when if squid were plentiful a good hook and line voyage would be killed.

Good Draws.

Editor Evening Telegram.

Dear Sir,—Now that our football season is over, all the little incidents of the "game" appear and appeal to us. I have noted the peculiar attitude of the Cadets and Guards in the field, and it is remarkable that these two teams have made in the brigade matches three draws, being two goals each in those respective games. It is also noteworthy that beside the ability to draw with each other, those players can also draw a crowd, and that 'twas the Cadets who were always on "guard." The Guards are however, "good fellows," and are always first—a buoy (boy).

Yours truly,
P. J. K.
Aug. 26, 10.

RETURNED FROM HOLIDAY.—Mr. S. Ryall of Anderson's returned by last night's train after spending a very pleasant holiday of 10 days at Holyrood. Skipper Sam enjoyed some good fishing while there.

Have 60 Whales.

People in from Placentia Bay by last night's train say that the Lynx and Puma, which are fishing from Rose au Rue, had 60 whales each up to Sunday last. The Lynx secured two last week, which brought her catch up to the Puma's. She killed these fish between Grand Bank and St. Pierre Bank, a distance of 80 miles from the base of operations, and had a long tow with them. Whales are very scarce in Placentia Bay.

C.L.B. Doings.

The Battalion purpose to hold drill twice a week when the holiday season is over. A new division to be known as "E" Company will be formed which will take in the bigger boys of "B" Company and the smaller lads of "A." The new gymnasium is progressing favourably and will soon be ready for use of the members.

Fishery at Burin.

Mr. James Moore arrived here last night from Burin and says that during the past week there is much improvement in the fishery in that section. The bankers are doing exceptionally well, and the voyage will be the best for several years.

BURIED AT PETTY HR.—The remains of the late Laurence Hanaford were yesterday afternoon conveyed to Petty Harbor, his native place, where they will be interred to-day in the family burial plot in the R. C. Cemetery.
