In Winter Time USE BEAVER BOARD!

If your new home is ready for walls and ceilings, or if you have some remodelling to do, don't wait for spring to plaster, but use BEAVER BOARD right now. BEAVER BOARD takes the place of lath and plaster; it may be decorated at once with paint in oil or water color and the house can be occupied at once.

BEAVER BOARD will not crack and never needs replacing. It is used for every class of building—home, store, office, &c., wherever you want durable, artistic, sanitary walls and ceilings.

We will show you how you can use BEAVER BOARD for your building or remodelling. Call, write or telephone.

On Preparation.

By RUTH CAMERON.

ed as if she had spent at least two hours getting the effect, told me that she is always called at ten minutes to seven. "How can you ever do it?" I asked. "I couldn't," she said, "if it weren't that I get everything ready the night before. Just before I go to bed I see that everything I am to use from my undervest to my gloves and veil are where I can lay my hands on them instantly. Whatever stock I am to wear I put beside my waist, and if I am to have a clean ruche I sew it in. Then if I have any papers or samples or anything that I want to take to town the next day, I put them in my handbag with a clean handkerchief. So you see, everything is ready for me, and it doesn't take me half the time it would if I had to stop and hunt for things. And yet you would scarcely believe how short a time it takes me to get these things ready the night before.

The average housewife realizes that it is better to set the table for breakfast the night before—the time it takes to do it then is not to be compared with the impetus it gives her on her morning's task.

The wise housewives apply this principle to many other tasks, and learn to make their work easier by getting things ready in advance when possible.

And not only the wise housewives either.

Ruth Cameron

WOMAN'S WISDOM.

The worried mother wakes up to hear her baby's heavy breathing—a little cough—perhaps the croup or whooping cough. She does not want to send for the doctor when perhaps the trouble does not amount to much. Finally she thinks of that medical book her father gave her, The Common Sense Medical Adviser, by R. V. Pierce, M. D. She says "just the thing to find out what is the matter with the little dear." Two million households in this country own one—and it's to be had for only 31c. in stamps—1,000 pages in splendid cloth binding. A good family adviser in any emergency. It is for *elder* sex. This is what many women write Dr. Pierce—in respect to his "Favorite Prescription," a remedy which has made thousands of melancholy and miserable women cheerful and happy, by curing the painful womanly diseases which undermine a woman's health and strength.

"My desire is to write a few lines to let you know what your valuable medicine has done for me," writes Mrs. Margaret Zimmerman, of 323 S. Benton Street, Baltimore, Md. "Before the stock came to our house I was a very sick woman. I wrote you for advice which was kindly given and which made me a different woman in a short time. After taking the first bottle of 'Favorite Prescription' I began improving so that I hardly knew I was in such a condition. I did my own housework—washing and ironing, cooking, sewing, and the worst of all nursed three children who had whooping cough. I hardly knew of the advent ten minutes before—so easy was it. The baby is as fat as a butter-ball. Dr. Pierce's Favorite Prescription is the best medicine for any woman to take when in this condition. I recommend it to all my friends."

Competency or Penury?

Statistics Show That at Sixty-Five Only Three Men out of Every Hundred own Property—Remainder Depend on Earnings and Assistance.

In the Christmas Number of The Prudential Bulletin the statement is made based on the Mercantile Agency Reports, that only three men out of every hundred in the United States and Canada own any property at sixty-five years of age.

"Man's average life is like a hill—the upward journey is usually one of production, and on the other side it is either competency or penury. The upward part of this hill is the profitable period of a man's life. It is a period in which he either makes his money or gets well launched into doing so. It is a period in which his finest powers are developed. Mercantile Agency reports show that at the age of 45, 83 per cent. of the business men in the country are to-day than of necessities to-morrow. We do not seem to be able to get it into our consciousness that it is possible for us to be in penury 20 or 25 years from now.

"We do not make big mistakes. We do not make fool investments, and, of course, we never will. We, of course, intend to make an estate some day; just now we cannot begin because we get too much enjoyment out of living up to our income, or nearly up to it. This, as you know, is the National American spirit.

"The other reason so few men (only 3 in 100) have property at age 65 is because of the mental transition they go through, usually between the ages of 55 and 65. Between these years a man goes through a mental transition that upsets his judgment. He makes business deals and goes successful. As a rule, if he does not get a start by this time he never gets it; but as I say, it is shown that 83 per cent. do get a start. During these years the healthy man has nothing to fear about present comforts.

"Now take a glance at the other side. From 45 to 65 the man is going down. This is, in a sense, the age of losses. Statistics show that at the age of 65, 79 per cent. of the men in this country are dependent on their daily earnings or on their children for support. It hardly seems possible, does it? But it is an actual fact.

There are two reasons for this. One is that we are a "happy-go-lucky" nation, thinking more of pleasures and luxuries into ventures that he would not have dreamed of doing before. Hard-headed, shrewd men, with the keenest of judgment—men who would never dream of speculating, have their judgment warped during this period, thus causing the large number of failures you see recounted daily in the Dun and Bradstreet news items. Are not these facts pregnant with meaning, and do they not point a warning to each of us?

"Does it not become imperative in the face of facts of this kind that we change our "happy-go-lucky" methods of living and at least lay by a sum that will provide for our old age? Luxuries may not be needed then, but comfort is, and the thought of dependence on others should make us shudder."

A Portrait!

A Portrait to be properly finished and give satisfaction demands the utmost skill of the photographer. Many photographers delight in exaggerating the image, which, when finished, is not a true portrait.

A Portrait must show the person as he or she truly is, without any artificial means of beauty, free from skin blemishes with the exception of birth marks or scars.

We photograph the person truly and retouch in the most approved and up-to-date way.

No order too small or too large for our every attention.

Call in and we will be only too glad to show you everything—show you photos of people of whom you know.

We are specialists in child photography. Send the children alone.

Photos from Stamps and Buttons up to 12 by 14 inches; all sizes, styles and finishes.

Watch our show cases from time to time.

an electric light being fitted into the interior. The strength of the suction pull and of the light depends, too, upon the area of the body to be treated. The palm of the hand, of course, will stand greater pressure and more heat than will the face. The action of the suction cup alone is twofold: it draws from the skin impurities characteristic of certain not uncommon skin diseases; and furthermore, it draws the blood to the surface, the blood picks up waste matter that the suction does not get and carries it to the various excretory organs, such as the liver, kidneys and lungs, where in one form and another it is eliminated from the body. It also brings to the diseased part substances for building up new tissues and healing the wound. The circulation of the blood in the diseased area is especially stimulated by successively applying and withdrawing the suction cup.

In addition to the effects of the suction the remarkably stimulating effects of heat are introduced. The small lamp with the cup dilates the blood-vessels which lie near the surface of the body, allowing a greater volume of blood to reach the affected part, and also accelerating the flow of the blood stream. The heat rays find the skin in an especially receptive condition, for the suction opens the pores of the skin in a remarkable manner; and the push of the body surface toward the lamp serves to drive the rays into the interior of the skin.

Certainly Ends Stomach Misery.

"Pape's Diapepsin" cures Heartburn, Gas, Sourness and Indigestion in five minutes.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia: when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes such misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a Little Diapepsin. There will not be any distress—eat without fear. "It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is scientific, harmless and pleasant preparation which truly belongs to every home.

On Second Thought.

A woman seldom is pretty enough to overcome the handicap imposed by her wedding gown.

Diet hint: If hot biscuits hurt your stomach, that is a sign you haven't much of a stomach.

Jasper Ellington, who, two months ago, took up the job of defending the motor-cycle, already has more work than five men could do.

Mr. Taft says Mrs. Taft is the real Prizetide. But not many of the married men are so frank as Mr. Taft.

A good many, apparently, impossible feats are accomplished, but no character who chews tobacco can get into Harper's Magazine.

No other annoyance of travel equals that of being "entertained" at a private house.

MINARD'S LINIMENT CURES COLDS, Etc.

Cable News.

Special Evening Telegram, Jan. 19.

TORONTO, Jan. 19.
For the first time for the past forty years, the Humber River has broken up after once freezing in mid-winter.

MONTREAL, Jan. 19.
Following the high level temperature of 46 degrees Fahrenheit, and a minimum register of 35 degrees, Friday was the warmest January day for eight years. Spring-like weather continues in Montreal. A record early opening of the harbor is prophesied by shipping men.

CONSTANTINOPLE, Jan. 19.
The Minister of the Interior, has issued the report of an engagement between the Turkish and Greek fleets between the Islands of Tenedos and Lemnos, lasting several hours. According to this official announcement there were heavy losses on both sides. The Turkish fleet returned safely to the Dardanelles, and the wounded are being brought to Constantinople. It is not known here whether this report refers to an engagement on Saturday, or whether the engagement would be renewed on Sunday.

NEW YORK, Jan. 19.
Electric fans are buzzing in the offices here; mosquitoes are in New Jersey; Vermont is snowless; blue birds and robins are flying in Virginia; apple trees are budding in Maryland; out-door baseball practice is continuing in Philadelphia; and dandelion is being picked in many places. All the reports attest an unusually mild winter in the East. To-day is one of the warmest January days ever experienced. The Hudson River is being navigated at a later date than at any time since 1810, when Robert Fulton was running his steamer between New York and Albany, as late as January 20th. It is customary to close the river for navigation on Dec. 15th. Even in Maine most of the lakes and rivers are open, but the ice companies are still hoping for two weeks of zero weather.

LONDON, Jan. 19.
The Porte's decision to call the National Assembly on Tuesday, to consider the Balkan situation, probably heralds further concessions on the part of Turkey, concessions which could not be yielded by the Cabinet without risking its fall. In any case the Balkan delegates in London do not believe that the Porte's reply to the joint note of the Powers will be such a flat refusal as foreshadowed from Constantinople. Yesterday's despatches reported that the Turkish Government had reached a decision not to cede Adrianople or the Aegean Islands, but was willing to enter into negotiations respecting those Islands some distance from the Dardanelles. If Turkey's answer is unsatisfactory the Allies, in deference to Europe, will ask the Powers whether they have the means to compel Turkey to comply with their wishes. If not, the Allies will carry out the plan already announced, leading to a resumption of the war. In such event the Allies will regard all concessions made heretofore for the sake of peace, either to Turkey or the Powers, as void. Thus they will not recognize the undertaking consenting to an autonomous Albania, or the promise of Serbia or Montenegro to retire from the Adriatic. Questioned as to the possibility in the case of Austria employing force, one of the delegates said to-day—"We shall see whether the Triple Entente, and especially Russia, will permit such action on the part of Austria. If we are forced to fight another war, the cost of which is nearly \$1,000,000 daily, we will not abandon the territories already occupied, unless driven out by force. That would mean a European war. If Austria were permitted to march on Belgrade and to bombard her troops on the Adriatic, and we were crushed, we should prefer to become Austrian, rather than to belong to the Slav race, when our mother, Russia, lacks the force or the will to protect us.

Harboured at Cape Broyle

The barque Attila, Capt. Morgan, put into Cape Broyle on Saturday for shelter. The Attila is twenty-nine days out from Pernambuco and as soon as the storm abates will try to make this port. The run is a quick one at this season.

Still Searching

Saturday Const. Nugent with several friends of the missing man Lawrence Byrne were searching for him. They used a water glass and went all about Franklin's and other docks in the West End but without result. It is believed that the man's body is in the harbour.

DECLARED TEN PER CENT.—The annual meeting of the directors and shareholders of the St. John's Nail Factory was held to-day. The factory has had a very successful year and a dividend of 10 per cent. was declared.

Harboured at Cape Broyle

The barque Attila, Capt. Morgan, put into Cape Broyle on Saturday for shelter. The Attila is twenty-nine days out from Pernambuco and as soon as the storm abates will try to make this port. The run is a quick one at this season.
