Days Past—134 To Come—230

M. W. BALFE, born 1808. Irish operatic composer, with a rich vein of melody which distinguishes all his compositions, as in the popular "Bohemian Girl."

DANIEL O'CONNELL died 1847, aged 72. "The Liberator"—Irish politician, who as pleader and cross-examiner was unrivaled.

Nothing wins a man more than a good turn.

The Science of Servant-Finding is now reduced to the last word in simplicity. Our small Want Ads. act as a "Magnet for Maids."

Evening Telegram

W. J. HERDER, Proprietor

THURSDAY, May 15, 1913.

Notes and Comments.

In one sense, "Clean-Up" day was almost too great a success, citizens with backyards cleared them, and heaped the refuse on the public streets, where it was accumulated in such quantities that the sanitary carts with the little carting help volunteered found the task too great, and as a consequence there are many complaints of the heaps of rubbish left on the streets. The shortage in voluntary carting was largely due to the resentment felt by volunteers that persons who could pay for his cartage took advantage of the movement when it was started to get the refuse cleared away on the cheap. It's a pity, but so it is.

The New York Fishing Gazette has the following in its latest issue to hand:

"Commenting on our tariff article last week, a prominent exporter said he didn't anticipate any upsetting of existing export conditions on account of the putting of Nova Scotia fish on the free list, by reason of the difference in cost, as an economical item. But he said, the free list would likely induce Nova Scotia shippers to undertake to connect up with interior houses in the States, and so defect business from the existing channels. This will be a source of disturbance for a while, until conditions become settled. And more merchants seen this week gave it as their opinion that that is the only effect the new tariff will have—keep the trade unsettled until the new law goes into effect. For this reason all are wishing and hoping to see the new law enacted as speedily as possible, and will heartily applaud all those Congressmen who labor to this end."

Dr. Grenfell, in the letter we publish to-day, declares the most of the men he meets are longing for Confederation, and this meets with his approval. On the other hand most of the men we meet are not longing for Confederation. They dislike, intensely, the idea of becoming a part of the same government as the Dominion, and look upon it as the dreadful result which will likely follow the piling up of the Public Debt on the scale which has been going on the last four years, but only as a last resort after every other expedient has been exhausted.

The New York Fishing Gazette has the following in its last issue:—"A new method of handling and marketing fish is about to be tried by

the Gorton-Pew Fisheries Co. says the "Wall Street Journal." The str. Alcona will be equipped with a large cold storage and freezing plant. It will cruise among the ports on the west and south coasts of Newfoundland, where it will secure fish. These are to be frozen on the vessel and shipped from North Sydney. The Newfoundland Government will permit all coal for operating the cold storage to be admitted free of duty while the steamer is in Newfoundland waters. The Alcona is 1,200 tons gross, with 350 horse power. It will have two 20-ton absorption refrigerating machines, with a daily freezing capacity of 40,000 pounds of fish. Over 75,000 pounds of fish can be spread over the freezing coils at one time. Calcium brine will be supplied to 30,000 lineal feet of 1 1/2-inch pipe. Why was not this deal laid before the Legislature?

"Too Late to Spare."

"Too late to spare when all is spent" is an old saw, but the Department of the Board of Works seems to disagree with it. The Premier and Government after a 4 years' carnival of squandering have pretty well cleaned out the public chest, and possibly this is what constrained Minister Woodford to refuse to have the bridge in Kean's Valley repaired recently, though Mr. Kean offered to do it for \$6. The Minister's ideas of "economy" are now to be recognized. The bridge being out of repair could not withstand the spring freshets and so was swept completely away. It will take something more than \$6 to replace it, and replaced it must be quickly.

What About Your Cough?

It is gradually growing from bad to worse? A person contracts a cold some way or other. Very often you do not know how you contracted it. The symptoms do not begin until 1 or 2 days after.

1st.—It affects the head, causing a nasty, uncomfortable feeling for about 36 hours, leaving the head and affecting the throat and gradually settling on the chest, which 9 cases out of 10 is neglected. This is the time when the danger is at hand.

If there is nothing to relieve the spasms of coughing and to take effect on the bronchial organs of the throat and chest, the chances of the cough leaving the system of its own accord is not very great.

As a rule in the night your cough is worse than any other time.

Pharotone Cough Mixture quickly gets at the seat of all kinds of coughs and colds, and in a few hours great relief is obtained. If you mix equal parts of Stafford's Liniment and Sweet Oil in a saucer, warm slightly and apply on a piece of thick flannel, placing same over chest and allowing it to remain three or four hours, this will also relieve you a great deal.

Hundreds of people have coughs and colds gradually growing from bad to worse just because they do not take the proper treatment. If you are one of these don't delay any longer.

Pharotone Cough and Cold Cure is prepared only by DR. F. STAFFORD & SON, St. John's, Nfld. Price 25c. a bottle; postage 5c. extra. apr 25, 11

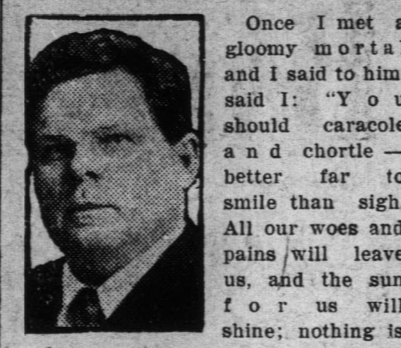

SMALLOPOX.—Two female members of the Galway family on Pleasant St. were pronounced upon yesterday to be suffering from smallpox. They will be removed to the fever hospital to-day as will also their mother, who contracted the disease a fortnight ago and since has been treated at home.

COCOA AS IT SHOULD BE

Grateful—Comforting **EPPS'S** Breakfast Supper

Warmth, strength, nerve, energy, are the results of "Epps's," the perfection of cocoa, in which the sustaining and warmth-producing constituent called cocoa butter is retained in maximum quantity.

Briny Tears.

Once I met a gloomy mortal and I said to him, said I: "o u show d carole a n d chortle— better far to smile than sigh. All our woes and pains will leave us, and the sun f o r us will shine; nothing is so doggone grievous as to call for all this brine. For our moing there's no pardon, it's against all recent styles. Read the dope of O. S. Marden, note the curves of Sammy Smiles! Why go snopping round to borrow trouble when there's joy to spare? If there's gloom to-day, to-morrow will disperse your grief and care." But the old man wept the louder as he heard my gens of thought, saying: "You are full of chowder—all the things you say are rot. For my trade is helpful verses and the uplift graft, my son, and I feel like forty hearses with a corpse in every one. Life has lost its charms and glories, it has nothing but distress, for I write the sunshine stories for the optimistic press."

McMurdo's Store News.

THURSDAY, May 15, 1913.

We have still a few sacks of hayseed—the strictly prime variety—left, but would advise all intending purchasers to let us know their wants immediately as our supply of this specially selected lot is limited. We are selling it at the rate of 7c. a pound in sacks of 120 to 130 lbs.

The Excelsis Shaving Stick will do what we claim for it—enable you to have a comfortable shave in the shortest possible time without causing any smarting of the face afterwards. The Excelsis is the product of the best kind of soap making and is superfatted, and so easy and pleasant on the skin. Try the Excelsis next time; you will find it work. Price 35c.

Here and There.

BLOCKED WITH ICE.—A message received to-day stated that the Belle Isle Straits are blocked with ice.

FOR ASYLUM.—Const. Bartlett arrived by last night's train in charge of a female patient for the Asylum.

WANTED. — A SPRINKLER.—Clouds of germ laden dust to-day. No sprinkler. No wonder there is so much disease in the city.

A BIG CARGO.—The s.s. Euphrates sailed at daylight for Bell Island and ports in Conception Bay, and had a full freight with a deck load.

TO CORRESPONDENTS.—Several letters are unavoidably held over, among them is a racy answer to N. M. on the entertainment he criticized; letters on Clean-Up Day, and a letter against Confederation, etc.

SCHEDULE BEGINS.—The Red Cross Line schedule commences June 7th with the Stephano leaving New York for Halifax, and then making fortnightly trips thereafter, alternately, with the Florizel.

INVERMORE'S PASSENGERS.—The Invermore arrived at Port aux Basques at 10.50 a.m. to-day, bringing C. Hess, H. D. Grant, T. Frazier, H. Harding, H. C. Oliver, A. Lowney, W. Brennan and Miss J. D. Hunt.

GLENCOE'S PASSENGERS.—The Glencoe, which arrived at Placentia yesterday evening, brought the following passengers: Capt. Coffin, H. Dawe, J. T. Morey, G. Parsons, J. C. Harris, Miss King, Mrs. R. Vigus, Mrs. C. Bishop, Dr. Smith and four second class.

The police are now on the trail of the prisoner Kennedy who escaped from custody Tuesday night and as yet has not been captured. The different country roads are being searched thoroughly, and there is an idea that the prisoner is being housed by friends.

IN FINE TRIM.—The S. S. Bruce which had been on the dry dock for the past week or so came off yesterday. The ship while on the stocks was painted and some loose rivets were replaced and the ship is now in fine trim for her work. The S. S. Lintroue will come on shortly to be attended to.

MOTOR BOATS INCREASING.—Mr. Gerald Coady, of the Frazier Machine Co., left here to-day to go to Pouch Cove, where he fits 15 new motor engines in as many boats and skiffs. These give from 6 to 15 horse power, and all over the country the fishermen this year are getting motors. Boats propelled by the oil will be a curiosity after a few years hence and the fishermen's labor will be greatly reduced.

A DANGEROUS PRACTICE.—The Water Street sidewalks of late are sometimes highly dangerous to walk on. People who purchase fruit at stores scatter orange and banana peels on the sidewalk and pedestrians pass along at the risk of broken bones. One man at Callahan's corner yesterday slipped on an orange peel and fell so heavily that he was dazed and not a little hurt on being assisted up by passers by.

MINARD'S LINIMENT CURES DISTEMPER.

Ayre's Candies

Cheaper than ever
No Better Impossible

The Police Court.

One drunk was discharged. A young man arrested on an affiliation charge, is on remand. A fisherman of Bauline, for loose and disorderly conduct, was sent down for 10 days.

Three boys summoned by Sergeant Savage, for discharging revolvers in the country were each fined \$2.

A 19-year-old domestic, charged with feloniously assisting James Kennedy, was remanded for 8 days.

Released From Prison

AT ORDER OF GOVERNOR. This morning His Excellency Governor Davidson exercised his prerogative and released from H. M. Penitentiary Richard Joseph, a Syrian, who, it will be remembered, figured as an accomplice in the sensational shooting affray in the West End at the house of Annie George, on January 17th, 1908, when Dominic Richards shot and wounded Basil Noah, a fellow countryman. Joseph was sentenced to seven years imprisonment. In view of commutation the term would not expire until August next but the prisoner was given his freedom to-day, as already stated, at the order of His Excellency the Governor.

Took Rat Poison.

Mr. J. Brien, of Petty Harbor, to whose unfortunate case the Telegram exclusively referred yesterday, became suddenly insane Tuesday night at his home, and took a dose of rat poison in a glass. As a matter of fact he took an overdose, and this saved his life, for he vomited copiously and became very ill. Later on he became violent and his friends had to restrain him. Dr. Roberts did all possible for him and he was taken to the Asylum yesterday afternoon.

Occurred Near Badger

On the 7th inst. we published the story of the death by drowning of a young man named Faney. Our informant stated that he was an employee of the A. N. D. Co., and that the accident occurred at Millertown. The A. N. D. Co. writes us to-day to say that the unfortunate young man was not an employee of theirs and that they took the water tower near Badger. The body, as we stated, was recovered and interred.

Docked for Repairs.

An examination made by Diver Taylor, yesterday, of the s.s. Kastalia, which put into port the previous day, showed that there are a number of plates in the bow of the ship and on the starboard side loosened, caused as the result of contact with ice trying to reach Botwood where she was bound china clay laden. The Kastalia went into dry dock this morning. The extent of damages and the delay to the ship will not be determined until the dock is pumped out and the ship in the stocks about 4 o'clock this afternoon. It is likely the ship will be detained a week.

Train Notes.

The Bruce express is due here at 5.30 p.m. Tuesday's express arrived at Port aux Basques at 7 a.m. yesterday, and yesterday's express is due there to-morrow morning.

CLEARED AWAY

Proper Food Put the Troubles Away.

Our own troubles always seem more severe than any others. But when a man is unable to eat even a light breakfast, for years, without severe distress, he has trouble enough.

Is it small wonder he likes to tell of food which cleared away the troubles. "I am glad of the opportunity to tell of the good Grape-Nuts has done for me," writes an Eastern man. "For many years I was unable to eat even a light breakfast without great suffering."

"After eating I would suddenly be seized with an attack of colic and vomiting. This would be followed by headache and misery that would sometimes last a week or more, leaving me so weak I could hardly sit up or walk."

"Since I began to eat Grape-Nuts I have been free from the old troubles. I usually eat Grape-Nuts one or more times a day, taking it at the beginning of the meal. Now I can eat almost anything I want without trouble."

"When I began to use Grape-Nuts I was away under my usual weight, now I weigh 30 pounds more than I ever weighed in my life, and I am glad to speak of the food that has worked the change." Name given by Canadian Postum Co., Windsor, Ont. Read the little booklet, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

6 Books for 20c.

BOOKLOVERS OPPORTUNITY.
