# OXO CUBES

## In the Navy

A Naval man on one of our warships wrote when ordering further supplies of OXO CUBES:—

"The finest recommendation, I think, lies in the fact that this is a repeat order for a larger amount (of OXO CUBES) in order to guard against the rigours of the climate."

The coming of Winter always emphasises the value of OXO CUBES. They provide warmth, sustenance and energy to withstand the exhausting strain of the cold winter months, and enable one to recover quickly from fatigue and exposure. In the home they are handy for preparing soups, savouries, and gravies; or for a hot nourishing food-beverage at any time.

One of the most striking features of OXO CUBES is they meet the needs of all classes—and all ages.

"OXO Cubes come in so handy."

"Before I close could I ask you to send me some OXO CUBES. THEY COME IN SO HANDY in the middle of the night, and it is so freezing cold as sea now."  
*(From a Letter to the British Fleet.)*

**OXO CUBES ARE BRITISH** they are made in Britain by a British Company with British Capital and British Labour.

**In 15c and 35c Tins**  
Also tins of 50 and 100 cubes

"OXO Cubes are more precious than gold."

"OXO CUBES are more precious than gold out here as they make a QUICK HOT FEED."

# ACORN

The convenient new size, high grade plug tobacco, is continuing to find new users, being manufactured from the pure Burley leaf it has a distinct taste particularly pleasing to the smoker.

Sold only in the new size,

**10c a cut**

**Imperial Tobacco Co.**  
*(Newfoundland) Ltd.*

When clothes have become badly scented with tobacco, hang them in the open air and sunshine until the smell is gone.  
Express packages that are to travel a long distance should be sewed up in strong unbleached muslin over the paper wrapping.

Grease sweet potatoes before they are put into the oven to bake; they will bake in half the time and the skins will be soft.  
When you paste labels on glass jars that are used for spices or cereals, put the label on the inside; it will stay more securely.

Every guest chamber should have its bedside set of tiny pitcher and drinking glass, perfectly covered, and candlestick and match box.  
A good sauce for lamb is made of current jelly broken up and mixed with finely chopped mint leaves and a few shavings of orange rind.

OFFICIAL FROM CAIRO.

LONDON, Feb. 5.  
The Governor, Newfoundland: An official communique from Cairo reports a Turkish attempt to cross the Canal near Toussoum by means of pontoons and rafts. After some fighting, the enemy retired, leaving many dead and about three hundred prisoners. An attack was also made at El Kantara. The enemy were driven off with losses of 21 killed, 25 wounded, and 38 unrounded prisoners. The enemy's forces apparently number at least 12,000 with six batteries.

The French Government reports a successful engagement in the District of Perthes, and some successes at other points.

### ENGLAND WILL PUT THREE MILLION MEN IN THE FIELD.

LONDON, Feb. 5.  
England is going to put at least three million men in the field to fight the Germans. An idea of the plans of Kitchener, revealing the strength of the British forces, was given today when the new Army estimates were issued in revised form by the War Office. The Commons will be asked to vote not the actual sum of money required by the War Office for the equipment and maintenance of these forces, but an approximate sum in round figures. The actual figures will be reserved in order to prevent information from reaching England's enemies. A sum necessary for a total of three million men in round numbers will be voted.

### FIGHTING IN AFRICA.

PRETORIA, Feb. 5.  
A sharp fight between English and German patrols occurred on Wednesday near Sandfontein. Three Germans and a British Sergeant were killed.

### VIOLENT ATTACKS BY GERMANS.

PETROGRAD, Feb. 5.  
Not since the battle around Lodz in Russia, Poland in the early part of December have the Germans delivered such violent attacks as those of yesterday, when they attempted to drive through the Russian line near Borjénov. Probably never before in the Eastern area of war have they concentrated such a force upon a single point. In a distance of six miles between Limna and Bononow, the Germans threw 100,000 infantrymen, together with heavy forces of cavalry, the whole supported by 100 batteries of artillery, comprising in all no less than six hundred guns. It is estimated that in this short line there were nearly 30,000 men to the mile, coming on in ten or twelve lines like the waves of the sea. The Russians, warned by attacks of the previous days in this same vicinity, have concentrated correspondingly heavy forces to resist the German advance, and so close were both sides packed in this narrow space that the artillery became practically useless. The battlefield was a flat plain unobstructed by either trees or houses, the latter having already been demolished by shell fire. The Russians met the German advance with rifle fire and bayonet, the first lines struggling forward and backward from trench to trench. At some places the trenches were only a few hundred yards apart and the closeness of the line made the fighting extraordinary sanguinary, whole companies being entirely exterminated.

### AUSTRALIA OFFERS 4,000 MEN A MONTH.

MELBOURNE, Feb. 5.  
A further expeditionary force of 4,000 men a month has been offered by Australia and accepted by the British Government.

### H.M.S. CHARBYDIS DAMAGED IN COLLISION OFF NEW YORK.

St. John, January 26.—The steamer Chignecto, here to-day from the West Indies, brought some eighty sailors of the British cruiser Charbydis, en route to England. They report the Charbydis in a damaged condition at Bermuda, having arrived there about a week ago from New York. She was in collision with a freight steamer, the Bayano, bound for Italy. Collision took place on a dark night about ten miles off Sandy Hook. It is said that the freighter crashed into the Charbydis's bow, carrying away part of it, and causing considerable damage to the cruiser. The latter made Bermuda, but it was decided not to repair her at present, as she is only a third class ship. The freighter made for the shore.

It is one thing to have VICTORY in your mind, we all pray for it. You can get a barrel in your house by ordering VICTORY Flour from your merchant.—Feb 5, 11

### "Cinderella," a New Pantomime.

On Monday, the charming Fairy Story "Cinderella and the Glass Slipper" will be produced at Rossley's on a very elaborate scale, with all new songs, dances, costumes and other electrical and spectacular effects. This is the finish up of the pantomime season and will be the prettiest of all—the oldest and most enchanting of our childhood fairy plays and produced by the Rossley's need no recommendation. The pictures also are lovely while the orchestra is the best in town.

## The Abnormal Development

## The British Fleet

Is the Main Cause of the German Rage and Hatred.

New York, Jan. 25.—Frank Irish Cadwalder in an article on the war published in the Christian Nation, says:

"I shall make no prophecies as to the final outcome of the war. But it still remains true, as it was at the beginning of the war, that if Germany can destroy the British fleet she wins. And otherwise she loses. The Germans have been diligent students of the teachings of the late Admiral Mahan of the supreme importance of sea power, and it is their recognition of England's pre-eminence in that regard, and of their own impotence, that makes them so furious against her. I know a French woman here in New York who at the outset of the war was greatly distressed and very fearful until the evening of August 5, when she remarked joyously: 'It is all right now—England is in it.'"

### Will Be Peace Before 1916.

"It is bred to the bone of every Frenchman the consciousness that it was Great Britain that destroyed the power of Napoleon Bonaparte, that the very people whom he had christened the 'nation of shopkeepers' brought low the greatest general in history. That may be what the Germans are thinking about now."

"When will the war end? Again, I refuse to prophesy. But if I were to make a guess I would say before another winter comes around. 'Not, however, that I believe that the German military power can be crushed by that time. But even the German people, who developed the greatest fighting machine the world ever saw, are human, and though they have been trained through generations to a complete belief in the destiny of Germany as a militant conquering power, it has never entered the Teutonic mind to consider it as even a possibility that the German Empire might be itself conquered."

### When Socialists Get Going.

"And when the German people learn what is really happening to them there is going to be trouble. We know mighty little of what is going on within Germany, but we do know that the German public has been fed upon tales of an almost unbroken series of victories; that the advance on

Paris was abandoned, not because of necessity, but because the French army was practically crushed, and the Kaiser had turned his attention to invading England instead.

"And when the German people find out what their rulers have brought upon them—well I won't say there will be a revolution. But if there should be—if, I say—there may be an upheaval that will exceed the French revolution in magnitude, for there is a tremendous Socialistic element in Germany, even though it is submerged and almost inaudible at present. And all that has been said in praise of German thoroughness is absolutely true. So if the fierce, radical, revolutionary forces ever gain control, important results may follow."

## She Was In Bed For Seven Weeks.

THEN DODD'S KIDNEY PILLS CURED MADAME BERUBE.

Montreal Lady tells how after Four Years' illness, She Found a Complete Cure for all Her Troubles.

Montreal, Que., Feb. 5. (Special)—Madame J. Baptiste Berube, residing at 1333 Logan Avenue, this city, asserts that after four years' suffering from kidney disease she has been completely restored to health by Dodd's Kidney Pills.  
"I had a pain in my left side around the heart," Madame Berube says in her statement. "I suffered constantly with headaches and backache, and for seven weeks I was in bed with kidney disease and feebleness. The doctor could not help me, so I decided to try Dodd's Kidney Pills.

"After the first box I was some better. I continued to use Dodd's Kidney Pills till now the palpitation has left me, and I am a well woman, able to do my work. Dodd's Kidney Pills cured me and I recommend them to all persons who suffer as I did."

Notice how many women are rising to tell their suffering sisters they can find relief in Dodd's Kidney Pills. The reason is that nine-tenths of women's ill spring from diseased or disordered kidneys. Every woman whose kidneys show signs of weakness should use Dodd's Kidney Pills.

## Do you suffer from Nerve Troubles

Our nerves are like an intricate network of telegraph wires. They are controlled and nourished by a portion of the brain known as the nerve centres. The condition of the nerve centres depends upon the condition of the bodily health. When the bodily health is lowered the nerves suffer in sympathy. Then it is that we are tormented with "nerves," headaches, neuralgia and nervous debility. In such cases there is nothing to equal "Wincarnis," the "Wine of Life." "Wincarnis" is a powerful nerve food which acts directly upon the nerve centres and gives them new life and new vitality. The result is wonderful.

**Begin to get well FREE.**

"Wincarnis" is made in England, and you can obtain a liberal free trial bottle—no more than, but enough to do you good, by sending 6 cents stamps (to pay postage) to COLEMAN & CO.
