

N.I.W.A. Co-Operative Store

OFFICIALLY OPENED.

President P. Bennett and a number of the executive officers of the N.I.W.A. together with Chairman Whitty and the co-operative committee, attended the official opening of the new N.I.W.A. Co-Operative Store on Central Street this morning. Mr. Whitty in a brief speech outlined the aims and objects of the new enterprise, which he hoped would have the wholehearted support of Union men and their families. Chairman Whitty and his able assistants who have accomplished a great deal for the betterment of the working classes. Besides the N.I.W.A. members present there was a large gathering of citizens. The store opening, the honor of making the first purchase was extended to the President.

McMurdo's Store News

SATURDAY, Oct. 12, 1918. Abbey's Salt has a rapidly increasing sale. Many people think it is most pleasant to take, and about the most effective of the numerous remedies of this class. It does good in sour stomach, heart burn, indigestion, stick headache, constipation, rheumatic pains, liver troubles, and some kidney and bladder troubles. Two sizes—30c. and 60c. a bottle. If you have any dying to do, try Sunet Soap Dyes for the purpose. You will find that you can dye with less trouble, in shorter time, with more ease and satisfaction, and good range of colors. Price 10c. per box.

Not Found Yet

The motor driver responsible for Thursday's fatal accident has not yet been apprehended. The police are hard at work and no doubt will effect a capture very shortly. The track of the car supposed to have caused the accident have been traced to certain point, and from this clue results are expected. The sooner the driver is found, the better.

TURKEY ACCEPTS WILSON'S TERMS.

(Bulletin).—Turkey announces that she accepts Wilson's terms and has notified Germany.

WAR REVIEW.

On the wings of necessity the Germans are flying east from their old battle positions from Douai to La Fere and northward from La Fere to the Meuse River. Their flight is towards some haven of safety from the talons of the Allied hawks, which everywhere are menacing them. Meanwhile there have been sent broadcast further reports that Austria-Hungary and Turkey, seeing that the trend of events spells ultimate defeat, have informed Germany that they will accept President Wilson's peace terms. Notwithstanding the advantages that are being achieved over the common enemy on the battlefronts and the peace feelers in the air, President Wilson, Secretary of State Lansing, Secretary of the Treasury, McAdoo and in fact all the high officials of the Government are warning the American citizens that the situation still is critical, and that everyone should rally to the support of the Fourth Liberty Loan. All along the battlefront the Allied troops are advancing. From the south of Douai to the east of Laon the enemy everywhere is giving ground eastward. The famous Chemin-des-Dames, the ridge which the Germans had believed to be an impregnable barrier to an advance northward from Soissons, is being evacuated, while in Champagne and along the Meuse River farther eastward the French and American troops are pushing further forward northward their lines in the great converging movement which is fast driving the enemy from Belgium and the greater portion of invaded France towards his own border. Douai now is completely outflanked by the latest operations of the British, while between Cambrai and St. Quentin the British and Americans are still chasing the enemy. To the south of St. Quentin the French were in a very difficult position, the Oise River, and in conjunction with the retirement of the enemy from the Chemin-des-Dames are forcing the Germans to give up the great St. Gobain forest, the bastion at the bend of the line where it turns eastward, and also the stronghold of Laon, the key-stone of the entire southern German line. While from the war maps it would appear to the casual observer that the Germans in this bend of the elbow are likely to be cut off, it seems more probable that they will be able to use the railways and high roads leading in all directions from Laon like the main branches of a spider's web and effect their escape without great losses in prisoners. Nevertheless the retrograde movement here of necessity must have a strong bearing on the stability of whatever new line the Germans may choose to stand upon, and on their still relatively strong front in Belgium and from Verdun to the Swiss border. The Italians are taking a great part in driving the enemy from the Chemin-des-Dames. East of Rheims the Sulpice River has been crossed by the French at numerous places. West of the Argonne forest, which now is held by the French and Americans, the Germans are in retreat, and a number of additional villages and towns have been taken by the French and American forces. East of the Argonne and along the Meuse valley the Americans are still progressing satisfactorily. The retreat of the enemy along the 35 miles of the western line from Douai to the southeast of St. Quentin, is still too fast, except on isolated sectors, for the foot troops of the British, American and French to keep in contact with him. The cavalry and tanks on the plains and through the wooded sectors, however, are taking a terrible toll from the rearwards, while still further back Allied armies are cutting to pieces the columns of the bewildered foe as they try to make their way to their next defence line. Virtually no infantry opposition is being encountered, the machine guns seemingly are being chiefly depended upon by the Germans to hold back the foe as their main forces retire.

IN HEADLONG FLIGHT.

WITH THE ANGLO-AMERICAN FORCES SOUTH EAST OF CAMBRAI, Oct. 11. (By the A.P.)—The only reference worth mentioning is coming from the enemy machine gunners.

The bulk of the enemy artillery seems to have fled so far east of the battle-ground as to be out of range. The high ground on the eight mile front between St. Hilaire and Le Cateau to the southeast was found to be alive with machine guns when the British approached and the cavalry patrols were held up for some time. North of the Le Cateau-St. Hilaire line the Germans are in headlong flight according to the last reports from air-planes observers. The Douai salient has been made still deeper and the news that the Germans are beginning to evacuate that city may be expected at any time.

AMERICANS STRIKE IN ARGONNE.

WITH THE AMERICAN ARMY NORTH WEST OF VERDUN, Oct. 11. (By the A.P.)—American forces struck the German lines just east of the Argonne forest to-day. They captured the villages of Sommeves, Cheveries and Marcy. The ridge of Dame Marie was stormed after hard fighting. More than one thousand prisoners were taken during the day. These include one Colonel and two battalion staffs. Fighting opened this morning with the infantry sweeping through the northern portion of the Argonne forest for a maximum distance of nearly five miles. Little opposition was encountered from the enemy, who had probably retired during the night to escape from the untenable pocket formed by the American flanking movement on Monday. As the Americans pushed forward they found that the Germans had made a thorough job of blocking and destroying the roads as they retired. At two o'clock this afternoon they were in Marcy and the Lafole farm and Richin farm and advancing on the Negremont woods, the only piece of forest land between them and Grandpre. Half an hour later they had captured Sommeves and had advanced north of that village. By this attack the Americans have taken a firmer grip on the territory just north of the broken Kriemhild line.

SURPRISE ATTACKS.

ROME, Oct. 11. On the Asiago plateau this morning Italian and Franco-British troops carried out seven vigorous surprise attacks, says the Italian official statement to-day, penetrating deeply the enemy trenches at Avenon-Sisemol, to the right of the Frenzela valley at Sasso Rosso and at the Brent valley.

BLOCKING COAST HARBORS.

LONDON, Oct. 11. Latest Allied reconnaissances show that the Germans have nothing of a military nature afoot and nothing in the air along the Flemish coast. The Germans are now engaged in blocking the harbors of Ostend and Zeebrugge.

CANNOT GIVE BACK STOLEN PROVISIONS.

PARIS, Oct. 11. Despatches from German sources

For You and Your Friends

"I beg you to publish my letter." It is only natural that people write us enthusiastic letters about Gin Pills. Wouldn't you do the same, if, after suffering from backache for years, you found relief? Wouldn't you wish your friends and others to know what Gin Pills had done for you, and what they will do for them? Of course, you would, and that is the only reason that prompts people to write us praising this great remedy.

Read what Isidore Thomas says in part:

"My case was very serious, and I was so sick everybody expected my death any day. No suffering could be worse than what I had to endure. Eight boxes of Gin Pills were sufficient to cure me entirely. I beg you to publish my letter and tell all sufferers of Kidney Trouble not to despair, but wait, as Gin Pills will cure them. I have to be very thankful to you, and I recommend Gin Pills to all my friends suffering from kidney trouble."

Take the advice of those who have tried most remedies and found that Gin Pills cure.

Gin Pills are not a cure-all, but a scientific remedy for Kidney or Bladder Troubles. They contain the beneficial ingredient of gin, without the alcohol, and gin has been recognized for years as the most perfect agent for toning up the kidneys and restoring these organs to perform their natural functions.

show the Kreuz Zeitung, of Berlin, the organ of the Prussian Junkers, as expressing bitter disappointment that German diplomacy did not succeed in disrupting the Entente coalition, instead of asking for an armistice. It says we should have offered a separate peace with advantageous conditions to one or two of the Allies. Unfortunately it is too late now to take up again this idea, which should have remained the chief governing idea of any Government truly German. The Baden Press, the semi-official organ of Prince Maximilian, of Baden, the Imperial Chancellor, says, if Germany is ready for sacrifices it must be understood that she is not ready to give back Alsace-Lorraine or a single metre of German commercial territory in the Orient. Neither question can be submitted to any discussion whatever.

HUNGARIAN PREMIER RESIGNS.

BUDAPEST, Oct. 11. (Via Basel).—Dr. Alexander Wekerle, the Hungarian Premier, announced his resignation, after an audience with King Charles.

ADVANCE NORTH OF THE SCARPE.

LONDON, Oct. 11. North of the Scarpe river in the direction of Douai the British have passed the Drocourt-Queant line and reached the Lens-Douai railway in the vicinity of Beaumont, and at Quierzy-La-Motte further north they have arrived at Henin-Lietard on the Douai-Carvin road.

ABANDON GOLD MINES.

TOKIO, Friday, Oct. 4. Bolshevik forces abandoned the gold mining district west of Moreskoff, in the trans-Baikalia region, when Allied troops entered it, according to a statement issued at War Office to-day. Bolshevik left the vicinity of the Irook-Ai gold mine when the Allied forces entered the village there. When the Allied forces entered the town of Bankul on Sept. 23, the people hung out flags and gave the Allied troops a cordial reception. The Allies captured nine steamers at Sankul and took possession of 381 passenger cars. The war material captured included 1,300 hand grenades, 29 machine guns and four mortars.

NERVOUS COLLAPSE IN GERMANY.

WASHINGTON, Oct. 11. A despatch to-day says: General Von Ardenne writes in the Berlin Tageblatt that General Foch had obtained successes so important and so plainly evident that the Central Powers have now lost nearly all the benefit of previous offensives, and many people wonder what is the mysterious power continuously pulling back the German armies, though they were meant to go onward. The Strassburg Post is quoted as saying: The military situation in the West causes the most fantastic rumors to newly spread. Again people begin to fear the collapse of our front and the enemy's rush into Germany. All those who have not lost their heads, and who still preserve the mastery of their nerves ought to feel it their duty to go against such rumors.

SUBS. AGAIN IN THE ATLANTIC.

AN ATLANTIC PORT, Oct. 11. Officers of a Brazilian steamship arriving to-day told of an encounter with a German submarine yesterday 70 miles off the North Atlantic coast. The steamer fired on the submarine, and members of the gun crew believed it was sunk, although no wreckage was seen. The submarine was sighted as it was rising to the surface and the steamer immediately opened fire. A shot from the stern gun missed the target, but the steamer swung around and made a fair hit with the bow gun, according to the officers. The matter was reported to Navy officials.

SOCIALISTS APPROVE OF WILSON'S REPLY.

PARIS, Oct. 11. Delegates attending the session of the Socialist Congress to-day voted in favor of the resolution presented by Pierre Renaude, leader of the majority radicals in the Chamber of Deputies, which approved of the reply sent by President Wilson of the peace proposal of the Central Powers. The resolution voted is as follows: "The Socialist Party, confirming its address to President Wilson, gives its approval to the answer just made in the name of the President by Secretary of State Lansing, to the German Chancellor's note. The Socialist party

judge encores 1918 with this expectation of positive public diplomacy, it observes that the door is thus opened to the belligerents for a just peace. It approves the diplomatic and military guarantees required by President Wilson for an armistice. Delegate Kientgale alone voted against the resolution. He proposed instead of it an armistice pure and simple, without conditions.

RETREATING FROM DOUAI TO GRAND PRE.

LONDON, Oct. 11. The enemy evidently is retreating from Douai. The British have captured St. Hilaire and thus are within seven miles of the main lateral line of communications, namely the Valenciennes-Lille railway. The enemy is retreating on the whole front from the Soissons-Laon road to Grand Pre north of the Argonne forest, and also from the north bank of the Sulpice river in Champagne. General Gouraud's army in Champagne advanced four miles this morning and captured Machault. The enemy is falling back towards Vouziers.

GERMAN MURDERS.

DUBLIN, Oct. 11. Of the 150 women and children aboard the str. Lienster when she was torpedoed by a German submarine, only fifteen have been accounted for. Several of these have died since they were brought to port.

CONSTANTINOPLE UNDER MARTIAL LAW.

PARIS, Oct. 11. A rumor was circulated on the Paris bourse this afternoon that Constantinople had been declared under

martial law. Ottoman values jumped three and four points. Turkish securities were in great demand and there was much trading in them.

IMPORTANT TOWNS CAPTURED.

PARIS, Oct. 11. British armies under command of Generals Rawlinson, Byng and Horne, continued their advance this morning under favorable conditions. British troops captured St. Hilaire, Les Calvaires, Avesnes and St. Aubert. Many prisoners were taken and much material was captured. General Deney's army has pushed across the river Oise at several points in the

region east of St. Quentin and his troops are now menacing the town of Guise. North of Rheims the French fifth army is holding both banks of the Sulpice and has captured Bertincourt. Italian forces played a brilliant part in the magnificent attack of the fifth army which also resulted in the capture of Courtenon and Troyon south of Laon.

NO ENEMY OPPOSITION. WITH THE ANGLO-AMERICAN FORCES SOUTH EAST OF CAMBRAI, Oct. 11. (By the A.P.)—The great battle now being fought in this region is on a front of nearly thirty miles to-day it having been extended to the north. The British are gaining everywhere. There is virtually no enemy infantry opposition.

APPROVED WILSON NOTE.

PARIS, Oct. 10. President Wilson's reply to the German peace note was approved to-day by a vote of the Committee on Foreign Affairs of the Chamber of Deputies. The resolution also expressed reliance in the Government not to accept on behalf of France any armistice which would not provide for atonements for the guarantees "to which the victorious armies of the Entente are entitled."

NEW LEAVEN WORKING.

COPENHAGEN, Oct. 11. The working of the new Leaven in Germany is illustrated by a decree of the Crown Council of Saxony summoning the Landtag to convene on October 28. The decree directs the Minister of the Interior to draft a measure "which shall substitute for the franchise now obtaining for the Lan-

tags second chamber, a franchise based on a broader foundation." Saxony has to-day a franchise system of four complete classifications.

Thick, Glossy Hair all Dandruff Gone.

Girls! Try It! Hair gets soft, fluff, luxuriant at once—No more falling hair.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scrub robs the hair of its lustre, its strength and its very life, and it not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If you hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?
