

An enterprising Frenchman has moved to the vicinity of Ottawa and established what he calls a poultry farm. This is done by buying up a large quantity of hens and other poultry, and by making arrangements for laying and hatching eggs, and fattening fowls for the Ottawa markets. In consequence of the great demand for eggs and poultry in and about Ottawa, the Frenchman expects to make his speculation pay well.

DR. HOWE OF THE USE OF FELLOW'S HYPHOSPHITES.—Pittsfield, Me., March, 1872. Mr. Jas. I. Fellow—Dear Sir: During the past two years I have given your Compound Syrup of Hypophosphites a fair trial, and am able to speak with confidence of its value in restoring the debility following diphtheria, it has done wonders. I constantly recommend its use in all affections of the throat and lungs. In several cases considered hopeless it has given relief, and the patients have fast recovered. Among these are consumptive and old bronchial subjects, whose diseases have resisted the other modes of treatment. For impaired indigestion, and in fact for debility from any cause, I know of nothing equal to it. Its direct effect in strengthening the nervous system renders it suitable for the majority of diseases. W. S. Howe, M.D.

BREAST-FEEDER'S COCOA.—GUELPH and COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a deliciously flavored beverage which will save us many heavy doctors' bills. —*Civil Service Gazette*. Made simply with boiling water or milk. Each packet is labeled "James Epps & Co., Homoeopathic Chemists, London." Also, makers of Epps' Milk Cocoa (Cocoa and Condensed Milk).

Married ladies, under all circumstances, will find *Parson's Purgative Pills* safe; and, in small doses, a mild cathartic. They cause no griping pains or cramp.

A crowd of "Horse Men" and others, daily through the stores in country and town for *Sheridan's Cavalry Condition Powders*. They understand that horses cannot be kept in good condition without them, and with them can be fed on a much less quantity of grain.
