

Headaches, Dizzy

Spells and faintness have been my afflictions for 22 years. Often I would fall in a sudden faint and several times narrowly escaped being burnt on the stove. No medicine gave me more than a few days relief, and I laughed when a friend urged me to try Hood's Sarsaparilla. But I took it and in six months I was free from all headache trouble, faintness or dizziness. I am now perfectly well. I cannot say too much in praise of Hood's Sarsaparilla. It is worth its weight in gold to me. MRS. R. H. HANES, Paris, Ont.

IN LABOR CIRCLES.

Status of the Trolley Strike in Brooklyn.

BROOKLYN, Jan. 29.—While the strikers are pulling the strings to give trouble to the companies and force them to surrender, there are other complications. The board of aldermen is seeking for some means of demolishing the companies, the labor organizations have decided not to ride in their cars, the grand jury is looking into the loss of life and limb due to violation of law regarding spectators, the board of education has gone to Albany to report upon the cause of the strike, and a new committee from the Legislature is on the way to investigate the whole matter. All in all the lot of the trolley magistrate is not a happy one.

Only once today were the troops called out. At about 3 p.m. a gang of men placed a wagon on the track of the Fifth avenue line at Twenty-first street, and mobbed the crew of the first car which arrived. The soldiers rushed to the rescue at double quick, and the mob scattered.

There were many accidents today, due to the inexperience of the motormen. In the police courts today 22 men were arraigned, charged with stone throwing, wire cutting, track obstructing, or otherwise interfering with the trolley roads. They were all held for trial.

BLACK EYE FOR DEBS.
CHICAGO, Jan. 29.—The defense in the Debs conspiracy trial received a heavy blow today in the adverse ruling of Judge Grosscup. Counsel for the defendants, objected to the admission of evidence as to the overt acts unless it could be shown that they were done by the knowledge and under the direction of the officers and members of the American Railway Union, charged with having hatched the conspiracy to obstruct the mails.

Judge Grosscup held that evidence could be introduced tending to show that the conspiracy existed to stop all trains, and that this would include the use of natural, reasonable and inevitable results. The import of the decision was recognized instantly.

DEANERY OF MIDDLESEX

Meeting of Ruri-Decanal Chapter and Sunday School Association.

The ruri-decanal chapter of Middlesex met in the school house of St. John's Church, city, yesterday afternoon at 2:30 o'clock. Rev. Canon Smith, rural dean, occupied the chair, and among those present were: Archdeacon Marsh and Davis, Revs. Canon Richardson, S. G. Edelstein, C. B. Sage, W. T. Hill, H. Johnson, W. Lowe, A. H. Rhodes, J. Berry, W. L. Armistage, C. B. Guillemont, J. H. Moore, A. G. Smith, L. W. Diehl, Messrs. Wright, Crawford, Collins, Smith, Sutton, Appleyard and others.

The meeting was opened with prayer by the rector, Rev. W. T. Hill, after which the secretary, Rev. G. B. Sage, read the minutes of the last meeting, which were confirmed.

The first part of the session was occupied with statistics, in accordance with the rules, several parishes preferring to adhere to the old plan of making collections, while others declared in favor of adopting the new plan laid down by the synod at last session.

The question of church extension occupied the attention of the members for some time, and several were appointed as committees in their several localities to make inquiries as to the feasibility of establish-

ing services at various points. It was stated that the students of St. John's College had kindly volunteered their rooms to the bishop for the purpose of being services when and where desired.

Questions regarding the assent of several parishes were also discussed and recommendations made.

Rev. S. G. Edelstein spoke regarding the lack of information in relation to work carried on by the church, and urged that the proper committees be recommended to supply such information especially for those whose duty it was to add missionary meetings.

Rev. J. H. Moorehouse then read an admirable paper on the subject of Personal consecration, "which he hand very ably and which was listened to with much interest and profit by all present."

The paper was followed by earnest discussion in which Archdeacon Marsh, Canon Richardson, Revs. Sage, Johnson and Hill took a leading part.

On motion it was resolved that J. Berry, B.D., be requested to read paper at the next meeting. The time at place for holding which was left in the hands of the rural dean.

The afternoon session was brought to a close with the benediction by Venerable Archdeacon Marsh.

EVENING SESSION.

The Sunday School Association convened in the evening at the same place. The president, Rev. Canon Smith presided, assisted by the vice-presidents, Mr. C. H. Armistage, and in addition the clergy present in the afternoon were: Dean Innes, Canon Chase, Rev. Profs. Rogers and Sherwood and a large number of teachers, who completely filled the building.

The rector conducted the singing exercises, the organist of the choir and several members of the choir led the singing. The secretaries, Rev. G. Sage and Mr. J. Nicholson, took charge of the minutes, which were read and confirmed.

The rural dean briefly reported on the state of the schools. The association now numbers 500 members with over 600 scholars under their charge. Regular quarterly meetings had been held during the year and were well attended and much interest excited.

Mr. J. W. G. Andrus, head master of Huron College Boys' School, then read an excellent paper on "The qualifications for Sunday school teaching," which was warmly commended by the audience. Mr. W. J. Imbach led the discussion which followed in a very happy speech.

The next paper was read by Rev. Prof. Burgess of Huron College, on "The Sunday school and the relation thereof to the church." The professor hid his subject in a masterly way, and met with the hearty appreciation of the audience.

Very Rev. Dean Innes opened his discussion in an admirable address, calculated to stimulate the zeal of teachers. The dean was followed by Revs. Armistage, Rhodes and Sherwood, in appropriate remarks.

The question drawer was then asked, and proved very interesting. Mr. C. H. Armistage, vice-president, having large. A large number of questions were answered to the satisfaction of the audience.

The election of officers resulted in the re-election of all the old officers for another year. The committee of management, consisting of four representatives from each city school, was also named.

A cordial vote of thanks was tendered those who prepared and read papers, and the meeting closed with the doxology by the audience and the benediction by the dean.

Appeal Allowed!

Important Decision by the British Privy Council.

Contention of the Manitoba Roman Catholics Sustained.

The Governor-in-Council Has Power to Grant the Remedial Legislation Demanded.

ANOTHER ACCOUNT.
LONDON, Jan. 29.—In the Manitoba school case, dealt with by the Privy Council, Mr. Edward Blake, M.P., leader of the Canadian Liberal party from 1880 to 1891, and formerly Premier of Ontario, and Mr. J. J. Ewart, of the Manitoba bar, were counsel for the appellants; Mr. Cozens Hardie, Q.C., and Mr. Brady appeared for the respondent. The decision of the Privy Council, when announced this morning, created the greatest interest among Canadians in London, who, knowing the importance of the case, had been eagerly watching for the result. The Lord Chancellor's delivery of the exhaustive judgment of the Manitoba school appeal lasted nearly an hour. He said their Lordships were of opinion that the enactment which governs the present case in the second sub-section of the section 22 of the Manitoba Act, reading as follows: "2. An appeal shall be to the Governor-General in Council from any act or decision of the Legislature of the province or of any provincial authority affecting any right or privilege of the Roman Catholic minority of the Province of Manitoba in relation to education." Therefore their Lordships held that the Roman Catholics' appeal to the Governor-General in Council was admissible by virtue of that enactment, inasmuch as the school acts of 1890, abolishing separate schools, affected the rights and the privileges of the Roman Catholic minority within the meaning of the section.

Their Lordships decided further that the Governor-General in Council had power to make the declarations or remedial orders asked for in the petitions, and that also the case was well founded. It was not for the Privy Council to intimate the course that may now be pursued, but their Lordships declared that certainly it was not essential that the statutes repealed by the act of 1890 must be re-enacted. All legitimate ground of complaint would be removed if the education system were supplemented by provisions removing the grievance upon which the appeal was founded, or in other words, granting funds for the support of the separate schools in the Province. Leading up to the judgment, their Lordships reviewed, at great length, the circumstances under which the act was passed, and also its exact scope. It was noted that the decision of the council in the case of Barret vs. The City of Winnipeg seemed to have given rise to some misapprehension. In 1867, it was pointed out, the union of the Province of Canada, Nova Scotia and New Brunswick took place. Among the obstacles which had to be overcome in order to bring about that union, none, perhaps, presented a greater difficulty than the differences of opinion which existed with regard to the question of education. The existing state of affairs in Canada at Confederation in the matter of school laws was then explained and the Manitoba school question situation fully discussed. The historical records were unearthed and the case most exhaustively dealt with, after which the judgment above given was delivered.

DALTON MCARTHUR'S VIEWS.
TORONTO, Jan. 29.—Mr. Dalton McCarthy expressed himself as follows today in regard to the decision of the Privy Council re Manitoba schools: "I can't speak definitely on the decision, for I have not seen the judgment. As to the effect on the political situation, however, I will speak. The result is that it brings the question into the realm of practical politics. In 1893 the Government ended its responsibility for a time by shirking the question by asking the courts to decide for or against the Government. Had the power to entertain the complaints of the minority. It is decided now that the Government has the power, and it is now a question of discretion. I always held to the belief that the Government should have answered the question fairly and have decided that under no circumstances should the Dominion Government interfere with educational matters. The Government could not do this, however, for in 1891—it was just prior to the Dominion election—it had promised the Catholic hierarchy that if redress could be given to the grievances constitutionally that it would be given. Mr. Laurier is in the same position."

"The action of the Manitoba Government did away with separate schools, and created not Protestant but non-sectarian schools. Mr. Laurier says that he doesn't know what the law means, but if he finds that the minority has grievances he will redress them when he comes to power. He must decide now."

"Why should the Manitoba school question be treated differently from other school questions by the Dominion Government? The people, I think, believe that they should not, and when at the approaching election they have an opportunity of expressing themselves they will do it, and with no uncertain voice."

SPERM WHALES.
"I cannot say what action will be taken by the Manitoba Catholics," said Archbishop Walsh this morning. "I cannot say at all what will be the real result of this decision. I may say, however, that I was much surprised at the decision by the Supreme Court of Canada, for it seemed directly in opposition to the wording of the B. N. A. Act. I am not surprised, but expected this decision."

Drowning Accident at Merriton.
MERRITON, Ont., Jan. 29.—About 10 o'clock last night several men were engaged in removing ice from the water dam of the Merriton cotton mills on the Welland Canal, when Kenneth Beattie, the millwright, who was using a large iron bar, slipped and fell over the water fall of the waste weir into the icy waters beneath, which quickly swept him away. Beattie was a clever young mechanic, and leaves a wife.

House Turned a Double Somersault.
BROCKENRIDGE, Mo., Jan. 29.—During the heavy rain and hail storm which prevailed here at midnight Sunday night, a two-story farm house three miles east of town was blown about 90 feet from its foundation. The building, having made two complete revolutions, landed on its side intact. The family, consisting of Mont Mattux, his wife and three children, was in bed at the time of the accident, and all escaped injury except Mr. Mattux, whose arm was dislocated.

Do not anticipate trouble, or worry about what may never happen. Keep in the sunlight was Franklin's sensible advice.
