I say to them, Did you adopt this argument a year ago last June, believe in it, act upon it, or did you say that it was a false argument and the consent of the consent of the board to the Colgument? If you accepted it then you are entitled to use it now against us; but if you did not, if you scorned and tabooed it and said it was worthless, then it does not lie in your mouth now to use it. It may be time for a change if there is reason for it beside the mere corn of the board to the Collegiate Institute holding their annual field day of games and sports on Friday afternoon, Oct. 8. The consent was given.

The own itself reading along the policy was a calf. A calf with a cough. (Laughter.) You all remember that cough. (Renewed laughter.) What is their policy today? The Health That Nature Gave You.

Few human beings are in a state of natural, perfect health. The work, the worry, the grasping after wealth, the over-indulgence of desires, keep us in a state of weary lassitude or physical pain. Some regulator must be taken-Something to counterbalance the unintentional ill we do ourselves-Something to instil new life and energy-Something to keep the vital spark ablaze and help nature's gift of health. Not exactly a physic, but a tonic, a bracer, an exhilarator. Such a medicine is

Abbey's Effervescent Salt.

It purifies and cools the blood, aids the digestion, eases the nerves. soothes pain, and brings the fresh roses of health to the cheeks. Taken every morning before breakfast it keeps you in good health and spirits and at night brings refreshing, restful sleep. ABBEY'S EFFERVESCENT SALT is nature's own remedy for many of the common ills that humanity is heir to. It spreads the sunshine of health and happiness through the dark allevways of disease.
