## THE PAVEMENT TO BE REPAIRED

Street Car Company Must Not Wait Longer.

Board of Works Presses the Point and Orders the Work Done.

The city engineer was instructed last night by the board of works to write the street railway company, giving them 24 hours in which to begin repairing their track allowances, otherwise to have the work done and charge it to the company. This course was approved by the city solicitor and was followed because Manager Carr had made known his desire to use vitrified brick for the repairs, but that this would be unnecessary for two years. Two other questions relating to the company—that of the cars' noise and the use of trailers, were referred to the solicitor. The matter of noise was brought up by Rev. Mr. Allen, of the Hamilton road, who wrote complaining of the nerve-racking din the cars made.

On motion of Ald. Campbell, the committee recommended that the city council appoint three park overseers, who, with the mayor, city engineer and chairman of No. 2 committee, shall constitute a special commission, to whom shall be given the care and control of parks, boulevards and gardens belonging to the city, and that bylaw 761 and 764 be amended in accordance herewith, provided that said commission shall have no power to expend any money except such as may be appropriated by the council for the purposes of the commission.

A tar macadam pavement on Talbot street, between Fullarton and Oxford streets, will be advertised under the initiative, and also a cement walk on the Hamilton road, between Inkerman street and Draneay avenue. Sufficiently signed petitions for a cement curb on the east side of Ridout street, between Maple and Kent streets, and cement walks on the north side of George street, and on the east side of Ridout street, between Carrair street and Grand avenue, will take the usual course.

## BARN STRUCK BY LIGHTNING

Disastrous Effect of the Storm in East Nissouri.

Entire Season's Crop of Mr. Pettit, Lot 5, Con. 10, Believed to Have Been Burned.

The rainstorm which visited London shortly before 12 o'clock last night appeared in a more severe form in outlying portions of the country. In Nissouri it was very disastrous, and it is expected that late reports will reveal much damage from lightning.

The barn on lot 5, con. 10, East Nissouri, two miles north of Tharford, owned by John Horseman and occupied by Mr. Pettit, were struck by lightning about midnight and completely destroyed. It is believed that the entire season's crop, together with implements, was in the barn, the ruins of which were still burning this morning.
