

AUTOS RACE AT WESTERN FAIR

Attract Large Crowds to Celebrate Closing of Exhibition.

Enlarged Program Will Be Offered Both Afternoon and Night.

With auto races before the grandstand as a special attraction in the afternoon, Saturday is expected to attract many thousands of visitors to the Western Fair to celebrate the closing day of the exhibition.

Early in the morning a fair crowd on the grounds, when many people arrived from outside points. The midway was partly opened for business even before 10 o'clock.

Owing to a rearrangement of the program an augmented bill of attractions will be offered before the grandstand in the afternoon and an enlarged program will be staged at night.

While the directors were very much opposed to any part of the exhibition leaving the grounds before 10 o'clock at night, they felt that it would be an injustice to keep the cars there when through the non-appearance in a large number of cases it would lose a three-weeks exhibition. They felt, too, that both the afternoon and evening performance would be graced by better programs as the result of the generous offer made by the company.

All exhibits except, of course, the live stock, poultry and dogs, which were moved on Friday night, will be open all day. The horticultural and agricultural halls will be closed at 8:30 o'clock.

It is estimated that between 30,000 and 40,000 people attended the Fair on Friday.

TENDERS ASKED, MAIN BUILDING

Good Progress Being Made on Bridge and Science Structure at Western.

Tenders have been called for on the main building and boiler plant and tunnels of the new university buildings, according to information received from Col. W. M. Brown, executive secretary of Western University.

Construction of the university buildings is now well under way. The time when the contract was let some time ago to John W. Petherborough is on a steady way to completion and Mr. Petherborough has also a large gang of men at work on the science building.

The boiler plant will be built by units and will provide heat for the entire university.

The main building it is expected will involve the spending of nearly half a million dollars. Construction firms of Toronto and other centers are expected to submit tenders and efforts are to be made to have work started by the middle of October.

Summon Dentists Before Discipline Committee For Alleged Advertising

TORONTO, Sept. 15.—Charged with the offence of having advertised in the daily press their skill and their wares, two Toronto dentists, Dr. Wallace A. MacLaren and Dr. E. C. Boyle, were haled before the discipline committee of the Royal College of Dental Surgeons today.

It was at first announced that the hearing would be private, but the two dentists being investigated in their own defence to practice may be cancelled that the press be admitted and the committee acquiesced.

After two hours of evidence, taking in the daily press the upshot was that no decision was given, the discipline committee, which is composed of Doctors McLean, Cowan and Davidson, being expected to report its findings later on to the board of Royal College of Dental Surgeons. If the men are "found guilty" their licenses to practice may be cancelled.

BOARDS PROMISE WESTERN SUPPORT

Will Seek Funds to Secure Dormitories for Western Ontario Pupils.

The United Boards of Trade of Western Ontario, which met in Windsor Thursday, are lending every support to Western University in the matter of securing dormitories, according to Lieut.-Col. W. J. Brown, executive secretary of Western, who was present at the conference.

They have undertaken to present the claims of Western University to the various county councils in Western Ontario with a view to securing their co-operation in developing the university building program, particularly with regard to dormitories.

"The board of trade took up the matter of helping the university with the building of dormitories on its own initiative," Col. Brown stated. "Their plan is to ask each county to aid in the financing of building dormitories, which should then be named after them. If they meet with success, it is quite possible that we shall have some dormitory accommodation for our 1923 classes."

"The matter of providing living accommodation for university students is one which has vexed university authorities for some time. Dormitories are considered to be an absolute necessity, since it has been practically impossible for all the students to secure a lodging within a reasonable distance of the university, and for the most part, the students' boarding during the term have met with an entire absence of home life and comfort.

SCORES DRAKE FOR CHANGING OPINION

Ald. May Asks Why Colleague Now Sponsors Municipal Piggery.

Declaring that Ald. Gordon B. Drake is showing a marked reversal in opinion in sponsoring a municipal piggery to dispose of garbage, Ald. J. T. May states that the former gentleman opposed such a measure in council last April and asks his colleague for an explanation.

Alderman Drake is credited with advancing the plan to launch into the pig raising business as the disposal of city garbage, thereby saving the city money in disposal, and getting a revenue in the sale of matured porkers.

ROTARIANS TO LEND SUPPORT

Brantford Club Indorses Civic Center Development Plan of Dunnington Grubb.

Pass Resolution Urging Adoption of Scheme As Soldiers' Memorial.

Special to London Advertiser.

BRANTFORD, Sept. 15.—The Brantford Rotary Club, at its regular meeting, passed a unanimous resolution supporting the town planning commission in its proposal for a civic centre development plan for the west and Bridge street areas, as conceived by Dunnington Grubb.

At the previous meeting Frank Cockshutt and A. K. Bunnell explained the entire scheme in detail, and after much general discussion it was decided to leave the matter to the directors to bring in a recommendation.

The directors met this week and canvassed the situation from every possible angle, and decided to urge the members of the Rotary Club to pass a resolution indorsing the scheme, and pledging their support to the town planning commission in bringing the subject before the public, and securing the support of all public bodies.

The resolution as adopted by the Rotary Club was as follows: "That members of the Rotary Club, having heard the explanations of the Dunnington Grubb plan of development of the West Bridge street section, hereby pass on record their approval of the same, with the recommendation that all the city boards concerned should unite in promoting, by well-considered and wise methods, the eventual accomplishment of the scheme."

In the judgment of the Brantford Rotary Club, the proposal includes the desirable purpose of providing a beautiful and dignified civic and park centre for the future city, and a noble setting for the memorial of our fellow-citizens of the county of Brant who fell in the great war, 1914-1918, and should receive the support of the people.

SITUATION IN EAST DEPRESSES MART

Industrials Suffer Vigorous Slump On London Stock Exchange.

London, Sept. 15.—(Canadian Press Cable).—Political uncertainties, especially in the Near East, have exercised a depressing effect on the stock exchange here all through the week, no section manifesting any particular cheerfulness.

Both home and foreign stocks and foreign bonds have shown a drooping tendency, although the prices yesterday were above the worst of the earlier part of the week.

A downward movement among the industrial shares is noticeable this week and the home rail situation seemingly has all the vigor of a few weeks ago.

The August statement of the ten London clearing banks reveals the interesting fact that the bank deposits declined during the month nearly £45,000,000. This downward tendency, which has been in evidence, has been attributed, very naturally, to the fact that there is no inducement to leave money on deposit at only one per cent interest.

Many people of moderate resources have been badly "stung" in gambling in depreciated continental currencies, but there are still "sharps" who imagine, doubtless with reason, that some people never profit by the experience of others. Self-styled bankers are sending circulars broadcast inviting the recipients of the circulars to speculate in these low currencies, although everybody in the London financial world who has a grain of reputation to uphold will say at once that confident predictions of an improvement in such depreciated currencies are merely guesswork.
