

## TEMPERANCE TOILERS.

Middlesex Women who are laboring for the Uplifting of Fallen Mankind.

Busy women are the members of the county W. C. T. U. Yesterday morning they held the opening session of their first annual convention in this city, and all the afternoon they were hard at work. This morning they will continue their labors, which they hope to complete before the sun goes down. The number of delegates present yesterday was over eighty; most of them reside in Middlesex, a few coming from outside places. These ladies represented six unions having a membership of 432. The unions have their headquarters at Gloucester, Stratford, Napier and Osman, with two situated here, one of which is known as the "Y's," composed of younger but not less enthusiastic workers. An idea of the large amount of work accomplished in the county by these associations is furnished by one statement of the report on literature, which says that 63,825 pages of reading matter were distributed during the past six months. Other departments of labor taken up with the one common object in view, are scientific, evangelical temperance, women's franchise, hygienic instruction, and some more. Reports on all these were read, and contained some interesting facts. Of course the London Union has a much larger membership than its five sisters, having 280 of the total membership. Still all the other unions sent in encouraging statements, even the organization in the little village of Osman, where the members number only thirteen, yet every one of whom are active, and doing a large amount of good. Resolutions, many in number and pointed in phrase, were read and adopted. Some demanded the granting by Parliament of the right to vote by womanhood; others prayed that steps might be taken by the proper authorities to prevent the sale of cigarettes to minors, and so on.

Officers for another year were elected. The President, Mrs. (Rev.) McOutcheon, of Petrolia, being again placed in the chair. The chair of officers elected were Miss Edith Slaght, London, the efficient Recording Secretary; Mrs. Dunlop, of Napier, Corresponding Secretary, and Mrs. Darch, city, Treasurer. Mrs. (Rev.) George Brown will fill the Vice-President's chair.

A particularly pleasing event of the afternoon, that in a measure relieved the monotonous routine of the convention's proceedings, was the presentation of the prize banner given by the Provincial Union to the County Union having the largest number of members. Mrs. Gregson, of this city, made the presentation to the Middlesex Union as a representative of the Provincial body, and the beautiful and artistically worked banner was received amidst applause. It will be a valued decoration of the new rooms of the Union, which, by the way, deserve special attention. They were formally opened last evening, when a representative gathering of ladies and gentlemen of the city, and also the delegates, were present.

"An evening with the Y's." They found the new rooms to be large, airy and generally inviting. A platform was erected at one end, and chairs, which were not long in securing occupants, filled the room. The first part of the programme, not including the opening exercises, was an address of welcome read by Mrs. Evans. With this exception, the proceedings were all under the auspices of the Y. W. C. T. U., and the audience were afforded an insight into the workings of this young ladies' organization, while being entertained. Perhaps the most pleasing event was the performance by the little girls of the "Kitchen Garden," who are instructed in the "art" of keeping house by methods similar to those used in the public kindergarten schools. The girls range from ten to fifteen years, and they used wash tubs and brooms and other household necessities to cleanliness in a way that proved them adepts already.

Miss Douglas, of St. Catharines, the Provincial superintendent, read a paper on "Model Y's." Miss Kirkpatrick, secretary of the "Y's," told in a pleasing way of the efforts and successes of the local association; Miss G. Smith gave her ideas on kitchen garden work; Miss Tilley, of Toronto, spoke of the proceedings, just closed, of the Y. W. C. T. U. convention at Boston, from which she had arrived yesterday; and Miss Jessie Bremner sang a solo.

Mr. Allen, President of the "Y's," presided during the evening, and gave a pressing invitation to all young ladies to meet at the "Y" Rooms in Nitschke Block, to-day, and enlist in the work.

The delegates are all being well cared for. Comfortable beds have been provided, and they were "lunched" at the new dining hall at noon, and also in the evening.

J. P., fined the young lady \$1 and costs. Mr. Justice Falconbridge refused to grant a writ of certiorari to quash this conviction, and this afternoon Mr. Du Verney appeared from Justice Falconbridge's ruling.

After a short argument, the appeal was allowed. Justice Falconbridge's judgment was nullified, and the rule nisi with a view towards quashing the conviction was granted.

Fraser Morden has since been suspended from the school.

## THE UNITED STATES.

Small pox has made its appearance at Newark, N. J. Six cases have been discovered.

At Carver, Minn., last night, Charles Falsness shot Andrew Stohle fatally and then suicided. Jealousy was the cause.

W. J. Brotherton, the man who attempted to trundle a wheelbarrow from San Francisco to Chicago on a wagon, died at La Junta, Col., yesterday, of mountain fever.

John Whelan and Jas. Walsh were found dead in an upper room of the Manitoba House, St. Paul, Minn., yesterday. It looks like a double murder, and two men who are believed to have been implicated are in custody.

The residence of Marcus Michaels, of the firm of Michaels, Stern & Co., Rochester, N. Y., was entered by burglars last evening, while the family were at dinner, and over \$200 in money, diamonds and other valuable jewelry were taken.

In Faneuil Hall, Boston, Mass., Mr. Alfred Larkin was given a public reception by merchants of Boston. Mr. Larkin was given a very cordial reception and made an address favoring closer trade relations between the United States and Canada.

The office of Banker Leon Lait, New York, who has been swindling the ignorant Hebrews and Poles of that city during the year, was besieged last night by an angry mob of his victims, who threatened him with bodily harm if their money was not returned in case of non-acceptance of tender.

Before the Olympic Club, New Orleans, last night James F. Larkin, of Jersey City, and John P. Griffin, of Braintree, Mass., contended for the featherweight championship and a purse of \$2,500. Griffin won under the 122 pounds and Larkin an ounce or two more. Fighting commenced at 9.15, and was hot from the start. Griffin assumed the aggressive, punching for the neck with all his might, while Larkin led for the head, frequently missing. Griffin seemed strong and eager, while Larkin, though pale, was on the defensive. Griffin assumed the aggressive in the second round, and Larkin assumed the defensive on the call of the ring. By counter manœuvres he evaded the loss of the battle in this round by going on the defensive and running away.

Griffin would not be denied, and landed his left but with a single return. It was plain that Larkin was a beaten man. The terrific body punching of the Braintree boy had done its work. The fourth round commenced by heavy fighting, and Larkin, being too weak to stop his strong swings on the stomach. He was knocked down twice in this round, and the last time failed to regain his feet in the allotted ten seconds.

Hypsochlorite of soda is recommended for cleansing tarnished silverware. It is applied simply with a cloth or brush dipped into a saturated solution of the salt, no powder of any kind being necessary. In two or three rubs all tarnishes are removed.

The Montreal grand jury in its presentment has taken strong ground against the abolition of the grand jury as a part of the administration of criminal law. Recent events have given unexpected force to one point brought in favor of its retention, that it may in the future, as in the past, be called on to stand between the Crown, or the representatives of the Crown, in times of political excitement, to defend the accused against tyrannical prosecution. Other reasons are also stated for the retention of an institution which Englishmen have held to for centuries and established wherever on the earth's surface they have planted themselves. Still stronger reasons might also be adduced if the grand jury used its latent powers. The grand jury in New York has broken up and destroyed the organization after organization formed in the city government to rob the people, and the grand jury of New York comes by direct succession from the same parent stock as that of Canada. It will likely be a very long day before the institution is abolished.
