

By Electric Telegraph,
SPECIAL TO THE DAILY BRITISH COLONIST.

Europe.

Paris, Jan 9.—The resignation of Peters, Prefect of Police, is not yet officially announced, but he will soon resign.

MADRID, Jan 9.—The ministerial crisis has terminated. Senor Rivero, President of the Cortes, has accepted the ministry of the interior, Admiral Lopez of the Marine, and Senor Segura of the Department of State.

London, Jan 9.—A trades' union riot occurred at Thorncliffe, near Sheffield, yesterday. Much excitement prevails at Sheffield.

Rome, Jan 8.—At a session of the Council to-day notice was given of the nomination of Cardinal Serravi as president of the committee on religious orders. The committee on dogeses commenced its sittings by several expositions to the Roman Father. Several signed their names to a petition to the Pope praying his holiness to present to the Council an opportunity for deciding the dogma of infallibility. It is evidently their design to force the Holy Father into this proscript policy. They are doubtful about obtaining a sufficient number of adherents unless we publicly commit him. It is in favor of the dogma. They report that the Pope will allow no discussion on the points of infallibility by the Council unless he is sure of the result. It is inferred he receives such petitions as the above simply as expressions of homage to the Holy See.

PORTLAND, Maine, Jan 9.—It will be seen arranged about 45 hours will elapse before the arrival of the Peabody fleet and the funeral ceremonies during which the body

will lie in state in the City Hall—which will be draped in mourning. The ceremonies on the day of departure will be grand and impressive. Governor Chamberlain and staff

will be present and Thornton, the British Minister, is expected.

The colored persons were refused admittance into the dress circle of a theatre at Charleston, South Carolina. They had procured tickets for reserved seats. The manager was arrested on a charge of violating State Law.

New York, Jan 10.—Two hundred and fifty Chinese arrived at New Orleans yesterday and started immediately for Texas.

The treaty for the acquisition of San Domingo, negotiated with President Davis by Commercial Agent Perry, will be sent to Congress on Monday. Senators assert that San Domingo is of much importance as Cuba, as the acquisition of one will lead to the other. Treaty not yet made public.

The country is to be added as a Territory, set as a State.

The Supreme Court of Alabama has decided that there can be no property in slaves since 1863, and the proceedings of Courts during the four years of the war are null and void.

WASHINGTON, Jan 10.—General Sherman, in general orders to-day, announces the death of Gen. Mewer, "that whom," he says, "a braver soldier or a braver man never lived."

The President has sent several nominations to the House to-day, among which are E. S. Salton of Chicago for Governor of Washington Territory.

A large number of bills were introduced including a resolution by Corcoran in favor of insuring the annexation of British Columbia in the sub-judice for negotiation with England. Stewart moved to take up a bill enacting Virginia to representation in Congress. Sumner opposed action on the bill until Committee investigates the condition of soldiers in Virginia. The bill was taken up and a heated discussion ensued. Stewart urged prompt admission of the State on the ground that the faith of Congress was pledged thereto. Sumner urged as a reason for deferring action, the condition of things in Tennessee which should teach the Senate caution. If the bill was allowed to go over until next week, he would not oppose its consideration. Howard opposed the admission of Virginia, and said he could not overlook the fact that the legislation was overwhelmingly rebellious. Edmonds wanted the bill postponed till he could inquire the condition of affairs in Virginia. Morton took the ground that the spirit of the entire reconstruction act gives all rebels the right to take part in the reorganization of the State except such as are embraced in the third clause of the 13th amendment of the State. Drake moved an amendment providing that any future reconstruction by virtue of its ratification of the 15th amendment should operate to exclude it from representation. The debate continued without reaching a vote. In the House a large number of bills were introduced, a large portion of which was a bill appointing representatives to Congress by Paine. Section of one provides that after March, 1871, the House of Representatives shall consist of three hundred members. The other sets provide details for carrying out the bills.

WASHINGTON, Jan 11.—Secretary Boutwell last night lectured for the benefit of the charity fund of the grand army of the Republic at Lincoln Hall, which was filled to overflowing.

—Owners of sums of money in the case of the wild rios, appear to assume. Mr. —, is engaged a man who is keeping the world in the wind up to be present. The news is very serious importance. The negroes on 15 large plantations in the district of Seville Grand have risen in rebellion. The military were shooting all who could be caught. Nobody here believes the hopeful statement by the semi-official journal. Since facts continually belie the assertion. The Spanish treasury is perfectly exhausted and the Government can send no money to Cuba. General Cabraldo de Cued has to borrow sixty million piastres from Havana merchants to provide for war expenses.

SAN FRANCISCO, Jan 11.—Legal tenders quiet at 82 buying, 82½ selling.

CURES AND COMFORT FOR
THE BED-RIDDER.

Holloway's Ointment.

This wonderful ointment cures every kind of sore, wound, bad leg, ulcer and eruptions of the skin; when rubbed on the surface it penetrates each tissue of its passage, and exerts its powerful influence over the internal structures.
