Perry Mills yesterday applied to Mr. Justice Walkem for an injunction restrain-Justice Walkem for an injunction restraining Frank Adams, the contractor for the parliament buildings, from using the stone brought down from the Haddington island quarries on the last trip of the steamer Velo. The ground of the application was chiefly that Tulloch had a lien on the stone and Adams should not be allowed to use it for building unless he paid into court its value, some \$700. Mr. Helmoken for the other building unless he paid into court its value, some \$700. Mr. Helmoken for the other side contended that nearly all the stone brought down had been cut by Mr. Adams' men and that most of it had already been used in the construction of the parliament buildings and was therefore not in Adams' control but that of the Chief Commissioner of Lands and Works. THE JUBILEE HOSPITAL

TO THE EDITOR :- Will you kindly allow one who has recently been an inmate of the Jubilee hospital to say a few words regarding remarks which are constantly being made to the effect that "the food given to patients is of an inferior quality," as I can state from experience that such is not the case. On the contrary, the food is good manufacturing and agricultural, to the Americans and other foreign nations and getting nothing in return.

"I would be willing to accept a limited reciprocity treaty, but I think, in view of the attitude of the United States for the past thirty years—since the last treaty was abrogated—it is a misleading of the public to suggest that such a treaty can be got. A limited treaty would be a good thing for Canada doubtless, but the Americans, believing that they can press us into annexation, and partly through the log-rolling dishonesty of their politicians, will not allow us any treaty that we can accept. We must get on without it, therefore. I look forward to the time that, from a sense of self-interest, they will further reduce their tariff, as we have done. We shall then get their service than that of older women treaty, the food is good and wholesome in every way, well cooked and wholesome in every way, well cook
