## Local News

Ask for Amherst solid leather foot-  
wear.  
(From Friday's Daily.)

Reduced Rates.—The C. P. R. an-  
nounces specially reduced rates to  
eastern points, the dates of sale being  
23rd and 24th of the present month,  
with additional dates as the season  
advances. The rates offered are ex-  
ceptionally low, and afford a splendid  
opportunity for a trip east at a nomi-  
nal cost. The scenic beauty of the  
Canadian line is known from one end  
of the continent to the other, while  
the passenger equipment this season  
is unsurpassed in point of ease and  
comfort.

Stopped Runaway.—Passers-by on  
Johnson street yesterday afternoon were  
treated to an exhibition of horse that it  
is seldom their privilege to witness.  
A runaway horse that had started from  
State street came rapidly up the foot-  
path, and after passing Johnson street, it  
appeared as if great damage might be  
done, but with great presence of mind  
Rod McDonald sprang from the side-  
walk and with apparently no exertion  
caught the horse by the bridle as it was  
going full speed up the street and  
brought it to a sudden stop.

Fruit Inspector Here.—Maxwell  
Smith, Dominion fruit inspector, was  
in Victoria yesterday on official busi-  
ness and had a few interesting re-  
marks to make to a Colonist reporter.  
He reports the apple and plum crops  
a fair average throughout the prov-  
ince. Pears light, cherries good in the  
interior, but light in the coast dis-  
tricts; strawberries below the average  
in quality around Victoria, but a fair  
crop, slightly damaged by frost in the  
Kootenay country. Apples rather  
seriously injured on the lower main-  
land. Mr. Smith was pleased to re-  
port that the Dominion standard berry  
box had proved abortive and many of  
the best local growers about Victoria  
were already using the legal boxes as  
a matter of plain duty, without undue  
pressure.

Firemen's Benefit.—Preparations for  
the performance to be given at the  
Victoria theatre on the afternoon and  
evening of the 28th are advancing  
favorably. The five of Victoria's  
finest who are to perform a tambou-  
r dance, being specially pre-  
pared by Mrs. M. Lester, the well-  
known teacher of dancing. Mr. Harry  
Eggs is spending all of his spare  
moments in preparing that popular  
comedy hit from the opera of "The  
Puff Blow" entitled "The Ghost That  
Never Walked" in the performance of  
which he will be assisted by a pony  
ballet of graceful dancers. The five  
young children in a musical play  
large introduction of the cele-  
brated quartet on various instruments,  
promise to be an instantaneous hit,  
and are aided by the splendid pro-  
fessional people seen here. These  
together with the Messrs. Hill, the  
famous Highgate comedians, and the  
features of the entertainment ex-  
pected to prove a feast of novelties.

Tram Extension.—The British Colum-  
bia Electric Railway company is pre-  
paring to make a start on the proposed  
extension along the Skeena river, and  
the next few days will see work com-  
menced. At present they are busy se-  
curing the material that will be used  
on the new line and planning the  
ready a start will be made. The com-  
pany intend rushing the work through  
to an early completion, and in opera-  
tion it will compare with any of the  
roadbed of the entire system. It is also  
the intention of the company to pro-  
ceed with the installation of electric  
light system in the section expected to be  
opened up by the extension of the line  
and within the next few weeks the stu-  
dents of that section will be able to  
snake connection. The district that it  
is proposed to supply is bounded by  
Burnside, Solihair and Sanchell. The  
company will also carry a spur  
line up Tolmie avenue in order that  
residents on that thoroughfare may  
have the opportunity of using electric  
light.

A Victoria Artist.—The Seattle  
Post-Intelligencer says of Miss Della  
Spray, who spends much of her time  
in Victoria, where her sister, Mrs.  
Hill, resides. Miss Della Spray, a  
former Seattle girl, who has won  
musical recognition from Eastern  
critics, arrived in Seattle yesterday  
to spend a short vacation with her  
sister, Mrs. T. H. Huntly, of 2135  
Sixth street. Miss Spray will re-  
turn to finish her season of the  
Schubert success, "The Social Whirl",  
on July 15. Miss Spray left Seattle  
last October for New York, where  
appearing in the metropolis she had  
been heard a few times in Seattle in  
private recitals and in amateur drama-  
tic. Her success in the East was the  
most instantaneous and during the  
winter she appeared in recital at  
leading New York clubs and before  
the social gatherings. Vaudeville was  
Miss Spray's first venture, and later  
she signed a three years contract  
with the Schuberts. At the conclu-  
sion of the present run of "The Social  
Whirl" next October, Miss Spray will  
go to London to appear before Eng-  
lish audiences in musical comedy,  
which she is still cultivating.

(From Saturday's Daily.)  
Bank Change.—Mr. F. E. P. Mc-  
Mein, manager of the Royal Bank at  
Victoria, is returning from a visit to  
enter into business for himself. His  
many friends in Victoria and Vancou-  
ver wish him success in his new  
venture. Mr. Whitney of the Chilwick  
branch will succeed Mr. McMein as  
manager.

Swiss Guides.—Four Swiss mountain  
guides, fresh from the Alps, passed  
through Winnipeg for the West this  
week. They are under the direction  
of the C. P. R. for service with  
mountaineering parties in the Rockies.  
All four are licensed as alpine  
guides by the Swiss government, and  
have been in Canada several times be-  
fore. They will be stationed at Glacier,  
Field and Lake Louise.

Fish Trap Suits.—The Anglo-British  
Canadian Packing company has com-  
pensed the province, B. C., with a  
table office will be found  
toria, where he is now

B. C. Packers have had traps out  
for a long time some distance out from  
the fore shore named, and the question  
at issue seems to be as to how far out  
from the shore the jurisdiction of the  
provincial government extends.

Freight at White Horse.—According  
to advice received yesterday from the  
North, there will be a clean-up at the  
White Horse warehouses, so far as  
freight is concerned, in a few days.  
On the 15th of June, 500 tons of freight  
left the docks at the point for points on the Lower Yukon  
River, most of which was going to Fair-  
banks. On the same date the Colum-  
bia sailed for Dawson and the Victoria  
and the Solihair followed on the 16th.  
There is a large amount of freight  
in transit between British Columbia and  
White Horse.

Last of the Mohicans.—Quarter-  
master Sergeant Lawrence, the last  
man of the Imperial force, which have  
for many years been stationed at  
Equimalt has left en route to Eng-  
land. The fortifications at Equimalt  
are now garrisoned by the Canadian  
militia. The Imperial troops left  
some time ago en route to the Old  
Country but a small detachment of  
men remained at Work Point till the  
Dominion government authorities had  
arranged to station a few members of  
Canada's permanent corps there.  
Quarter-master Sergeant Lawrence  
spent several years at Equimalt and  
was the last man of the British force  
to leave the Pacific coast defences.

Loggers Using Engines.—Handing-  
gors are still using donkey engines to  
pull their cut out of the woods to  
tidewater at various points along the  
coast. The use of these engines is in-  
creasing to information secured by Mr.  
John Murray, provincial government  
timber officer, who returned from the  
north last night, says the Province. It  
is contrary to the regulations affect-  
ing the cutting of timber under hand-  
loggers license that donkey engines  
should be used, and prosecutions in a  
number of cases of alleged breaches of  
the act will likely be initiated before a  
magistrate in the course of a short  
time. At present the Timber Depart-  
ment officials are closely guarding the  
identity of the loggers who are al-  
leged to have broken the regulations.

New C. P. R. Sleepers.—On the out-  
going C. P. R. Express on Wednesday  
morning a visit to the Bon Accord  
bathery. It has now been found impos-  
sible to seat the passengers in the  
ordinary standard sleeper and con-  
sists of two sections, one used for the  
berths and the other divided up into  
two women's dressing-rooms, two men's  
dressing-rooms and a large smoking  
room. The car is furnished with ma-  
chine, and the car is divided into two  
floors of the dressing-rooms and smok-  
ing-rooms and the waiting-rooms are made  
up of the upper and lower sections. The  
car is divided into two sections, one  
used for the berths and the other divided  
up into two women's dressing-rooms,  
two men's dressing-rooms and a large  
smoking room. The car is furnished with  
machine, and the car is divided into two  
floors of the dressing-rooms and smok-  
ing-rooms and the waiting-rooms are made  
up of the upper and lower sections. The  
car is divided into two sections, one  
used for the berths and the other divided  
up into two women's dressing-rooms,  
two men's dressing-rooms and a large  
smoking room. The car is furnished with  
machine, and the car is divided into two  
floors of the dressing-rooms and smok-  
ing-rooms and the waiting-rooms are made  
up of the upper and lower sections. The  
car is divided into two sections, one  
used for the berths and the other divided  
up into two women's dressing-rooms,  
two men's dressing-rooms and a large  
smoking room. The car is furnished with  
machine, and the car is divided into two  
floors of the dressing-rooms and smok-  
ing-rooms and the waiting-rooms are made  
up of the upper and lower sections. The  
car is divided into two sections, one  
used for the berths and the other divided  
up into two women's dressing-rooms,
