# WORKERS ARE

Strike Difficulties Present No. Alarming Features—Sale of Liquor Suspended—Patrol System of the I. W. W.

Telegrams received by Attorney-General Bowser yesterday, from Superintendent Colin S. Campbell, of the provincial police department, give the news that all is quiet along the line of Canadian Northern Pacific construction between Hope and Kamloops, many of the disaffected workers having already reto their engagements, while others are rejoining the contractors'

Yesterday about eighty reported for an station work.

By instruction of the attorney-general Superintendent Campbell has closed all places licensed for the sale of liquor beween Hope and Savona, this being purely as a precautionary measure, to minimize the chances of disturbance and breach of the peace, although the strik-ers up to date have displayed a commendable readiness to respect the law, and have even taken special measures within their own organization to guard against its violation.

In this connection the leaders of the I. W. W. with headquarters at Sayona ave just given out a statement outlining the work of their special patrol, the members of which are described as "special constables" engaged by and reporting only to the union officers. These, it is said by their leaders, are instructed to closely supervise the patronage of all drinking places and, in the event or any I. W. W. man being reported to be served with more than two drinks, to take him in charge, escort him to headquarters, search him, and appropriate the cash contents of his pockets for the fattening of the campaign chest, allowing the arrested one only sufficient small change to purchase tobacco, etc. Other offences are provided for in the

W. W. special strike code along the construction line, with penalties by fine amounts ranging from \$5 to \$25. Of course such procedure, in the event of objection being raised, would not stand for a moment as legal, even the se-called officers of the organization having no police authority, and their assumption of the functions of the lower courts being entirely indefensible. No one has as yet raised a protest to No one has as yet raised a protest to the attorney-general or to the police, flowever, and until they do so, interfer-ence is regarded as both unnecessary and impolitic, the system apparently operating advantageously in the pre-

As to the strikers' side of the questions involved in the present interrup-tion of activity in the rallway building zone, the following statement has been issued by authority of Brotherhood 3, local 327, and signed by Delegate H. M.

"In regard to the strike now on in the C. N. R. construction camps, the facts in the case are these: All last winter the men have been working under bad conditions, bad sleeping quarters and nothing too good in the line of cooking. A lot of work has been done by the men on the station system, that is, perhaps of work at so much per yard, and the majority of the men that have been engaged in this work on the completion thereof find enemiselves with little or nothing to show for ft.

"While it is not a state of the state five or six men take a certain amount

cen have taken this work on of their own free will, yet in some respects they have been compelled to take it, as there was no day work to be had. Wages for day work have been, for the company \$2.50 per day, with board \$6 per week and as men cannot work steadily and as men cannot work steadily in winter, there is very little left for the toiler, especially as everything they buy in the commissaries is up to top notch.
"Most of the people are not aware of the fact that this work is exteremely dangerous, as for instance in one week in and around the vicinity of Yale there were nine men killed; furthermore, men have to work at a pace that kills. After a man works a couple of months he has to lay off in order to recuperate. As men engaged in the same kind of work in the cities are receiving 37 1-2 cents an hour, and in some places more, our demands

are no more than just.
"A good many people, are laboring inder the delusion that the officials of this union are the governing body, while in fact the membership rules.
"While conditions on the lower end

of the line have been improved, up on the North Thompson the majority of the camps have no floors. In Murdock's camps, in 18x24 tents, sleeping room for thirty-two men has been provided, which is a good deal more than the Camp Act allows, as a man is supposed to have 300 cubic feet of air space. Mc-Donald's camp. fourteen miles north from Kamloops, is extremely dirty, with no floors, no wash-house and no laundry. Who is responsible? I leave the reader

"This strike will be run in an orderly manner; however, there are bound to be some headstrong members in every or ganization." .

ondon' "Observer" Says Dominion Is Ready to Take Her Proper Place in Empire

LONDON, April 8.—The Sunday Observer says, editorially: "Indications are that Canada is ready to take her proper place as the eldest daughter in the empire. While duly noting Hon. Mr. Borden's disclaimer of the programme article recently published in the Quebec Chronicle, we contend that the principles it foreshadows are so admirable, its effect at this juncture is so salutary, and its scheme is so full of the right spirit of imperialism that Premier Borden will do less justice to himself and his patriotic ministers if he does not make it his own in its main principles. Whether the time is yet ripe for an invested. the time is yet ripe for an imperial admiralty board remains to be seen. The forthcoming conference between the admiralty and Mr. Hazen will be

The first in line is Carl Jones, of Philadelphia. They will have to withstand the rain and snow storms, and one of the three women has baby in her arms.

"Just let us get Jim Hill to build a railway through the country we are after," said one of the men in line, "and we will be millionaires some day."
