

The Toronto World.

TUESDAY MORNING, APRIL 25, 1922.

THE CANADIAN AMBASSADOR ABROAD.

We have more than once urged the view that the establishment of the N. P. and the sending of Sir Alexander Gait to London as Canadian high commissioner were steps towards independence...

THE BULL IN THE RING.

Just when the audience least expected it, a significant snort is heard, and the bull of Canadian independence comes suddenly bounding into the political ring...

THE LIBERALS AND PROTECTION.

To the World: Whatever arguments may be put forward in favor of protection, no impartial observer will be able to say that the present tariff has been such an unqualified success that it would not be better for extensive modifications...

A GOOD SUGGESTION.

To the World: As so many excursions have been organized and carried out for the benefit of the public and remunerative to railroad companies...

THE GENERAL LABORERS' SOCIETY.

The General Laborers' Society for the city and district of Montreal appears to be a pretty strong organization. This is a ship-laborers' society, who are at present moving for an advance of wages...

MORE DODGING.

On the cost of living the Woodstock Sentinel Review differs away from the real point at issue in this manner: "No further or more convincing proof is necessary that the purchasing power of money has decreased and that it costs the laboring classes and artisans more to live under the N. P. tariff...

THIS IS THE WAY A CHICAGO PAPER PUTS IT.

Emigrants are pouring into the Northwest in largely increased numbers this spring, not from Europe but from Canada. A special train of emigrants from Canada, bound for Manitoba, arrived in Chicago last Tuesday via the Grand Trunk...

A GOOD SEASON'S GUNNING.

Mr. N. D. Fania has, since Nov. 1 last, or the beginning of winter, shot 120 partridges, 8 prairie or wood grouse and 80 hares, and during fall shot 23 ducks, 20 teal and 2 geese, all in the neighborhood of his own farm and Byant's Lake...

SANITARY SCIENCE.

Hygiene of individuals of homes of communities and of the State. Address by Dr. Caniff. On the occasion of the last public meeting for the season of St. Peter's young men's association last night, an address on the subject of hygiene was delivered by Dr. Caniff...

BRADSTREET'S LONDON CORRESPONDENT.

Bradstreet's London correspondent advises that American railway men should so order their ways of doing business as to give confidence to English capitalists instead of discouraging them. He thus concludes: "English investors are content enough with moderate rates of interest so long as they can obtain a steady security. With modicum of their way, or make their policy, get that is, our next demand is that he say plainly whether it is the N.P. that has made these articles dearer. No free trade paper has yet dared to take up this challenge of ours, except the Globe, which only took up part of it, and the Globe in effect 'acknowledges the corn.'"

THE OTTAWA FREE PRESS NOTES.

The Ottawa Free Press notes that besides the Dominion general election, which is expected to come off this fall, there will be provincial general elections this year in New Brunswick, Prince Edward Island, New Brunswick and Manitoba. The Prince Edward Island elections will be held May 21st. The dates in the other provinces are not yet fixed.

THE OTTAWA HERALD HAS PASSED INTO THE HANDS OF MR. W. J. CUNNEEN.

The Ottawa Herald has passed into the hands of Mr. W. J. Cunneen, formerly of the Citizen staff. The new proprietor promises improvements in the paper, and will doubtless make his word good. We suppose that Messrs. Nagle and Bennett will give their whole attention to the Winnipeg Sun.

EDWARD BLAKE IS WITH THE BULL WHEN HE CLAIMS THIS LATER RIGHT.

The Globe is dead against the bull in the matter of the tariff. It said we were doing a disloyal thing in making a tariff to suit ourselves. Where the Globe is on the treaty question remains to be seen—whether or not it takes it most of necessity be inconsistent. The Mail is with the bull on the tariff, against him on the treaty question. It says those who favor the latter are "reactionaries."

THE HAMILTON TIMES AND THE LONDON ADVERTISER DO NOT LIKE THE TARIFF SIDE OF THE BULL.

The Hamilton Times and the London Advertiser do not like the tariff side of the bull. The London News, however, looks through the semblance of the thing on official paper to what is in reality, and sees that this time the Canadian representative is more of an ambassador than a delegate, with all odds. Further, protectionist colonies, like Canada and Victoria, have advantages in tariff making that neither the mother country nor the free trade colonies are possessed of. If the former ask any foreign power for concessions, they have something to give in return; but the latter, having already given away everything, have nothing more to give. A true description, we must say, but coming from the Daily News, surely a sarcastic one, of the advantages resulting from the mistaken policy of giving free trade before you are certain of it in return. It being clear that a protectionist country has the advantage over a free trade one in negotiating commercial treaties, the Daily News talks back on the only logical conclusion, from its point of view—that no free trade nation should ever make any commercial treaty at all.

REGARDING THE PRESENT ATTITUDE OF CANADIAN STATEMENTS TOWARDS INDEPENDENCE.

Regarding the present attitude of Canadian statements towards independence, we have already said that it is a certain irony of both fate and logic is to be observed. In the Home, the other day, the reform leader moves resolutions to the effect that Canada should have the power of making her own commercial treaties. The conservative leader condemns the motion as disloyal and tending to separation from the mother country; also as unnecessary, because all that is necessary is already conceded and is being put in practice. But nine days before this a leading London journal, which is probably more than any other the organ of the British liberal party and the Gladstone government together, had declared that a certain thing had already been done, as was then going on, as an exercise of colonial power, as was an important step towards separation. A day it was the loyal Sir John, of all men, who did this thing! Mr. Blake, again, brings up resolutions, on paper, in favor of Canada's commercial independence; but he opposes the national policy, which is the thing itself reduced to practice. One side advocates protection, but opposes the formality of making for the independent treaty-making power, though putting that power virtually in practice. The other advocates the formal declaration of independence in treaty making, but opposes protection, which is really the most practical kind of independence that Canada can begin with—what she must begin with, if she is ever to be independent at all. What will the Daily News say when the papers with last Friday's debate reach London? This, we predict—that the World has already said—that both sides here are committed to commercial independence—the opposition by resolution and the government by practice. From this conclusion there is no escape.

THE OTTAWA HERALD HAS PASSED INTO THE HANDS OF MR. W. J. CUNNEEN.
