FRIDAY, APRIL 14, 1922

NOTE AND COMMENT

Destroy the home and the state perishes from the earth; destroy the filial affection and the home and the state vanishes.

The Midland Free Press is of the opinion that the rates at summer resorts should be lowered, or as it terms it the summer extortion of tourists should be stopped.

Over in Goderich moonlight excursions on Lake Huron for dates in June next are now being advertised. There must be hustlers in the Lake Huron port who believe in a liberal use of printer's ink. Not only this, but they favor giving it a chance to make good. Do you get the idea Mr. Business Man who believe in letting George do it in the matter of publicity?—Collingwood Bulletin.

The Kincardine Reporter in calling a halt on Government expenditures remarks that it took \$4,415,269 more in 1920 to run the province, and \$7,115,113 more in 1921 for ordinary expenditure than the Hearst government spent during its last year in office. This makes pleasant reading for Conservative supporters in view of the recent Shelvin-Clark investigation showing the Hearst administration sold the timber berths \$3,000,000 too cheap.

"Is there a real devil?" the Collingwood Bulletin would like to know. If a printer's devil is meant the answer is easy. There is now practically none. Boys are not learning the trade—or any other trade. Skilled labor grows scarcer, and the army of the idle and uneducated, who are little if any better than pick and shovel men, increases. Boys in these days will not take time to learn a trade. But they will have time, all the rest of their lives, to repent of their folly, for which they will pay dearly.—Orillia Packet.

Stratford Herald.—The threatened coal strike is just like everything else. If people get panicky over it, there may be a lot of trouble which could be avoided. Ferry boats have been known to swamp when every passenger on board rushed over to one side of the craft. If people start laying in coal for next winter with an anxiety which has no regard for price, the effect will soon be felt when the strike becomes a reality. There is reason to believe that existing stocks of coal are large enough to go round if the proper distribution is made and if economy is practiced by all.

Ottawa Journal.—The most amazing thing about the whole matter is that the squandermania and taxing spree of the Provincial government do not stir the public to greater indignation. While it is the people and not the corporations who pay the taxes, Mr. Smith is probably justified in concluding that since the tax bills are not sent to the people direct he has a fair chance of getting away with increases that almost double the volume of taxes in three years. Mr. Smith in the Legislature didn't even trouble himself to explain where the increases were to come from, so little does he think the public cares.

One of the most effective vermifuges on the market is Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

Standard hotels are not now liable to a business tax.

Essex Free Press.—With the avowed object of keeping people from gossip and other forms of hurtful conversation, and of inspiring kindly thoughts and kindly speech in the minds and mouths of its members, "The League of the Kindly Tongue" has been formed in this district by J. R. Strickland, of Essex, and Mrs. Strickland. Let us hope that the League will secure a large membership, and that its members will live up to its obligations, cut out gossip and inspire kindly speech. 'Tis true some people would sacrifice a lot of their present pleasure but the community would be better off.

A proposal to place a special tax on the income of all aliens, not residents of Canada, but who derive their income for services rendered in Canada, is to be moved in the House by W. M. German, Liberal member for Welland. Mr. German has given notice that he will move "that the Government should consider the advisability of amending the Income Tax Act, 1917, as amended by subsequent Acts, by providing that there shall be paid upon the annual income of all aliens, not being residents of Canada; who are employed in Canada or derive income for services rendered in Canada, 8 per cent. upon all such incomes exceeding one thousand dollars."

Springfield Republican.—The British are a very great people. The marriage of the Princess Mary is only another example of how they manage to do the right thing before the crack of doom. Remember the World War and how the British Empire came out of it bigger than ever. Look at Ireland—for years given up as hopeless. Think of Balfour coming to Washington and putting across the four-power treaty, while getting a naval holiday, and going home with both Japan and America the sworn friends of old John Bull. No people on earth today have political talent, experience and skill equal to the British. Congratulations to the former Princess, now a humble Viscountess; and if you please felicitations to old England on leading the world just by poise and brains.

It is announced that the Ontario government will introduce a bill to provide for alternative votes in the next provincial election, which will greatly affect minority candidates, that is, candidates who have not a majority over the combined votes of their opponents. The plans of the bill are that where there is a three-cornered fight, and where no one candidate has a majority over the combined vote of his competitors, the lowest man drops out and the second choices on his ballot will be added to the votes of the two leading candidates, thereby deciding the winner. In a four-cornered fight there will be a third count, the lowest dropping out each time. It will work out that only the majority candidates will be known as successful candidates on election day.

THE FARMER FEEDS THEM ALL

The King may rule o'er land and sea,
The Lord may live right royally,
The Soldier live in pomp and pride,
The Sailor roam o'er the ocean wide
But this or that, what'er befall,
The Farmer, he must feed them all.

The Writer thinks, the Poet sings,
The Craftsman follows wondrous things,
The Doctor heals, the Lawyer pleads
The Miner follows the precious lead,
But this or that, what'er befall
The Farmer, he must feed them all.

The Farmer's trade is one of worth,
His pasture with the sky and earth,
His pasture with the sun and rain,
And no man loses for his gain,
And men may rise and men may fall
But the Farmer, he must feed them all.

God bless the man who sows the wheat,
Who finds us milk, and fruit, and meat,
May his purse be heavy, his heart be light,
His cattle, his corn, his all go right;
God bless the seed his hands let fall,
For the Farmer he must feed us all.

If one be troubled with worms, he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

GERMANS HARD AT WORK WHILE DISCONTENTED IDLE

The Association of German University Students seems to have got a thorough grasp on the economic situation. They have decided to send an open letter to all high school graduates intending to enter universities appealing to them to go to productive work instead of becoming an insupportable tax on their parents at this time—to go to work for the purpose of increasing the incomes of the German people. But in Canada particularly, and also in the United States, German agents are hard at work creating discontent and preventing Canadian workers from staying on their jobs.

UNSIGHTLY PIMPLES AND FACE ERUPTIONS

In the Spring Most People Need a Tonic Medicine

One of the surest signs that the blood is out of order is the pimples, unsightly eruptions and eczema that come frequently with the change from winter to spring. These prove that the long indoor life of winter has had its effect upon the blood, and that a tonic medicine is needed to put it right. Indeed, there are few people who do not need a tonic at this season. Bad blood does not merely show itself in disfiguring eruptions. To this same condition is due attacks of rheumatism and lumbago; the sharp stabbing pains of sciatica and neuralgia; poor appetite and a desire to avoid exertion. You cannot get rid of these troubles by the use of purgative medicines—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, blood-improving, nerve-restoring powers. Every dose of this medicine helps make new, rich blood which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired, ailing men, women and children. If you are out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits and fill your veins with new, health-giving blood.

You can get these Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Notice

Owing to the slackness all over in the wiring business at this season of the year, wiring material has slumped owing to lack of demand. This will only be for a short period so that anyone interested in wiring their house would do well to consider it now before the busy season starts. Call me up and let me give you an estimate. It will be worth your while.

WATFORD, Phone 28

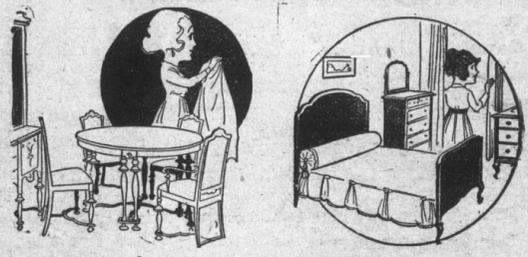

A Prime Dressing for Wounds.
In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and does not scar the skin or burn the flesh. m
