NEW BARRACKS WANTED .- We under New Barracks Wanted.—We understand that an officer of the Engineers, has examined the Barracks at Fort Tipperara, and that a new fence is to be placed around the Fort—it would just be as well at the same time to erect a new barracks, as really the present one is a disgrace to the Province, more particularly so from its prominent situation on the lines. We were in hopes that His Excellency's visit to our delapidated fort, would have led to something being done at once towards erecting a new building, capable of containing at least 400 or 500 men. At the same time the Blockhouses should be put in a state of repair, the ramparts are worn put in a state of repair, the ramparts are worn away, the gun carriages are rotten, and many of the guns are lying on the ground. In the time of peace prepare for war, is a good maxim, and we should take the hint from our neighbors who are acting upon it, and put our frontier in a state of defence. Notwithstanding our desire to maintain peace with the Americans, the perverse obstinacy with with which the dread of their democratical masters induces the heads of the United States Government to act in the case of poor McLeod, will shortly lead, we fear, to the disturbance of the peace we at present enjoy.

TAN EXPRESS passed through this Town yesterday morning, with dispatches from Washington, to His Excellency the Lieut Governor. We have not learnt the nature of

The following explanation of the term "Conservative" from the columns of the London Times newspaper, will astonish some of our readers. It is evident that the Con-seratism of the Times, (and we presume of the party whose interests it represents,) is un-

dergoing a wonderful mutation:

"Conservatism does not mean the preserving everything, but only such things as are worth preservation; and, in many instances, this cannot be done without cutting off a mortified member, paring down an excresence, tified member, paring down an excresence, scraping away an accumulation of time, repairing a breach, or adding a support. A tationary policy is impossible, and, even it it were possible, it would be not Conservative but destructive. Advance we must; the only question is in what direction?—and what means, not ends, the physical and not the moral department of politics, are under discussion all must agree to answer—in the discussion, all must agree to answer—in the direction of the greatest practible utility."

Doctor Lyell, the celebrated Geologist, who passed through Halifax a few weeks ago, had arrived in Boston, and was about lecturing

DENTISTRY.

DR. H. P. PERKINS, SURGEON DENTIST, would inform the Inhabit ants of Saint Andrews and Vicinity, that he has taken rooms at Mr. Henderson's, cor-ner of William and Queen Streets, where he is ready to attend to the various branches of

his profession.

Mineral Teeth inserted on Gold Plate or Pivot, on the most reasonable terms. Decaged Teeth filled with Gold (or Silver Foil) so as to entirely stop the progress of decay, and render them firm and serviceable. Particular attention paid to scaling and cleansing the teeth, (such as removing the tartar &c.)
Also to the diseases of the mouth and gums where they are suffering from scurvy, can-

ker, &c.
Dr. P. would remind Parents of the importance of having their children's teeth examined when they are irregular or crowded, if attended to in season they can always be ob viated and reduced to symmetry. Teeth extracted with the most approved instruments (the Forceps) and with as little pain as possible

Dr. P. has a new article for filling teeth that are too far decayed or too tender to be filled with gold-teeth that are much Sept. 3, Schr. Dove, Gilliat, Annapolis, bal.

4, Bqe. Protector, Forrest, Demerara,

4, Bqe. Protector, Forrest, Demerara,
