BRONCHITIS

If Neglected, it soon reaches the Lnngs and may Prove Fatal. and may Prove Fatal.

Mr. G. L. Garrow of 116 Millicent St.,
Toronto, writes under date of September
13, 1908, "One year ago this spring I contracted a severe cold in the chest, which
developed into Bronchitis. I took three
kinds of medicine and found no improvement. Afriend of mine advised me to try
PSYCHINE and in three days I felt like a
new man again. I desire to let others know
what a valuable cure you have in PSYCHINE for it cured me where all other medicines had failed. I am more than thankful to
be well again, and for the sake of others who
may be ill, you may publish this testimonial."

Stop that cold or the results will be
serious. You can do this by toning up the
system with PSYCHINE.

Between Good Flour and Flour That's Good Enough

THE DIFFERENCE between good and bad, Madam? Just as great as between eggs fresh from the "cackle" and others of more ancient vintage; between "all-wool" and "arf and 'arf." Might add that good flour and poor flour are divided by a price difference and, incidentally, a baking difference.

wheat berry, so entirely different has ever been offered to discriminating housewives. A pound goes farther-its strength and absorption powers would make its use economical at much above

the price your grocer asks. Even if all other millers knew where to get the same plump, sun-ripened, wholesome berries,

And even if they had the same facilities to prevent possible spoiling before the grain reaches the rolls, And they had mills as perfect as the Keewatin Pure-Food plant to grind this prime Yet their product would not

begin to compare with FIVE ROSES.
