Railway and Traffic Matters.

The Canadian Northern Railway contemplate running an excursion to Fort Frances in the course of a week or ten days. A big sale of town lots is to be held and it is possible that a free trip may be given.

Hugh Mann, of the Canadian Northern Railway, has invented a track-laying machine which it is claimed is capable of doing the work of 100 men and will lay one mile of ties and steel per hour. A trial test was made in laying tracks for the new Canadian Northern yards in Port Rouge, Winnipeg, and is said to have worked satisfactorily.

Wm. Whyte, assistant to the C.P.R.

president, has returned from Montreal, where he had been to submit his report regarding his tour through Russia to Sir Thomas Shaughnessy, the president of the road. Mr. Whyte states that his report will be given to the meeting of the Canadian Manufacturers' Association on Nov. 5 and 6, as the Canadian Pacific Railway Company wish to know the attitude of Canadian manufacturers before putting on a line of steamers. The Russian tariff may interfere with the carrying out of this idea. At present imports other than agricultural and mining machinery are taxed highly, and as Russia is greatly in need of money it is quite unlikely that the present rates will be reduced. There

should be no reason, however, why the export of machinery should not be developed.

The total number of failures in Canada last week as reported by R. G. Dun & Co., against 37 the previous week and 32 the same week last year.

The department of agriculture is conducting an investigation into the rejection by the war office officials of a quantity of Canadian canned meats sent to South Africa. The Canadian canners entered a protest against the rejection claiming there was nothing to justify the officials' action. The chemists' reports already received bear out the Canadian claim.

The press rate on telegraph messages over the government telegraph line to Dawson has been reduced from \$3 a message of a hundred words to a minimum rate of \$1. This makes the new rate one cent a word.

A gold rumor of startling proportions has been circulating in Winnipeg this week. The story is to the effect that a strike of gold ore of exceeding richness has been made in a rock cut near Ft. Frances on the Canadian Northern line. It is said to have been assayed and to have been valued at \$5,500 per ton of ore by a local expert.
