

BLOOD GENESIS

THE formation of a rich nutrient circulating fluid. Blood which shall contain an abundance of red corpuscles of the necessary structural and physico-chemical integrity. How to "build" such blood is an ever-present therapeutic problem for the physician to solve.

Pepto-Mangan ("Gude")

is a powerful blood-forming agent; it induces the generation of haemoglobin, the oxygen carrying constituent of the blood; it is a genuine haemoglobinogenetic. It feeds the red corpuscles with organic Iron and Manganese which are quickly and completely absorbed in cases of

Anæmia from any cause, Chlorosis, Amenorrhœa,
Dysmenorrhœa, Chorea, Bright's Disease, etc.

To assure proper filling of prescriptions, order Pepto-Mangan "Gude" in original bottles ($\frac{3}{4}$ xi).

IT'S NEVER SOLD IN BULK.

M. J. BREITENBACH COMPANY,

Sole Agents for United States and Canada,

LABORATORY,
LEIPZIG, GERMANY.
