With the Supplement the work now forms a splended octavo volume, for the parlor, or for the library,

Testimonials to former Editions, selected from more than a hundred, from all Protestant Denominations.

EPISCOPAL.

From the Protestant Churchman.

"This is a beautiful volume of 672 pages. Good service has been done for the cause of truth by this publicaion, and it certainly ought to secure for its author an enviable reputation among contributors to the standard liteature of the day.

From the Episcopal Recorder.

"It traces its subject from the earliest corruptions of Christianity to the present time. It has a full Chronological Table, with Analytical and Alphabetical Indices and Glossary. It is a large and beautiful volume, and full of valuable information."

METHODIST

From Zion's Herald.

"It is written in a popular style. Its engravings are numerous and finely executed. The book will doubtless by popular, and cannot fail to produce a profound convic-tion of the terrible imquity of Anti-Christ."

CONGREGATIONAL.

Rev. Dr. Cheever, in the New York Evangelist, says-We ought to have noticed this excellent and beautiful work before. It possesses many and very strong claims for popular tavor, and we do not doubt that it is destined to have an extraordinary sale. The work itself is characterized by great research, and a comprehensive and Scrip-tural view of the nature and history of the Popish system."

PRESBYTERIAN.

From the (Philadelphia) Presbyterian.

"Such a work required deep and protracted research. and it affords evidence that diligence, caution, and judyment, in the selection and arrangement of materials. have not been wanting. The author has availed himself of the writings of both Protestants and Papists, and has brought together a greater mass of information on the history, the spirit, and the doings of Popery, than we have ever seen before in one volume."

MISCELLANBOUS.

From the Christian Intelligencer, (Dutch Reformed ) "Those who would see a correct and condensed exhibition of the ten thousand adominations of the Papacy, may find it, to their amazement, in Dowling's History of Romanism. Its contents form a rich sortchouse of historical instruction, which, if it could be placed within the reach of every family, would prove an unspeakable bles-sing to our beloved country. Rev. Alexander Cambbell, President of Bethany College, of the Church of the Reformers, says: "In this work are an immense assemblage of facts and documents con-nected with the development and history of this great mammoth institution of error and iniquity. Popery is de-veloped in this treatise from its bitth to the present hour. We desire for this. Book a very large circulation. It'is only necessary to enlighten this community in the true spirit and character of the Papal system, to secure them against its insiduous attacks upon everything we as a people hold dear and sacred. Let every one who buys this work communicate freely to all around him the developments which it reveals, and the facts which it records."

President Cramp, of Montreal, Editor of the Montreal Register, and author of the Text Book of Popery, says:— "This important work possesses ricrits of a high order. We are pleased to see that Dr. Dowling furnishes ample references to his authorities. The matter is well arranged. the facts unquestionable; the style lucid; and the spirit, Cathelic, in the proper sense of the term. Its extensive irculation will be highly advantageous to Protestanism."
