ALEXANDRIA, Sept. 23.—It is disgusting to witness the enthusiasm of the natives for the Khedive and hear the expressions of loyalty of many who have been notorious friends of The Khedive, however, is not de-The fact that several partisans of ceived. Arabi still hold Government appointments, under the protection of certain Ministers, is much commented on. The Khedive has issued a manifesto declaring England has great interests in Egypt regarding the finances and traffic through the Suez canal. For the protection of those interests she was compelled to interfere. She has no intention of annexing the country. The Khedive announces that he authorized Sir Garnet Wolseley to represent him in restoring order and punishing the rebels. All loyal Egyptians are called upon to render Sir Garnet Wolseley every assistance. Any body refusing to do so will be treated as a

A solemn service of thanksgiving for the British pacification of the country was held in the Roman Catholic church to-day. The congregation, a very large one, included the foreign consuls, British military authorities and a deputation from a number of regiments. A requiem will be sung to-morrow for the victims of the massacres and those killed in battle.

It is officially announced that Wolseley and Seymour will be raised to the peerage, in scknowledgment of their distinguished services in Egypt.

CONSTANTINOPLE, Sept. 24 .- It is said that the Grand Shereef of Mecca was deposed on account of his treasonable relations with Arabi Pacha.

NEW YORK, Sept. 23 .-- The Tribune's London special says: The surrender of Damietta finally disposes of the Egyptian rebellion. The English and foreign press are in the thick of the din of discussion on the settlement of the country. It seems to be forgotten that it practically remains with Mr. Gladstone to say whether there shall be a reference to Europe or not. The Powers agreed to British intervention on the understanding that any modification of the status quo should be submitted to general consideration. At present the status quo only is revived since the Khedive is resuming the Government with the old arrangements, including Anglo-French control, in which the French representative takes part. It is quite probable, however, that Gladstone's scheme will make necessary serious changes. It is most likely they will be submitted to Parliament, and that the Conference will assemble as to the purchase of suzeranity. It is strongly pressed on the Government that England deciares she will not encroach on the Sultan's rights. On the other hand we hear from Vienna that Europe is quite willing to grant England the wardenship of the Suez Canal, with protection of territory on either side. French papers are demanding that England shall compensate them for the exclusion from Egypt by consolidating their influence in Syria. Gladstone's triumph in Egypt is a crushing blow to his opponents at home. Lord Dufferin shares the congratulations headed on Wolseley by the Irishmen. Whether by the stupidness of the Porte or by careful design, he kept the Turks out of Egypt, and prevented the execution of the commission given the Sultan without offend-

English opinion. The Khedive and the Egyptian ministers were received at the depot this afternoon by the Duke of Connaught and Sir Garnet Wolseley. A detachment of Grenadiers was drawn up on the platform, and the Household Cavalry lined the approaches to the depot. The Royal Artillery fired a salute, the band of the Grenadiers playing the National Anthem. The Khedive, the Duke of Connaught, Sir Garnet Wolseley and Sir Edward Malet entered the same carriage and were driven to Ghezireh Palace. The streets through which they passed were densely crowded and lined by almost all the English and Indian troops now here. The natives gathered along the route, numbering many thousands, gave the Khedive a very friendly welcome. All the Uhlemas as well as the Sheik of El Ashar Mosque and the Kadi, were at the depot.

It is estimated that 150,000 persons witnessed the entry of the Khedive into the city. Arabi says the best thing the English could do for Egypt would be to send all the notables and other leading men connected with the rebellion out of the country. If they do not vengeance will surely be wreaked upon them after their departure. Seeing the manner in which the British treat their prisoners and wounded, Arabi says they are a great people, and he is heartlly sorry he fought them. He never thought the English would send a large army to assist the Khedive, and so he was led into the war. He denies having any communication with the Sultan during the

TRUE WITNESS OFFICE. TUESDAY, Sept. 26, 1882. In London to-day British Consols were again higher at 100 5-16 money; 100 7-16

In New York yesterday afternoon the rate for money was run up to 25 per cent. The opening rate received here to-day was 12 per cent. The steep advance yesterday was merely the work of manipulators and stocks did not suffer to any extent in proportion. The Bank of Montreal and other Canadian banks have several millions loaned in New York at from 8 to 12 per cent.

## THE HORSE MARKET.

Owing to the Exhibition having brought some good horses to the city, business will be brisker in a few days. The market during the week has ruled quiet and without new features of importance. At College street market some first-class animals are for sale but the demand at the moment is dull, owing to the distracting influence of the Exhibition. One thoroughbred brown mare, 7 years old, 16 hands high, sold for \$275, and one bay mare, 6 years old, and 15 hands high sold for \$140. Two Shetland ponies also changed hands at \$135.

## MONTREAL FRUIT MARKET.

For good fall apples the market is steady, and they are quoted at \$2 50 to 2 75 per bri fancy varieties bring \$3 to 4. Lucerne" left port to-day with 1,200 brls., and large consignments will go forward tomorrow. The season for blueberries is nearly over. Only 400 boxes arrived to-day from the Saguenay, and small sized boxes sold at 70c to 75c. Grapes sold at 10c to 12c per lb wholesale, and peaches at \$3 per box.

## COMMERCIAL NOTES.

A despatch from London states that the subscriptions recently invited to the stock of the European, American, Canadian and Asiatic Cable Company have been returned to the subscribers. The total sum is said to have amounted to less than £1,000.

The report that Harrison & Havemeyer's sugar refinery in Philadelphia was on fire, and was likely to prove a total loss, caused quite a commotion in the New York market yesterday, where granulated was quoted by telegraph to parties here at 94c to 94c, being an advance of fc upon last week's figure. Here prices were ic higher on yellows.

The price of Canadian phosphate is reported lower in the English market, and as a consequence prices are easier here, the sale being reported of a carga of good ore at \$20 per ton f.o.b. Montreal, and another smaller lot is mentioned as having brought the same figure, which is said to be fully \$1 per ton below what it praviously realized. South Carolina phosphate, deliverable in New York, per 2,240 lbs., is quoted at \$9.50, but the demand is slow. Ocean freights from this port to Great Britain is quoted at 12s 6d to 15s sail and steam.
