

THE GRIPPE EPIDEMIC.

A SCOURGE MORE TO BE DREADED THAN CHOLERA.

Medical Science Powerless to Prevent Its Spread—It is again Sweeping Over Canada With Great Severity—How Its Evil Effects Can Best be Counteracted—Only Prompt Measures Can Insure Safety

It is stated on high medical authority that an epidemic of the grippe is more to be feared than an outbreak of cholera. The latter disease can be controlled, and where sanitary precautions are observed the danger can be reduced to the minimum.

When, a few months ago, it was announced that cholera had broken out in Grimby, one of England's important seaports, it was feared that it would reach this continent, yet this once dreaded scourge was checked and exterminated with a loss of not more than half a dozen lives.

Mr. George Rose, Rednersville, Ont., says: "I am well to-day, and do not hesitate giving Dr. Williams' Pink Pills the credit of saving my life. I had three attacks of the grippe, and was so reduced in flesh and strength I could hardly stand alone."

Mr. James McKay, Tiverton, N. S., says: "I had the grippe about three years ago and that tied me up pretty well. I wasn't fit to take charge of a ship, so sailed south as far as Milk River, Jamaica, as nurse for an invalid gentleman."

John W. Booth, Newcombe Mills, Ont., says: "Words cannot express the gratitude I feel for the great good I have received from the use of your Pink Pills."

strengthened, and I am feeling better than I have done before in years.

Mr. W. A. Marshall, principal of the Clementsport, N. S., Academy, says: "I had a bad attack of the grippe which left me weak, nervous and badly used up."

Mr. B. Crouter, Workworth, Ont., brother of Rev. Darius Crouter, who some years ago represented East Northumberland in the House of Commons, says: "Two years ago I had an attack of the grippe which nearly cost me my life."

Scores of other equally strong recommendations might be quoted, but the above will suffice to prove the undoubted efficacy of Dr. Williams' Pink Pills in removing all the evil effects of the grippe of influenza, and those who have in any degree suffered from this dangerous malady should lose no time in fortifying the system by the judicious use of Pink Pills.

"A snake in the grass" is all the more dangerous from being unsuspected. So are many of the blood medicines offered the public.

The local produce market is quiet. Inspector Jarshall says he is unable to account for the quietness unless bad roads be responsible. The wood trade is quiet. Snow came so early that it was impossible to get into the swamps and local dealers have the markets to themselves.
