

Item No. 86: Statement Made by Stuart Hemsley in Fifth Committee
on December 2, 1965 on United Nations International School

The Canadian delegation intends to vote in favour of the seven-power draft resolution A/C.5/L.851/Rev.1 which has been introduced by the representative of New Zealand. My delegation believes that the East River platform site should command unanimous support in view of the Board of Trustees' unanimous approval and as well because of the growing concern about the need to retain for future expansion the limited remaining space at United Nations Headquarters.

In voting in favour of the seven-power draft resolution my delegation shares the hope of the ACABQ as expressed in the final paragraph of its report A/6113 that this will be the last year that deficits will have to be covered from the regular budget. We urge member states which have not already done so to contribute towards the development fund, the proceeds of which together with tuition fees should be sufficient to cover future operating costs.
