

ANNEX C**Nuclear Material, Special Non-Nuclear Material, Equipment and Technology
Subject to this Agreement**

The following nuclear material, special non-nuclear material, equipment and technology are subject to this Agreement:

1. Nuclear material, special non-nuclear material, equipment and technology transferred between the Parties, directly or through third parties;
 2. Special non-nuclear material and nuclear material that is produced or processed on the basis, or by the use, of any equipment subject to this Agreement, other than plants for the conversion of uranium as listed in Annex A;
 3. Nuclear material that is produced or processed on the basis, or by the use, of any nuclear material or special non-nuclear material subject to this Agreement;
 4. Equipment which the recipient Party, or the supplying Party after consultations with the recipient Party, has designated as being designed, constructed or operated on the basis of, or by the use, of the technology referred to above, or technical data derived from equipment referred to above; and
 5. Without restricting the generality of the foregoing, equipment that satisfies all three of the following criteria:
 - 1) equipment that is of the same type as equipment referred to in paragraph 1. (i.e. its design, construction or operating processes are based on essentially the same or similar physical or chemical processes as agreed in writing by the Parties prior to the transfer of the equipment referred to in paragraph 1.); and
 - 2) equipment so designated by the recipient Party, or the supplier Party after consultation with the recipient Party; and
 - 3) equipment which is first operated at a location within the jurisdiction of the recipient Party within 20 years of the date of the first operation of the equipment referred to in subparagraph 1).
-
